

Thomas Bocock, the present Democratic candidate for Speaker of the House of Representatives, in the 1840 was one of forty Southern members of Congress, who, under the lead of John C. Calhoun, of S. C., and Senator Hunter of Virginia, signed a circular which was designed to originate measures for a dissolution of the Union, on the ground that a "conflict" existed between the North and South, which had driven the latter to the alternative of submitting to degradation or of setting up for itself.

And yet this man is now held up as a national hero—his name is one who abhors the doctrine of an "irrepressible conflict," &c., while Mr. Sherman, his Republican antagonist, who has never uttered a word in favor of dis-union, and whose worst offence has been simply subscribing for an edition of Helper's "Lepiduous Crisis," is denounced as wanting in every thing that constitutes a union-loving, conservative statesman!

The support of Bocock furnishes another proof that the Democracy is essentially a Disunion party. They know Bocock to be a Calhoun nullifier, and under the false cry that he is a national hero, they wish to place him in a position where he can either confirm and perpetuate the supremacy of the slaveholding interest in our National Councils, or effectually pave the way for bursting asunder the bonds of our Union. This is the true state of the case, and denial is utterly useless—The only reliable hope and stay of the country, in this era of democratic treason and false pretences, is the Republican Party, with its Jeffersonian platform, and its determination to uphold and enforce the Constitution in accordance with the interpretation given to that instrument by the statesmen and patriots who framed it.—*Susser Register.*

The N. Y. Herald, with all its rabid zeal for the triumph of the Administration party, occasionally becomes rational and speaks the truth with the most refreshing bluntness. Witness the following—

"The democratic party," says the Herald, "is effete and corrupt, demoralized and split into factions—North and South. It has no principle, and no purpose, but spoils. It is in a state of rapid disintegration. In the South a large section of it consists of fire-eating secessionists, who want to see the Union dissolved—in the North it is tainted with abolition—in this State, for instance, a majority of the democracy is anti-slavery; and as for Tammany Hall, it smells more strongly of the nigger than a colored church in the dog days. How, therefore, could conservative principles and acts emanate from such a source? The democratic party is powerless against the Republican, and if it enters the field against it in the Presidential campaign it will be defeated. The only existing issue is that of slavery, and the Republican will put it in such a shape that if the democracy meet it square, it will lose half its rank and file at the North—if it do not meet it square, it will lose the whole South.

The Washington correspondent of the N. Y. Herald says that on Saturday, when Mr. Garnett of Virginia declared that the House of Representatives should remain disorganized until March 4, 1861, rather than that the plurality rule should be adopted, the Democrats in the House enthusiastically responded to the declaration. This is not surprising. The Democratic party in the House is composed mainly of Disunionists, or of those who prefer Disunion to the defeat of their party. These gentlemen naturally see nothing seriously to object to in the present state of things in the House. To bring the Government into a dead lock is the next best thing to destroying it altogether. But why should conservative men, who wish to preserve and not dissolve the Union, give aid and comfort, even indirectly, to these factionists?

A Man Murdered for Abusing the Pope.
A difficulty, growing out of a religious controversy, occurred recently at the St. Louis and Belleville coal mines, resulting in the death of a man named John Harrison. Harrison, who professed Episcopalianism, without provocation began talking at Campbell, and very vulgarly said, "To hell with the Pope and Popery;" whereupon Campbell drew one of his revolvers and shot Harrison in the right side of the neck, and drawing his other revolver, presented it at the bystanders, and retreated by the back door, threatening to shoot the first man who should dare to follow in pursuit. The murderer had not, at last accounts, been arrested.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is vainly caused by mercurial disease, low living, disordered or unwholesome food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children, and from the third and fourth generation. Indeed, it seems to be the root of Hans who says: "I will visit the iniquities of the fathers upon their children."
Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tuberculosis; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which pervades the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by diseases which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.
One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
AYER'S Compound Extract of Sarsaparilla,
the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptions and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blisters and Boils, Tumors, Tetters, and Salt Rheum, Scald-head, Itch, Ringworm, Ringworm, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,
are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is enabled to find his health or energy restored by a remedy at once so simple and inviting.
Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent here named is pleased to furnish gratis his American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Constipation, Headache, Bile, arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Stimulation of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.
So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. With many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never forget, and produced cures too numerous and too remarkable to be forgotten.

A large portion of T. W. E. & Co's stock is their own importation, one of the firm visiting Europe twice a year to make purchases, thus enabling them to offer to their customers, the newest and most fashionable styles and textures, simultaneous with their appearance in Europe. They have also purchased largely this season at the auction sales, and can thus afford to give their customers the full benefit of the depreciated prices, resulting from excessive importations. Ladies and others from this vicinity, visiting the City, will find that a call at this establishment will pay them.
