On the first page of to-day's paper, we lay before our readers, a letter of Judge candidate for the nomination of President. before the Chicago National Republican Convention, which put in nomination Mr. Lincoln. Judge Bates is noted for his ability and prudent conservatiom. This letter clearly sets forth the questions between the parties, and we therefore ask for it a careful reading and study. It is well worthy of it. The slavery question is remarkably clearly, as well as truth fully delineated. Read it.

The Man-Horse Race.

The race advertised to come off last Saturday, on the Fair Ground Course, between Mr. Adams, the celebrated pede-trian or walker, and a fast trotting horse, came off at the appointed time The distance was one half mile-best two in three. The man to walk half the distance the borse trotted. Adams won two of the three heats, and could have taken the other had be been so disposed

Mr. Adams is certainly a remarkably fast walker, but for his own sake, we regret to learn that he walked away from an unpaid board-bill of some ten dollars.

Then, what do the different parties contend for? or, in other words, what principles and measures do they severally represent? Let us then in a few words endeavor to truthfully answer this inquiry.

On the Slavery question the Republican party says: Let slavery alone where it exists by law, but do not let it extend into free Territories, if by fair and law ful means we can prevent it, for we are the white man's party, and want the Territories for the use of whites alone. We say to our Southern friends, hold your slaves in your own States so long as you please, and when you come into the Territories you can have all the rights and privileges that we enjoy, but no more .-You can bring into the Territories whatever is recognized as common property by all civilized nations. But slaves are not common property, and therefore you have no right to bring them into the Territories until there is a law expressly authorizing it. So say the Republicans, while the Democrats say : The Slaveholder has the same right to carry his slaves into free Territories and hold and enjoy them as the non-slaveholder has to take his horses and cows, or any other kind of common property, into the Territories, and there enjoy them. The Northern Dem- often severely punished by Providence moved, so the next day they cut it down. Then, in a word, - If you are in favor of the extension of slavery, or, in other words, of making the Territories a nest in which to foster Slavery; if you are in favor of Progressive Free Trade; if you are opposed to the Homestead Bill; and lastly, should you be satisfied with the last eight years of Democratic rule, then vote for the party calling itself Democratic.

When did you ever get any other fruits world the fact, that the Democracy has staying in this country. that were more palatable to your taste or been weighed in the balance and found more refreshing to your strength."

So said Mr. Douglas last May, and we ask you, Democrats, who say that you are not in favor of the extension of slavery, what do you think of it? Mr. Douglas says that popular sovereignty or non. intervention has given to slavery a strip of free Territory more than 90 miles in width and six or eight hundred long, more than the South ever asked for, until late ter for Lincoln.

Mr. Douglas represents the most his doctrine, according to his own show ing, is directly in favor of the extension

It is needless to argue this question further, because the Democratic party, as a party, is undoubtedly in favor of the extension of slavery; and those opposed to the virgin free soil of the West, in order to give expression to their wishes, must vote for Lincoln and Hamlin.
