Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin. ir is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the and of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the imags, liver, and internal organs, is termed in servies; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption which genders in the blood, depresses the receives of life, so that scrofulous constitutions they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, beain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; 1993, and their health is undermined by it. To leanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been as overed for the expurgation of this foul disorthe from the blood, and the rescue of the systom from its destructive consequences. Hence it should be employed for the cure of not only s radula, but also those other affections which price from it, such as ERUPTIVE and SKIN DIS-DARLS, ST. ANTHONY'S FIRE, ROSE, or ERY-SIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEEM, SCALD HEAD, RINGWORM, RECUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Aver's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with paid or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable cal dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatuleury, Loss of Appetite, Joundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

So while is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from plarming and even desperate diseases of the pigs by its use. When once tried, its superiand over every other medicine of its kind is too mount to escape observation, and where its thes are known, the public no longer hesitate what autidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many aferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the reflicted they can never forget, and produced cures too numerous and too remarkable to be
