Ice Cream and Eating Saloon.

Mr. Joseph Thomas has fitted up a splendid Ice Cream and Eating Saloon, in Mr Auracher's new building, in this place, and is fully prepared to serve our citizens, and all others who may feel disposed to give him a call, with every thing in his line of business, in good style. His articles too are all fresh and of a superior quality.

An establishment of this kind has long been needed in the place, and now that we have one, and that too, conducted upon the right principle, it is hoped that our citizens will cious, are now enjoyed by the inhabitants support it liberally.

#### Cholera.

The Pittsburgh papers announce the existence of Cholera in Chartier's town- 23 years old, mother of four children, the Amphion 36, new frigate, while employed jury to our men in possession of the lateship, near that city. It breke out in a building containing 73 occupants, mostly 3, last 1 year. The eldest was, of course, and in consequence foundered. neuralgia, but up to that time enjoyed of the Philadelphia Ledger :good health, and has made every arrange-\$25,000. Her maiden name was CATH-ARINE LERCH, and was a native of Northampton county, Pa.

#### Prices of Wheat and Flour.

Considerable of the new crop of wheat has arrived in the Baltimore market, and on Saturday there was a decline of 3 or 4 cents per bushel, selling at \$2 25 to \$2 35, and closing with a drooping tendency under the expectation of large receipts this week. As yet, lit tle or no new flour has been manufactured and come into market, and on account of scarcity, the price of that article is actually rising whilst the "raw material" is declining. Millers and farmers at Vincennes, Ind., on the 3d inst., were closing contracts for wheat at \$1 a bushel, deliverable in 10 to 15 days. The Vincennes Gazette predicts that in August, flour will be down to \$6 50 per barrel in that place, and by the first of January to \$4 50 or \$5.

At Fredericksburg, Va. farmers generally refuse to contract for the sale of their wheat at less than \$2. At Alexandria, last week the first sales of new wheat were made at compete, but none below "sweet sixteen" are ing only 60 a 75 cents, and flour has declined to \$7 a.S. The Nashville Banner says some full sized portraits of the premium beauties. turmers are selling flour at \$2 per hundred pounds, but it is not advised as to its quality. its Profit!" The St. Louis papers note sales of new wheat at \$1 28a1 35. In nearly all the large commercial cities the price of flour continues to keep up at high figures. This is attributed James Thompson, in the village of Brant, to the light supplies of old flour, but little was fired by incendiaries on Saturday new having yet come into market.
