NEW and singularly successful remedy for the cure of all Bilious diseases - Costiveness, Indi gestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflamma-tions, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Ludeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevals; besides it soon generates scrious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become of produce the deep scated and formidable distempers which load the hearses all over the land. Hence s' reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not sub-

stantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many eminent gentlemen who have testified in favor of these Pills, we may mention: Dr. A. A. Hayes, Analytical Chemist, of Boston and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. EDWARD EVERETT, Senator of the U. S. ROBERT C. WINTEROP, Ex-Speaker of the House ABBOTT LAWRENCE, Minister Plen. to England † JOHN B. FITZPATRICK, Cath. Bishop of Boston Also, Dr. J. R. CHILTON, Practical Chemist, of

New York City, end. ed by Hax W I Maney Sametary of State. WM. B. ASTOR, the richest man in America. S. LEIMAND & Co., Propr's of the Metropolitan Hotel, and others. Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing that the experience of eminent public men is found in

their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medica science can afford. They are compounded not of the drugs themselves, but of the medicinal virtue only of Vegetable remedes, extracted by chemica process in a state of pasty, and combined together in such a manuer as to insure the best results. This system of composition for medicines has been found in the Cherry Perforal and Pills both, to produce the composition of the produce more efficient remedy than had hitherto been ob tained by may process. The reason is perfectly ob-vious. While by the old mode of composition, ever-medicine is burdened with more or less of acriinonious and injurious qualities, by this each indi victual virtue only that is desired for the curative dect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is

self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer more powerful antidote to discuse than any other medicine known to the world As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of remedy without knowing its composition, I have supplied the accurate Formulæ by which Prectoral and Pills are made to the whole body Practitioners in the United States and British Applican Provinces. If, however, there should be a

one who has not received them; they will be promptly forwarded by mail to Of all the Patent Medicine few would be taken if their ea mystery. I have mysteries. arations is laid The comp to all men, and the subject freely their intrinsic me pronounced by nedicine before
