## Starting in the World.

The Harrisburg Telegraph offers some sensible reflections upon the topic, which perhaps some reader of the Jeffersonian may find applicable to his own case, and therefore worthy of consideration:

"Many an unwise parent labors hard and lives sparingly all his life for the purpose of leaving enough for his children a start in the world," as it is called. Setting a young man affoat with money left him by his relatives, is like tying bladders under the arms of one who cannot swim, -- ten chances to one he will lose his bladders and go to the bottom. We need go no farther than Harrisburg for illustrations of this fact. But teach bim to swim, and he will never need the bladders. Give your child a sound education and you have done enough for him. See that his morals are pure, his mind cultivated, and his whole nature subservient to the laws which govern man, and you bave given what will be of more value than the wealth of California. You have given him "a start' which no misfortune can deprive him of. The earlier you teach him to depend upon his own resources, the better. We know a young man, now an inmate of the poor house, who, when he arrived at the age of twenty-one, received a "start in the world," to the amount of five thousand dollars in eash .-Like too many who suldenly become possessed of an unusual amount of money he indulged in a round of fast living that squandered his little fortune, and in less three years he was a pauper, with a constitution completely shattered by excessive indulgence in vice and immorality. And how nearly similar has been the fate of some young men in Harrisburg who got "a start in the world," by the sudden acquisition of considerable fortunes! Give young men "a start in the world," with fortunes at their command and in nine cases out of ten they will take the downward road that leads to pecuniary and moral bankruptcy and ruin. On the other hand, give them a sound practical and moral education, and throw them on their own resources, early in life, and you will find them making "a start" in the right direction, and eventually becoming prosperous men and good citizens.

# Burying the Dead in New Orleans.

ST. VINCENT DE PAUL CEMETERY .-

fin is let down into the water, but, of nity. course, it would not sink, and immediateiy rose to the surface. It was thrust democrat from his early years. He, too, lustrious Attorney General himself. down several times rather roughly to endeavor to make it adhere to the soft mud at the bottom, but it invariably rose a-

galb. At last it was shoved in, and the spade of one of the negres held it until the oth- and when Mr. Buchanan accepted the er threw in large quantities of hard mud, trust, and re-as-erted this right as the which served as a weight to keep the head down. One of the negroes then, while the other kept his spade on the first end, lowered the foot and sank it in the same manner, kicking in some mud with his feet, while his spade kept the coffin down. The whole of this section of the cemetery is filled with new graves, and presents the appearance of a newly plowed field. The stench in some portions is bardly endurable, coming as it does, from the shallow graves of water.

When you go to drown yourself, always put off your clothes; they may fit your wife's second husband.

quired by each possessor.

In Vindication of the Principle of Popular Sovereignty, and in reply to the As-

saults of the Lecompton Organs.
