

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Pure Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Struvsburg, who are afflicted with eruptions, pimples, eruptions, and such other skin diseases, which are attended with immense suffering to the large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCURFV and SCROTTLOID COMPLAINTS, Eruptions and Eruptive Diseases, Urticaria, Pimples, Eruptions, Itchings, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercular Disease, Dropsy, Neuralgia and Tic DOctouREAUX, Debility, Dyspepsia and Indigestion, Lumbago, Rheumatism, and St. ANTHON'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many malingering disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and blotches, and the system will stand to resist the attacks of corruption, if not assisted to do so through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; and whenever it is found, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all will be well; but with this pulsation of life disorders, which are not so lasting health. Sooner or later something will go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because, and more because, all the virtue that is contained in it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been taken upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly disreputable, and has become a synonym with imposture and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

GIVE THEM A TRIAL!

SILVER'S PLASTIC PAINTS;

CHEAP, DURABLE AND PROTECTIVE, Weather and Fire-Proof.

These paints will stand any climate, without crack or blister and harden by exposure, thus making in time an enamel of stone, protecting Wood from decay, and Iron and other metals from rust and corrosion. They differ, essentially, from the so-called mineral paints, in that they are, principally, Oxides and Clays, and are entirely worthless.

Silver's Plastic Paints are Purely METALLIC, containing no Alumin or Clay.

They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding,) and flow under the brush as the best White Lead, and excel all others in body or covering properties, one pound of which will cover as much surface, as two pounds of White Lead, reducing the cost two-thirds. There are six distinct colors, viz:—

Olive, Light Brown, Light Chocolate, Black, Dark do. Deep do.

All equally valuable as a preservative Paint and particularly adapted to painting *The outside of Buildings, Fences, Steamboats, Cars, Tin and Iron work.*

REMEMBER! Exposure Hardens and increases the Durability of these Paints.

DIRECTIONS—Mix with pure Linseed oil, as thickly as possible, as the Paint is the lasting protecting body, and the oil simply the medium or agent in spreading it.
