ARRIVAL OF THE VANDERBILT.
THE FIRST BATTLE FOUGHT.
THE SARDINIANS VICTORIOUS.
Three Hundred Austrians taken Prisoners.
New York, May 21.—The arrival of the steamship Vanderbilt from Havre and Southampton, furnishes files of the 14th inst. The Vanderbilt sailed the same day with the City of Baltimore, but the files are four days later than any previously to hand.

FROM THE SEAT OF WAR.
Piedmont has laid an embargo on all Austrian vessels in Sardinian ports, but neutral property is to be respected.

A revolution is expected to occur at Como, Lombardy, the tri-color flag having been hoisted by the people before the castle.

The Austrian commander imposed a contribution of 300,000 francs on the town of Vercelli.

The subscription to the new French loan opened on the 7th, and 300,000,000 were already subscribed.

TUNIS, May 9.—The Austrians have advanced from Vercelli towards Buronzo and Salluzola. They continue to fortify themselves on both banks of the Sesia and at San Germano. The Austrians threw out reconnoitering parties, which advanced as far as the head of the bridge across the Po at Casale, but being attacked by our troops, the Austrians withdrew.

TUNIS, May 10.—The bulletin of today says a strong Austrian column under four generals occupied Straparana on the 7th, but the next morning hastily withdrew.

The *Independence Belge* says that Gen. Garibaldi, combining his movements with Gen. Cialdini, had attacked the Austrians at Vercelli, having them completely and bringing off 300 prisoners.

ENGLAND.—The Royal Canadian regiment formed in Canada, during the late Crimean war, is under orders for Corsica.

All the English militia is to be called out.

The Channel fleet is to be augmented by 700 guns.

Fight over a Corpse.

A fight for the possession of a dead body came off in Chicago last week.—Two brothers, named Patrick and Edward Murphy, were arrested for assault and battery on Peter Mullen. It was shown that Mullen married for his second wife a sister of the two Murphys. Some time since she died, and her body has since remained in the cemetery. Mullen finally had a grave dug upon a lot which he owned, and was proceeding to bury his wife therein, when the two Murphys and their mother interfered, and declared that she should not lie in his lot; that he had always abused her while living; that he already had one wife buried there and that was enough; and they would bury her themselves. A free fight ensued, which resulted in the Murphys coming off victorious, and carrying the body away with them, after they had thrashed the husband; and then they buried the corpse on their own lot.

A Stupendous Balloon.

The aerial machine in the course of construction at Lansingburg, New York, by Mr. L. Mountain, with which he designs to cross the Atlantic, is fast approaching completion. In speaking of it, the *Lansingburg Gazette* has the following:—"The balloon will be 65 feet in diameter, and when inflated the car and balloon will be one hundred feet high. There will be employed 2,350 yards of silk—wide China—the best ever used for such purposes. The silk was put in oil last Friday. Six miles of cord will be used in the next. The car or boat is of unique construction, and very strong. It is 19 feet long, 4 feet wide, and 20 inches high. It was built in New York city, and is capable of carrying twelve men in the very roughest sea. One hundred and fifty thousand cubic feet of gas will be required to inflate the balloon, giving it an ascending power of about three and a half tons."

Shocking Death of a Young Lady While Making Her Wedding Dress.

A young lady named Matilda Sawyer, residing at Port Glavis, met with a shocking death a day or two since. She was sitting up making her wedding dress by the light of a fluid lamp, and finding that the fluid was nearly all consumed, she attempted to fill the lamp from a camphene can, leaving one of the wicks burning, but so soon did the fluid come in contact with the light that it communicated to the can, which exploded like a pistol, scattering the contents around, and setting fire to her dress, burning her so dreadfully that she expired in a short time afterward. An inquest was held upon the body—verdict accidental death. *N. Y. Tribune.*

The Washington correspondent of the Philadelphia Press says:

"All the stories now circulating in the press to the effect that Senator Douglas has made certain peaceful propositions to the Administration, and that he is on the eve of being reconciled, &c., are fabrications. Judge Douglas has nothing to compromise—nothing. He will maintain the position he has assumed in the Senate and in the canvass in Illinois to the end; and if the Administration comes to it, so much the better for it."

The Constitutional amendment in Massachusetts, requiring a residence of two years after naturalization before an adopted citizen can vote, was carried throughout the State by about 5000 majority. Worcester and other strong Republican counties in the western part of the State gave majorities against the amendment, whilst Boston and other districts where the vote of the Slave-Democracy is strong, there the Know Nothings found allies enough to carry the day.

Hard Times in Iowa.

We are sorry to learn from the Iowa papers, that there is much suffering in that State from want of food. During the early part of Spring, cattle died of starvation by scores throughout the State, there being no grain to feed with, and that affords are not a whit improved at this time may be learned by the following picture of distress, from the Eddyville Commercial:

It is useless to deny or attempt to conceal the fact. This region of the country is destitute of the necessities of life.—The stock of food for man and beast is about exhausted. There is, perhaps, corn enough to feed those who are unable to buy flour; but they have not the means to buy corn. It is in the hands of a few persons, and they will only sell for cash at a dollar a bushel. Not one third of those who need to buy corn have the dollar, or any means of getting it; for the money, like the corn, is out of the reach of the destitute. We are no pacific maker, but of this we feel certain, and we speak advisedly, that in thirty days from this time, unless those who have a surplus agree to part with it, on time, at a fair price, it will be distributed and carried away by bands of desperate men, to feed their starving families. This sounds terribly, but it is too near the truth, and men will not suffer their families to starve when food can be produced by going and taking it.

A Norwegian shoemaker living in Minnesota, has obtained \$17,000 for a piece of land near Chicago, which he bought eleven years ago, for the sum of \$20.

Many kinds of Tonic are advertised that we are assured will strengthen the hair, and prevent its falling out, but none that we have seen used does all that it promises; save that of Professor O. J. Wood. This we know is good from having tried it, and witnessed in several cases its truly beneficial effects. Dr. Wood was kind enough to send us a couple of bottles, and after finding that it prevented our hair from falling out, we presented a bottle to a friend who had been bald for at least thirty years; it has restored his hair entirely, and it is now as thick and glossy as when he was twenty-five. This we say in all sincerity, and we shall be glad to have our friends try it for themselves, as we believe it is just what it professes to be.

SILVER'S PLASTIC PAINTS:

CHEAP, DURABLE AND PROTECTIVE,
Weather and Fire-Proof.

These paints will stand any climate, without crack or blister and harden by exposure, thus making in time an enamel of stone, protecting Wood from decay, and Iron and other metals from rust and corrosion. They differ, essentially, from the so-called mineral paints of the day which are, principally, Ochres and Clays, and are entirely worthless.

Silver's Plastic Paints are Purely METALLIC, containing no Alumina or Clay. They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding,) and flow under the brush as the best White Lead, and excel all others in body or covering properties, one pound of which will cover as much surface, as two pounds of White Lead, reducing the cost two-thirds.

There are six distinct colors, viz:—
Olive, Light Brown, Light Chocolate,
Black, Dark do, Deep do.

All equally valuable as a preservative Paint and particularly adapted to painting

The outside of Buildings, Fences, Steamboats, Cars, Tin and Iron work.

REMEMBER! Exposure hardens and increases the Durability of these Paints.

DIRECTIONS—Mix with pure Linseed oil, as thickly as possible, as the Paint is the lasting protecting body, and the oil simply the medium or agent in spreading it.

MORE TO BE ADMIRER THAN THE RICHEST DIADEM

EVER

Worn by Kings or Emperors.

What? Why a beautiful Head of Hair?

Because it is the ornament God Himself provided for all our race. Reader, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, harsh and dry, or worse still, it sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

Dr. Wood—New York, April 19, 1858.

Dear Sir—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; a-bout the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. I am, dear Sir, yours truly,

S. THALBERG.

"Dyech a'r Gwylydydd."

Welsh Newspaper office, 13 Nassau st. April 12, 1858.

Prof. O. J. Wood—Dear Sir,—Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hairs to dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair.

CHARLES CARDEW,
New York, July 23, 1857.

Prof. O. J. Wood—With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers which were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

Prof. Wood—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend it to you to all.

J. D. HOES.

Chicago, Ill., May 1, 1857.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds $\frac{1}{2}$ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for \$3 a bottle.

MARION AND HIS MEN!

THE ANXIOUSLY LOOKED FOR AND DEEPLY EXCITING

TALE OF THE REVOLUTION,
NOW READY!

THE SWAMP FOX;

OR, THE
Rebel Riflemen.

A TALE OF THE
TIMES AND FEATS OF MARION,
BY GEORGE ALBANY, ESQ.

Author of the "The Orange-Girl, of Venice," "The Swamp Steed," "Ride the Ranger," &c. &c.

will be commenced in

THE NEW YORK MERCURY

Of Saturday, April 30, 1859.

Now ready at all News Depots & Bookstores.

No character in history offers a better subject for the romancer, than that of MARION, or, as he was familiarly called,

"THE SWAMP FOX,"

from the immense ingenuity of his stratagems and devices for misleading and deceiving the enemy, his thorough knowledge of the woods, forests, fields, and swamps of his native region, where he and his gallant band were perfectly at home, while their enemies became lost and bewildered in the labyrinthine mazes of undergrowth and morass.

The story above announced is a true reflex of those scenes and times, and its talented author has most vividly portrayed, therein, the many exciting incidents and accidents of a tenacious and indefatigable struggle for Liberty, pursued under the most adverse circumstances. Every chapter is replete with exciting and romantic interest, historically accurate, but with a sparkling web of poetry woven through it, which makes it at once a brilliant story and a veracious record. The strongly-written descriptions of events—the ambuscade—the sudden sortie—the night attack—the wild charge and repulse—are all wonderful as examples of word-painting, and equally true to the actual facts.

In addition to the scenes of heroism and lofty daring, the *Swamp Fox* is not without the gentle charm of a love-story, for the working and effects of the tender passion are depicted in its pages, as truly and artistically as the sterner emotions, rendering the tale a perfect picture of life and character in the Days of the Revolution, which cannot fail to appeal to the admiration, and gratify the taste of every reader who has a spark of true patriotism in his soul.

The peculiar power and interest with which the gifted author, GEO. ALBANY, ESQ., describes the thrilling period, is a guarantee of the excellence of this truly magnificent Historical Romance. The vivid delineation of character, the depth of thought, the fascination of style, the picturesque beauty of description, and, in a word, the power of language he commands, all combine to render him one of the most brilliant writers of our age, while his great appreciation of and sympathy with the pioneers in the cause of universal liberty give him a grasp of Revolutionary subjects possessed by very few others. This has enabled him, in the *Swamp Fox*, to exhibit the life and adventures of

MARION AND HIS MEN

as they really were, and to do fit homage to that deliberate valor, that unyielding patriotism, which, in a few noble spirits, defying danger, and above the scenes of privation, could keep alive the sacred fire of liberty in the thick swamps and dense of liberty in forest—asking nothing, yielding nothing, and only leaving the field the better to re-enter it for the combat!

We take to ourselves some credit, for having secured for our columns the *chef d'oeuvre* of this master's pen, but we intend to give the

New York Mercury

a still higher prestige than ever. We believe it is already the best and largest story paper in the world, and we contemplate making it better and better, with every successive number, in spite of all expense and opposition.
