Circular to the Sick. The first haspital surgeons and medical publicits of Europe admit the unparalleled anti inflummatory and healing properties of this Ointment; governments sancion its use in their naval and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidence of disease, and and exasperate the malady.

#### Rhenmatism, Scrofula, Erysipelas.

These are among the most terrible and agonizing diseases of the muscles, and fleshy fibre of the skin; yet in the worst forms, and when scemingly incurable, they invariably disappear under a persevering application and inflammation.

#### Salt Rheum, Fever Sores, Stiff Joints.

In cases of Sait Rheum, where medical waters, lottons, and every recipe of the pharmacopæ have proved uselss, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence. and its relaxing effect upon contracted sinews is truly wonderful.

#### Discharging Ulcers.

FOR ALL THE PURPOSES OF A

# AMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as were and perfectly safe in its operation. This has seen prepared to meet that demand, and an extenave trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills - one which should have every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowals. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from neutralize the fiery elements which feed them. These pills produce no irritation or pain, mless it arise from a previously existing obstruc-tion or derangement in the bowels. Being purely vegetable, no harm can arise from their ase in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the com plaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languer and Loss of Appetite, Listlessness, Irritability, Bilious Headache, of this soothing, healing, antidote to pain Bilions Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the conquence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofda and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly sucessful cures in Rheumatism, Gout, Dropsy, Gravel. Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appe tite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, reno vate the strength of the body, and restore the wasted or diseased energies of the whole organ sm. when taken to excess. The thousand cases in which they suggest themselves to the reason of every body; and it is confidently believed this pill wift answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer
