

Cats and Children.

For the purpose of warning parents against permitting their children to amuse themselves too much in fondling cats and kittens, we publish the following from an exchange:

Eliza Litchfield, one of the wealthiest farmers in Saratoga county, N. Y., was bitten in the thumb by a cat, on the 1st. On the Sunday following, the thumb commenced swelling, and quickly extended to the arm. Mortification set in, and on Tuesday resulted in death.

During a visit to Lowell we were shown through the Laboratory of our celebrated countryman, Dr. J. C. AYER. Scarcely could we have believed what is seen there without profound disputing.

They consume a barrel of solid Pills, about 50,000 doses and three barrels of Cherry Pectoral, 120,000 doses per diem. To what an inconceivable amount of human suffering does this point! 170,000 doses a day! Fifty million of doses per year!—What acres and thousands of acres of sick beds does this spread before the imagination! And what sympathies and woe!—True not all of this is taken by the very sick, but alas, much of it is.—This Cherry Drop and this sugared Pill are to be the companion of pain and anguish and sinking sorrow—the inheritance our mother Eve bequeathed to the whole family of man. Here the infant darling has been touched too early by the blight that withers half our race. Its little lungs are affected and only waiting and waiting shall tell which way its breath shall turn. This red drop on its table is the tallman on which its life shall hang. There the blossom of the world just bursting into womanhood, is stricken dead. Affections most assiduous care skills not, she is still fading away. The woe messenger comes nearer and nearer every week. This little medicine shall go there, their little perhaps their only hope. The strong man has planted in his vitals, this same disease. This red drop by his side is helping him wrestle with the inexorable enemy; the wife of his bosom and the cherubs of his heart are waiting in sick and sorrow and fear lest the rod on which they lean in this world, be broken.

O Doctor! Spare no skill, nor cost, nor toil, to give the perishing sick the best that human art can give. *Galeson, Texas News.*

New and Prosperous Settlement.

Hammonon on the Camden and Atlantic Railroad, is a flourishing village settled chiefly by New Englanders, who wish to escape their frosty climate, and by persons from the West, who are engaged in the grape culture. One year ago the settlement commenced, and since then has a population of fifteen hundred. They have built about three hundred houses, opened four stores, several hotels, one steam saw planing mill, and one water power saw mill, with schools, churches, and brick yards. They have set out since, forty vineyards, and in short, established a settlement, which from the respectability of the settlers, is destined to become one of the most important and influential places in the State of New Jersey. Grape growers are of the opinion that the strip of land between the Little and Great Egg Harbor rivers is the best for the vine, owing to both soil and climate, of any that has been found in the country. From the extent they are entering into the business, a supply of pure and unadulterated wines may be expected. They who have raised crops at Hammonon represent that the soil is very productive. It is not surprising that the price should increase so rapidly, when it is considered the advantages it presents over the West in health, climate and markets. Crops are secure from frosts, that blighting enemy that robs the farmer of the North of so much of his labor and profit.

THE GREAT ENGLISH REMEDY.

J. N. DURLING, Agent, Dec 9, 1858—15.

The Roman Catholic clergy in this country, when liberal principles are brought into conflict with despotic power, usually array themselves on the side of the latter. This is especially the case with regard to the existing war in Italy, which is simply a struggle of the Italians to shake off the tyranny of Austria.—The *Freeman's Journal*, the *Metropolitan Review*, and the other Catholic organs in this country, have all manifested unmistakably their sympathy with Austria.—The *Metropolitan Review* contains a long article, said to have been written by Archbishop Hughes; in which Louis Napoleon, the King of Sardinia and Count Cavour are held up as enemies of "the Church," while Austria is regarded as the true and only defender of the faith, whose object, in the present struggle, is to maintain intact the religious despotism practised throughout Italy and Austria since the reactionary movements of 1849.

Take Notice.

As the tickets in the GIFT ENTERPRISE of A. Shoemaker & Co., could not all be disposed of in time for the drawing on the 4th of July, the managers have postponed the drawing until the 30th of July inst., when it will positively take place. They would also announce that A. Shoemaker has withdrawn his house and lot, known as Gift No. 1, from the enterprise, and that they have in consequence, thrown out 1,500 of the unsold tickets. This will make it much better for the ticket holders than before, as all the remaining gifts will be drawn, thus increasing the chances. No. 2, will be the first gift on the list. The drawing will take place in the Ausracher Block, in the borough of Stroudsburg, on the day above mentioned, and will be conducted by five disinterested citizens of different townships in the county, public to all interested. The whole will be managed from this date by
CRESS & HAIRHOUSE.

NEW AGRICULTURAL SETTLEMENT.

To all wanting Farms

A RARE OPPORTUNITY IN A DELIGHTFUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILADELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD, NEW JERSEY.
An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England have settled there the past year, improved their places and raised excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. It is considered the best Fruit soil in the Union.—The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement.—The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is the

BEST IN THE UNION.

Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.
In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed) he has schools for his children, and delightful climate, where levers are utterly unknown.—The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place. Good carpenters are at hand; and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for three years.

THE TOWN OF HAMMONON

In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactures. The Shoe business could be carried on in this place and market to good advantage, also cotton business, and manufactures of agricultural implements or Foundries for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had at from \$100 and upwards.

The Hammonon Farmer, a monthly literary and agricultural sheet, containing full information of Hammonon, can be obtained at 25 cents per annum.

Title indisputable—warranted deeds given, clear of all incumbrance when money is paid. Route to the land: leave Vine street wharf, Philadelphia by Railroad, at 7 1/2 A. M., or 4 1/2 P. M. Fare 90 cents. When there inquire for Mr. Byrnes, Boarding conveniences on hand. Parties had better stop with Mr. Byrnes, a principal until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to Landis & Byrnes, Hammonon P. O., Atlantic Co., N. Jersey, or S. B. Coughlin, 202 South Fifth Street, Philadelphia. Maps and information cheerfully furnished.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alternative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA and SCROFULOUS COMPLAINTS, ERUPTIONS and ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS and SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA or TIC DOULOUREUX, RHEUMATISM, DYSPYPSIA and INDIGESTION, ERYSIPELAS, ROSE, or ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which foster in the blood at that season of the year. By the timely expulsion of them many rankling fevers are nipped in the bud, and Maladies can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcersous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alternative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but when the balance of life is disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because they give a queer taste to the Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
