Amount. of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a rem-7 00 edy is wanted by those who suffer from Stru-mous complaints, and that one which will ac-7 00 complish their cure must prove of immense ser-7 06 vice to this large class of our afflicted fellow-5 00 citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following 10 00 10 00

ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to ex-pel the foul humors which fester in the blood at that season of the year. By the timely expul-7 00 sion of them many rankling disorders are nipped 7 00 in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will serive to rid itself of corruptions, if not assisted to do this through the natural 7 00 channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you waen. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can 7 00 be no lasting health. Sooner or later something 7 00 must go wrong, and the great machinery of life 7 00 is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled y large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain liale, if any, Sarsaparilla, but 7 00 often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is ustly despised, and has become synonymous 7 00 with imposition and cheat. Still we call this

7 00 compound Sarsaparilla, and intend to supp'y 7 00 such a remedy as shall rescue the name from the ead of obloquy which rests upon it. And we think we have ground for believing it has virtnes which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

No character in history offers a better sub-

from the immense ingenuity of his stratagems and devices for misleading and deciving the enemy, his thorough knowledge of the woods, DIRECTIONS -- Mix with pure Linseed forests, fields, and swamps of his native recame lost and bewildered in the labyrinthine mazes of undergrowth and morass.

The story above announced is a true reflex of those scenes and times, and its talented April 21, 1859] author has most vividly portrayed, therein, the many exciting incidents and accidents of a tenacious and indefatigable struggle for Liberty, pursued under the most adverse circumstances. Every chapter is replete with exciting and romantic interest, historically | Confectioners, Fruiterers and accurate, but with a sparkling web of poetry woven through it, which makes it at once a brilliant story and a veracious record. The strongly-written descriptions of events-the ambuscade-the sudden sortie-the night attack-the wild charge and repulse-are all wonderful as examples of word-painting, and | &c. &c.
