

**THE ONLY ARTICLE UNRIVALED IN MARKET, WITH IMMENSE HOME AND EUROPEAN DEMAND.**

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; makes it soft, glossy, healthy and beautiful; and if used by the young two or three times a week, it will never fall or become gray, then reader, read the following and judge for yourself:

New York, Jan. 8, 1858.  
Messrs. O. J. Wood & Co.,  
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudice which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as grey as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restoratives a trial till they have further proof, and the best proof being ocular demonstration, I write this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing Establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, Yours, respectfully,  
HENRY JENKINS.

Cor. Columbia & Carroll sts. Brooklyn.

Livingston, Ala., Feb. 14, 1858.

Prof. Wood—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy. You can publish this if you think proper. Yours, &c.  
S. W. MIDDLETON.

Philadelphia, Sept. 9, 1857.

Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact bald. I have used 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,  
D. R. THOMAS, M. D.  
No. 464 Vine street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds 1/4 pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for \$3 a bottle.

**THE GREATEST MEDICAL DISCOVERY OF THE AGE.**

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR, FROM THE

Worst Scrofula down to a common Pimple.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One or two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

One to three bottles are warranted to cure the worst case of dyspepsia. I know from the experience of thousands that it has, caused by a canker in the stomach.

One to two bottles are warranted to cure sick headache.

One to two bottles are warranted to regulate a costive state of the bowels.

One to two bottles will regulate all derangement of the kidneys.

Four to six bottles have cured the worst cases of dropsy.

One to three bottles has cured the worst case of piles; a relief is always experienced. What a mercy to get relief in such an excruciating disease!

Since its first discovery, I have from time to time added various other herbs to it; of one of them, Hippocrates, the Father of Medicine, says: "It is an herb of Jubiter, and in the sign Leo."

"It openeth obstructions of the liver, gall and spleen; it is an especial friend to the liver, worth all other herbs put together; cooling it when too hot, and warming it when too cold.

"It creeth an appetite, creeth all gone and sinking feelings in the pit of the stomach, creeth all pains and stitches in the side.

"It creeth the jaundice by opening the gall, and restoreth the native color of the body.

"It expels all raw, viscid and slimy humors out of the body; it cleanseth all inward ulcers and congealed blood from the kidneys.

"By opening obstructions of the spleen, it purgeth all burnt cholera and melancholy vapors which rise to the head and brain, causing distressing headache, fearful foreboding of trouble, trembling of the heart, fainting and swooning.

"The herb boiled in wine is particularly good to revive the drooping spirit of the aged, and whoever has a lingering sickness after a fever, nothing restoreth him to health so quick as drinking the juice of this herb.

"The seeds boiled in water creeth the most offensive breath, and drank at bedtime, preventeth what is commonly called night mare, and all melancholy dreams, a disease bilious people are liable to."

The Father of Medicine says of another herb in this composition, that "it is an herb of the Sun, and in the sign Leo."

"The sun is the source of all life, and ruleth the heart; and this herb is the best cordial, the greatest strengthener of the heart, of any that grows; it comforteth the heart, creeth all palpitation thereof; taketh away trembling, fainting and smothering of it; yet it must be taken carefully, or severe gripings will ensue, which must be corrected with fennel seed or ginger.

"So much for this herb, between which and the adder there is the utmost antipathy; so much so that the adder will not touch him that has the herb about him."

No change of diet ever necessary—eat the best you can get and enough of it.

Directions for use. Adults one table spoonful per day—Children over ten years, desert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

**"No such Word as Fail." A RESISTLESS REMEDY.**

**HOLLOWAY'S OINTMENT. Circular to the Sick.**

The first hospital surgeons and medical publicists of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidence of disease, and neutralize the fiery elements which feed and exasperate the malady.

**Rheumatism, Scrofula, Erysipelas.**

These are among the most terrible and agonizing diseases of the muscles, and fleshy fibre of the skin; yet in the worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing, antidote to pain and inflammation.

**Salt Rheum, Fever Sores, Stiff Joints.**

In cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopoeia have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

**Discharging Ulcers.**

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly until the orifice is filled up with sound material, and the ulcer radically cured.

**A Word to Mothers.**

The young are the most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the enervated sores which sometimes disfigure the heads and faces of children.

**Significant Facts.**

This Ointment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scrofulic affections, and as the best possible remedy for wounds and bruises.—Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

Both the Ointment and Pills should be used in the following cases:

- |                      |                      |

**AYER'S PILLS.**

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which should be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown what success it accomplishes the purpose designed.

It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and every other. This has been respectfully submitted to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. Many of them produce so much of the latter than the former, as to be more than counterbalanced the good to be derived from them. These pills produce no irritation, no heaving and disengagement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be used in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we mention Liver Complaint, in its various forms, Biliousness, Indigestion, Langour and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequences of disease action in the liver. As an aperient they afford prompt and sure relief in Constiveness, Piles, Colic, Dysentery, Humors, Scrofula, and Scoury, Colds with soreness of the bowels, and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood, and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their tonic and stimulant action on the circulatory system, renovate the strength of the body, and restore the exhausted energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but, in every case, the medicine should never be carried too far, as a purgative should never be used so as to reduce the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the mind in a thousand instances, and it is confidently believed that this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the people will no longer be content with a medicine which is so pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions see wrapper on the box.

**AYER'S CHERRY PECTORAL,**

For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures that almost every section of the country abound with persons publicly known, who have been restored to health after suffering from the most distressing varieties of cough, cold, hoarseness, &c. &c. over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Coughs, Colds, Hoarseness, &c. ; and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people that it is kept up to the best that it ever has been, and that the genuine article is sold by Samuel Rees, Jr., and by Hollinshead & Detrick, Stroudsburg, Pa. August 13, 1857.—1y.
