Of all disease; the great, first cause AYER'S SUFFER NOT

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is aerimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their ase in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their plicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms petite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an tiveness, Piles, Colie, Dysentery, Humors, Scrof-ula and Scurvy, Colds with screness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly suc-cessful cures in Rheumatism, Gout, Dropsy, Gravel, An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unas every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every virtues are once known, the public will no longer For minute directions see wrapper on the Box.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so de structive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wiecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself.
