

Never pronounce a man happy, because he has riches and treasure in store;— These may help to contribute to comfort, but yet There are wanting full many things more. We are apt to imagine the wealthy man must Be free from all burdens and cares; To know nought of the sorrows and longings, in which The poor man so bounteously shares. All men are stewards, intrusted with gifts Of greater or lesser degree: That the cares of the wealthy are many, surely must "As a natural consequence," be. The sleep of the poor man, is never disturbed, By grim spectres of broken banks; Nor by a fall in the prices of land and of stocks, Or any of Dame Fortune's pranks. "A mediocrity of state, conduces the most" To comfort, and freedom from care, Then "Give me not riches, nor poverty" should Be man's fervent, and daily prayer. Removed from the depth of wan poverty, e'en Should fortune withhold her bland smile; Men still can enjoy many good things of me, And wear clothes, manufactured by Pyle.

Trace the Traitor's Back. Parson Brownlow prints a long list of names of the South Carolina Tories of the Revolution. He says: We print the names of those infamous Tories, because their descendants are spread all over the South, and a portion of them are now figuring in this secession movement, and some of them even in their late Convention. They have a hereditary title to the contempt of all honest and patriotic men. Did not a man by the name of R. Burnell Smith, some twenty-five or thirty years ago, have his name changed to that of Rhett, by the Legislature, and if so what was his motive? Was he not prominent in the late Convention, in declaring out of this Union? We ask for information, because there have been more names changed in South Carolina, by act of General Assembly, than any State in the Union.

In the Spring of 1780, Sir Henry Clinton and Vice Admiral Arbuthnot, appeared before Charleston, and demanded a surrender to His British Majesty's forces. The gallant General Lincoln, in command of the American forces, repulsed this arrogant demand, with the scorn and contempt of a brave officer. They have hated the name of Lincoln ever since! The people of Charleston, and nearly all South Carolina, being Tories of the basest character, took the matter into their own hands, and threatened the gallant Lincoln with betraying him into the hands of the British forces if he did not come to such terms as pleased them.

Out of the Union. Some of the journals in Texas are sorely lamenting the position of that State, in being rushed out of the Union by a few persons, without time being allowed for any deliberation. The *Alamo Express*, published at San Antonio, says: "By a meagre vote of the people we are out of the Union—the strong arm of the federal government is being withdrawn, and the frontier lays bleeding at the hands of the merciless savage; the mail facilities will be stopped, and the gaunt and hungry figure of direct taxation will stalk in at our doors. This is the prospect now; but if things do wax to the worst, we know there will be change, as inevitably as the darkness of every night has an end. The people have sought a remedy for existing evils in secession; may they not seek a remedy of coming evils in a return to old landmarks?"

Valuable Post Offices. The Augusta (Ga.) Sentinel thinks the determination of the Southern Congress to discontinue some of the little P. Offices is wise, if not carried too far. Some of them it says, are merely Post Offices in name. For instance, we find that for the year ending September 30, 1856, the net proceeds of each of five offices in Florida was under ten cents. Three of them received four cents each, and one of them three cents. Certainly these offices could be lopped off without any great harm.

The London Daily News thus pointedly describes the aspect of the Pro Slavery Rebellion in the Gulf States as it was just before the inauguration of Mr. Lincoln:— "We see the Southern Democracy, barbarized by Slavery and its influences, coercing their own leaders. We see a corrupt and traitorous Federal Government in close proximity with the rebels. We see a Congress at its wit's end at finding itself living in revolutionary times. We see the tory element of the North playing into the hands of the tory society of the South."

While the boys were out at "recess," recently at one of the village schools in South Adams, Massachusetts, a gentleman riding by, stopped and inquired of a bright looking lad, what they did there? The urban looked up, scanning his interrogator's face a moment, and then, with a wicked leer and knowing wink, replied: "They tan hides, sir! That boy had probably received his share of smart in the aforesaid school-house."

A large amount of bills purporting to be of the Beverly Bank, Beverly N. J., are in circulation. There is no such bank, so beware of them. A charter for such a Bank exists, but as the laws of the State have not been complied with, the issue of bills is illegal and irresponsible.

Bound to Win. The Buffalo Express is responsible for the following: A chap who some time caught the oil infection put for Tidecoat and commenced to bore a well. After he had reached a depth of some three hundred feet without even obtaining a "show," some of his more fortunate neighbors took it upon themselves to ridicule him on account of his poor success—an operation which he bore very patiently. The next day some of the same party having occasion to visit his engine house, were rather startled from their propriety at seeing a shingle nailed up in a conspicuous place, upon which was inscribed the motto, "Oil, is—ll, or Chinal." It is needless to say that his neighbors discontinued their persecutions from that moment—and we may add that it was not long before the persistent fellow "struck oil."

About two miles south of the village of Perryville, Ind., half an acre of ground is burning vigorously. It is composed mostly of a kind of marl, in which the heat has made crevices, and the smoke may be seen issuing from the subterranean furnace a distance of two miles. But the most singular feature of this natural lake-oven is the beautiful covering of green grass—an oasis in the cheerless field of snow surrounding it. Cattle attempted to eat the grass, but finding the earth rather warm, scrambled out and left it growing greenly in its hot bed. A visitor pierced the surface with a rail, and fiery sparks came up thickly. A sound issues from the spot like the distant rumbling of rail-road cars. The place was formerly a low, swampy piece of land.

A South Carolina paper threatens Dr. Holmes, of The Farmer, with a coat of "tar and feathers." He gives the following capital turn to the threat:—"And the feathers too! What should we do with such toggery on mortal bodies? We might do to set on goose eggs, and hatch Carolina statesmen; but 'twouldn't pay."

A correspondent of the Charleston Mercury says he finds intelligent men in Washington who believe the present troubles in this country, in Europe, and in Asia, fore-shadow the coming of Christ. One of these approached a politician the other day, and told that our national disasters would soon be quitted. "By whom?" inquired the politician. "By no less a person than Jehovah." "Ah! indeed. But who is G. Hovey?" "This is an actual fact. The politician really did not know that the Deity was sometimes called Jehovah."

Fever and Ague! Chill Fever! Dumb Ague!!! It is not a very difficult thing to break the ague—that is, for a time to scatter it over the system, with Quinine, Arsenic, or similar poisons. But a vegetable medicine which not only breaks the fits, but eradicates it from the system, is a remedy worth having. Such is HUMPREYS' HOMEOPATHIC AGUE PILLS—a harmless sugar pill; it cures the disease; breaks up the fit; and eradicates it from the system; and even prevents it where persons have been exposed. Children, infants, and the most feeble, may take it with impunity. The most inveterate cases are radically cured by it. Price, 50 cents per box.
