

Mutual Fire Insurance Company

The rate of Insurance is one dollar on the thousand dollars insured, after which payment no subsequent tax will be levied, except to cover actual loss or damage by fire, that may fall upon members of the company.

The net profits arising from interest or otherwise, will be ascertained yearly, for which each member in proportion to his, her, or their deposit, will have a credit in the company. Each insurer in or with the said company will be a member thereof during the term of his or her policy. The principle of Mutual Insurance has been thoroughly tested—has been tried by the unerring test of experience, and has proved successful and become very popular. It affords the greatest security against loss or damage by fire, on the most advantageous and reasonable terms.

Applications for Insurance to be made in person, or by letters addressed to

J. LANTZ, DENTIST

Has permanently located himself in Stroudsburg, and moved his office next door to Dr. S. Walton, and nearly opposite S. Rees's Hat & Cap store, where he is fully prepared to treat the natural teeth, and also to insert incurable artificial teeth on pivot and plate, in the latest and most improved manner. Most persons know the danger and folly of trusting their work to the ignorant as well as the traveling dentist. It matters not how much experience a person may have, he is liable to have some failures out of a number of cases, and if the dentist lives at a distance, it is frequently out of his power to save the tooth or teeth as it may be, otherwise the inconvenience and trouble of going so far. Hence the necessity of obtaining the services of a dentist near home. All work warranted.

Oath.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as safe and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious, and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their purgative action. They purify the blood, and give it a healthy color. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Headache, Irritability, Biliousness, Hemorrhoids, Flatulency, Dropsy, Epileptic Fits, St. Vit's Dance, and all diseases arising from a derangement of the Sexual Organs.

Such as Nervous Trembling Loss of Memory, Loss of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pain in the back and head, Female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a short time there is a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or bismuth. During twenty years of practice I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption. Scrofula and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetters, Ulcers, Eruptions and other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave. SELLER'S ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious quacks in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile compounds of quick doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Sublimates, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canada by patents communicating their symptoms by letter. Business correspondence strictly confidential. Address

AYER'S CHERRY PECTORAL,

COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidence of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its efficacy in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, it is too apt to escape every observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident attacks upon the lungs, but for the milder varieties of Coughs, COLDS, HOARSENESS, &c.; and CROUP, it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the public that its quality is kept up to the best that it ever has been, and that the genuine article is sold by Samuel Rees, Jr., and by Hollinshead & Detrick, Stroudsburg, Pa.

IMPORTANT DISCOVERY

CONSUMPTION
AND ALL
Diseases of the Lungs and Throat
ARE POSITIVELY
CURABLE BY INHALATION,

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. for the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the consumptive's graves.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system.—Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead.—The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care
