FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as are and perfectly safe in its operation. This has seen prepared to meet that demand, and an extenive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills - one which should have one of the objections, but all the advantages, of very other. This has been attempted here, and nedicine is acrimonious and irritating to the bow-

ds. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their ase in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the com-plaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the conaperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renowasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, ease, hastens the sufferer into a rapid Connecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a eathartic medicine. Being sugar-wrapped they are For minute directions see wrapper on the Box.

The HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the decep-The subscriber respectfuly informs patch. Having had twenty years ex- tion practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a charitable act, wonly of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical advice gratis, to all who apply by letter, with a description of their condition (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to furnish medicines free of charge. It is needless to add that the Association commands the highest medical skill of the age, and will furnish the most approved modern treat-

The Directors, on a review of the past, teel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especialy to the oung, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.
