Even where no particular disorder is felt, people enjoy better tealth, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something iau t go wrong, and the great machinery of life

is a constitutional disease, a corruption of the blood, by which this fluid becomes viriated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above ail, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and TMENT fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the inequities of LITERATURE of the fathers upon their children."

Its effects commence by deposition from the blook of corrupt or ulcerous matter, which, in the lung. Ever, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, crupts. sor cores. This foul corrupenergies of life, so the scrofulous constitutions not only suffer from ser, lous complaints, but they have far less power to w. betand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofuloas in their nature are still renderen f. tal by this taint in the system. Most of the consumptor tion which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kid-m neys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medi-

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DIS-EASES, ST. ANTHONY'S FIRE, ROSE, OF ERY-SIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases.
