

**Kossuth's Prophecy.**

When the siege of Sebastopol was first proposed, Kossuth expressed the following decided opinion on the subject, which seems now quite likely to be realized:

"To take an entrenched camp, linked by terrible fortresses, and an army for a garrison in it, and new armies pouring on your flank and rear, and you in the plains of the Crimea, with also no cavalry to resist them, is an undertaking, to succeed in which, more forces are necessary than France and England can ever unite in that quarter for such an aim. Ask about it, whichever staff officer has learned something about tactics and strategy. And in that position is Sebastopol, thanks to your Austrian alliance, which, having interposed herself between you and your enemy in Wallachia, made the Czar free to send such numbers to Sebastopol as he likes.

*You will be beaten, remember my words!* Your braves will fall in vain under Russian bullets and the Crimean air, as the Russians fell under Turkish bullets and Danubian fever. Not one out of five of your braves, immolated in vain, shall see Albion or Gallia again. But I will tell you in what manner Sebastopol is to be taken. It is at Warsaw that you can take Sebastopol."

**Cereal Wonders.**

At the Corn Exchange meeting in Philadelphia on Tuesday some samples of California wheat and oats were exhibited which excited much wonder. The grains of wheat and oats were of remarkable size, the former being at the rate of seventy pounds to the bushel, a thing unheard of here, where the very best samples of wheat do not go higher than the rate of sixty-three or sixty-four pounds to the bushel. The head of wheat was also of great size. With such fertility as the soil of California must possess to yield such products as these, it is no wonder that we already hear of the abundance of the last wheat crop, and of its being sufficient to supply that region. Some fine samples of cotton grown in California were also exhibited—a fact which shows that the State is adapted to almost any of the crops now cultivated in other sections of the Union.

**WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.**

A Cure for Consumption, Scrophula, Coughs, Colds, Asthma, Bronchitis, Spitting of Blood, and all complaints of the Lungs.

The Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly, that the taste of the Oil, which is nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the pure oil, the following case, by Prof. Stone, is sufficient to convince the most skeptical. The young lady was 24 years of age.

"Her disease was one of unmix'd phthisis, which had been expected to terminate in the course of a few months, fatally. The upper part of both her lungs was filled with tubercles; and in some places were beginning to soften. The case was evidently a bad one. The treatment of cod liver oil was at first used, but without marked improvement. The phosphate of lime was then administered with the oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."

**CAUTION.**—On account of the great reputation of this Compound for all Lung Complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only receipt in the United States for combining the PURE OIL with LIME in a proper manner. Therefore, as you value your health, purchase none except that manufactured by  
ALEX'R B. WILBOR, Chemist.

**DR. J. LANTZ, DENTIST.**

Has permanently located himself in Stroudsburg, and moved his office next door to Dr. S. Walton, and nearly opposite S. Melick's Jewelry store, where he is fully prepared to treat the natural teeth, and also to insert incurruptible artificial teeth on pivot and plate, in the latest and most improved manner. Most persons know the danger and folly of trusting their work to the ignorant as well as the traveling dentist. It matters not how much experience a person may have, he is liable to have some failures out of a number of cases, and if the dentist lives at a distance, it is frequently put off until it is too late to save the tooth or teeth as it may be, otherwise the inconvenience and trouble of going so far.—Hence the necessity of obtaining the services of a det near home. All work warranted.
