

HOW TO GET RICH.

BY THE BARD OF THE EASTON HALL OF FASHION.

At this period when the cry is, Times are very hard, indeed! 'T would be charity to offer To some men what more they need.

Some advice as to the method By which money may be made; And when purses are replenished, How therein it may be stayed.

A few plain rules, Poor Richard gave once, Will, if followed out each day, To a competence, believe me, Surely lead you on the way.

Let industry be, in whatever Work you undertake, your guide; With industry, let honesty, In all pursuits, walk side by side.

Don't indulge in dainties ever, Though denial cost you pain, If, by doing so, you cannot Save one penny of clear gain.

Calculate all costs beforehand, Husband health and strength the while, (And procure your garments always From the store of R. C. Pyle.)

The handsomest assortment of Ready Made Clothing and piece goods ever seen in Easton is now on exhibition, at Pyle's Great Easton Hall of Fashion, opposite the Easton Bank.

Movements of John C. Heenan—Morrissey's Challenge.

The Benicia Boy spent the greater part of yesterday in visiting his friends at various places about the city in company with Councilman Campbell and Frank McCabe. Upon sighting from his carriage in Nassau street, during the afternoon, he was instantly surrounded by a large crowd who greeted him with vociferous cheers. He was obliged to take refuge in a saloon, and it was with difficulty that he could get away, so dense was the throng of people who besieged the doors.

He declines in the most peremptory manner to publicly exhibit himself.—During the day the Malta saloon was thronged with men and boys, who punished themselves with all sorts of drink, talked loudly in praise of Heenan, and added to their own merriment in a moderate way. The following challenge has been received by Heenan from John Morrissey, and has been accepted, but the preliminaries have not yet been arranged: To the Editor of the N. Y. Tribune.

Sir: As Mr. John C. Heenan has now arrived home, and as he has, when in Europe, expressed so fervent a wish to fight me again, I will not balk him in his wish, now I have him on the spot. I will fight him for four months from singing articles, for ten dollars to ten thousand a side; and as it appears paradoxical to me and my friends to see a man dubbed "champion of the world" who has never won a fight in the ring, I will now give him the chance he wants, although I only stipulated to fight him again as a winner. I will meet him when and where he likes—put up what forfeit he likes—fight him when and where he likes—I to choose the stakeholder to be agreeable to both. I trust outsiders will not interfere to prevent this match—at least until the money is up, which I am prepared to stake at drawing up of articles.

JOHN MORRISSEY, Champion of America. New-York July 16, 1860.

Don't Know Who to "Holler" For.

The Wilmington Watchman, the Democratic organ of Clinton county, publishes all the Presidential tickets and don't know which to "holler" for. Its quaquary is funny, but not singular, in the double condition of the Democracy. The editor says:—

"We are decidedly at a loss to know what will be the result of all this "mix," and we are in a greater loss as to how to holler: we are anxious to holler for somebody, but are afraid to, for you know we might wake up the wrong passenger—that is, we might get on the wrong side—and then we would be in a circumstance."

New and Dangerous Counterfeit.

A special dispatch from the office of Peterson's Detector, informs us of the discovery of spurious Fives on the Commercial Bank of Philadelphia, Pa., altered from the Commercial Bank of Perth Amboy, N. J., a broken affair. Vignette, Whaling scene, men spearing whales; figure 5 in each upper corner. The engraving, being a genuine plate, is of course well done, and persons not acquainted with the difference between the two plates, had better refuse all \$5s purporting to be of the Commercial Bank of Philadelphia.

The Baltimore Republican, announces the death in that city of a man known by the sobriquet of "Eating Tom," and says that he has been known to eat a moderate sized ham with vegetables, &c., in proportion, at one meal. Six large loaves of bread, with more than a quart of coffee or tea, would scarcely suffice for his breakfast or supper. A good sized goose or turkey would disappear from sight in a short space of time. His daughter would prepare a plum pudding at stated periods, and cook it in a bushel bag. This would serve him and two others as a dessert.

Coal Oil is said to be a sure destroyer of bed bugs. Apply it plentifully with a small brush or feather, to the places where they most do congregate. The cure is effectual and permanent. Gilt frames, chandeliers, &c., rubbed lightly over with coal oil will not be disturbed by flies.—Housekeepers should try this remedy.

What is the first thing a young lady looks for in church? The hymns!

He's a fool that makes his doctor his heir.

A Big Hoax or a Mighty Reality.

A New York letter to the New Orleans Picayune, gives an account of something new in the scientific world, nothing short of melting rocks at wholesale, and reassembling them into the ornamental and useful. The marvel is as follows, which we think must be taken with some grains of allowance:—

A certain Dr. Benjamin Hardinge, a man of original mind—a careful, truthful and never tiring student of nature—has spent the last fifteen years in his laboratory in liquidating quartz rock, and combining it again in new and varied forms. Dissolving quartz silex with an excess of alkali is nothing new in chemistry; but to do it with the silex very greatly in excess over the alkali, and in large quantities, and at small expense, has been one of the greatest studies of chemistry for the past quarter of a century. This Dr. Hardinge has surely accomplished—for I have seen three thousand gallons of liquid dissolved at one time and in the short space of two hours, and at an expense merely nominal. The capacity of this monster machine is six thousand gallons, and it can digest twelve tons of quartz, or flint rock, in twenty-four hours, and convert it into waters of crystallization. But then you have the basis for the widest speculations. Your readers are, perhaps, aware that a very large portion of our globe is just this material, either in the form of sand rock or other siliceous substances.

By chemical combination, Dr Hardinge makes an article of plastic marble purer than the purest Parian. It can be made of any color, by mixtures with various metallic oxides. Every article of marble work may thus be cast as perfectly as castings of metal now are, and copies of Corinthian pillars, statues, mantels, &c., can be furnished at an expense of probably one per cent. of their cost. By a proper combination with ordinary sand or marble, a stone is made harder than the hardest flint, and at a price less than the cheapest brick. Your parlors may be frescoed with marble, and time will never injure the colors. This is undoubtedly the same process used in the catacombs of Egypt, the colors of which are as fresh as when they were first put on, three thousand years ago.

Your levees may now be built of stone made on the premises, and you will have no trouble to make them equal in size to the foundation stones of Solomon's temple.

The liquid quartz is also made into paint, incombustible and soluble. Your ships and steamboats cannot burn up, and the weakest hut will be as safe from fire as the marble palace. This seems almost like the fables of the Arabian Nights, yet it cannot be otherwise than true.

For dissolving gold bearing quartz, this invention's value is without limit. Every atom of gold may be precipitated and saved, and then the liquid is of far more value than the whole thing has cost.—Think of one great iron monarch digesting twelve tons of flint in twenty-four hours.

Mail Robber Arrested.

Information was received at the Post Office Department two months since, that remittances were not received by parties to whom they were addressed, at Sittsville, in this county. This morning the Deputy U. S. Marshal went to Sittsville, and having reason to suspect William Owens, clerk in the post office, they proceeded to examine him, and found on his person the last decoy letter, which contained thirty dollars in bills and thirty-five cents in silver, which were so marked as to be positively identified. Marshal Reed accordingly took him in custody and brought him before U. S. Commissioner Boyce, who committed him to jail to await an examination on Monday next; by which time, it is expected U. S. Attorney Spencer, or his Assistant, will be here to conduct it. Owens is only a hitherto twenty-one years of age, and has hitherto been looked upon as an honest young man by his immediate acquaintances, but the evidences of his guilt are too palpable to warrant the hopes of his friends that he may be acquitted of the charge. —Utica Telegraph, 14th.

Conflict between two Boa Constrictors.

Two large rock boa constrictors, belonging to WOMBELL'S at present at Plymouth, were, during the hours of exhibition, placed in a glass case for the purpose of being fed. A live rabbit was put into the case, and one of the boas immediately made for the prey. The rabbit, however, eluded the frangs of its enemy by a sudden jump, and the enormous snake, instead of dealing its deadly blow on the poor rabbit, fastened on the other boa, which, finding itself assaulted, immediately assumed the defensive in the most determined manner. Boa No. 2 strack No. 1, by which it had been assaulted, with its frightful fangs. The struggle was now fiercely maintained on both sides. The two monsters writhed and struggled in one another's grasp, and both seemed intent on pressing by its constrictive coil the life out of its opponent. This struggle was at last terminated by the Keepers, with the assistance of several gentlemen, but not before one of the combatants was so seriously wounded that fears are entertained that the consequences may prove fatal.—London Morning News.

A traveler "by rail" between New York City and New-Orleans, writes that he took breakfast at Rochester, N. Y., dinner at Erie, Pa., and supper at Cleveland, Ohio, then breakfast the next morning at Seymour, Ind., dinner at Olney, Ill., and breakfast the next morning at Columbus, Ky., being only one meal at each of these large States as he swept through them—having left Chambers street at 5 p. m. one day and arrived in Cleveland at 5:30 p. m. on the next; making the whole distance traveled 641 miles in 24 hours and 20 minutes, and passing through the States of New-York, Pennsylvania, Ohio, Indiana, Illinois, and Kentucky. —Tribune.

Hon. A. H. Reeder, formerly Governor of Kansas, was at St. Louis on the 10th.

The Benicia Boy, John C. Heenan, arrived at New York, from Europe, on Saturday.

Three suits have been commenced in Cincinnati to recover the \$30 penalty for refusing to answer the questions of the census marshal.

New York Markets. WEDNESDAY, July 19, 1860.

A CARD TO THE SUFFERING.

The Rev. WILLIAM COSGROVE, while laboring as a missionary in Japan, was cured of Consumption, when all other means had failed, by a recipe obtained from a learned physician residing in the great city of Jeddo. This recipe has cured great numbers who were suffering from Consumption, Bronchitis, Sore Throat, Coughs and Colds, and the debility and nervous depression caused by these disorders.

Desirous of benefiting others, I will send this recipe, which I have brought home with me, to all who need it, free of charge. Address: Rev. WM. COSGROVE, 439 Fulton Avenue, Brooklyn, N. Y. June 14, 1860.—3m.

THE GREAT ENGLISH REMEDY. SIR JAMES CLARKE'S Celebrated Female Pills.

PROTECTED BY ROYAL LETTERS PATENT. Prepared from a prescription of Sir J. Clarke, M. D. Physician Extraordinary to the Queen.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

To Married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity. Each bottle, price One Dollar, bears the Government stamp of Great Britain, to prevent counterfeits.

CAUTION. These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affections, pain in the back and limbs, fatigue on slight exertion, palpitation of the heart, hysterics and whites, these Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution. Full directions in the pamphlet around each package which should be carefully preserved. Sole Agent for the United States and Canada, JOB MOSES (Late L. C. Baldwin & Co.), Rochester, N. Y.

N. B.—\$1.00 and 6 postage stamps enclosed to any authorized Agent, will ensure a bottle, containing 50 pills by return mail. For sale in Stroudsburg, by July 1, 1859.—1y. J. N. DURLING, Agent

MARRIED.

THE Only Preparation

Having proofs so strong and direct as to EXPEL THE DOUBTS OF ALL.

For Statesmen, Judges, Editors, Physicians of the old schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and hair; but all who have used it, unite, in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore. Read the following: Oak Grove, S. C. June 24th, 1859.

To Prof. O. J. Wood: Dear Sir—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my most sincere thanks.—Rest assured, dear sir, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper. Yours, very respectfully, M. J. WRIGHT, M. D. Office of the Jeffersonian, } Philippi, Va., Dec. 12, 1858. }

Dear Sir—I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer), has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

THOMPSON SURGNOR. Dr. Wood: Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds ¼ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent, more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent, more in proportion, and retails for \$3.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo. And sold by all good Druggists and Fancy Goods Dealers. [March 29, 1860.—1y.]
