The balloon is to be of silk, with an ascensive power which will make it capable of carrying a life-tost stocked with provisions and four passengers .-The power it is designed to employ is the gun-cotton engine-one of which, owned by a gentleman of Springfield, Mass., has been tested, and found to operate satisfactorily. Befere the venture at sailing over the ocean, it is designed to make three long voyages, starting from Western cities, for the purpose of testing the capacity of the balloon, and the effect of the employment of machinery. Mr. Wisc the "father of ballooning in America," who has been in consultation with Mr La Mountain, approves of his plan in all its details, and will give him the benefit of his remarkable experience in suggestions as to the manner of carrying it out.

ONE DOLLAR!-It is too much, exclaims the person desiring cheap articles for the restoration of the bair! We have however, in our experience found that articles which command seemingly exorbitant prices, are in the end cheapest to the purchaser. Precious articles are always put up in small packages, and effi- sion apply to, or address the Principal, cacious medicines are not considered dear at any price. One dollar being the price of Professor Wood's Huir Restorative, for the smallest size or trial bottle, is a sufficient guarantee that the trial bottle contains most precious ingredients, in proof of which its sale has increased one bundred fold within the past year.

CAUTION .- Beware of worthless imitations, as several are already in the market, called by different names. Use none unless the words (Professor Wood's Hair Restorative, Depot, St. Louis, Mo., and New York) are blown in the bottle. Sold by all Druggists and Patent Medicine dealers. Also by all Fancy and Toilet goods dealers in the United States
