Bath, Maine, April 18th, 1859. Prof. O. J. Wood & Co: Gents :- The let ler I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous enquiries touching the facis in the case. The enquiries are. first, is it a fact of my habitation and name. as stated in the communication ; second, is i true of all therein contanted; third, does my hair still continue to be in good order and of natural color ! To a!! I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more so t, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will toilow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to Passengers from New York, leave be good; as there is so much fraud in the manu acture and sale of various compounds Or toot of Courtland street at as well as this, it has, no doubt been basely From Phila, leave Kensington imitated and seen used, not only without any Leave Junction, . . good effect, but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hatr is as good as ever, and hundreds have examined at with surprise, as I am now 61 years old and not a gray hair to my head or on my face; and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart nottles last summer. for which I am very grateful: I gave it to my friends and thereby induced them to try it, many were skeptical until after trial, and then purchased and used it with universal success. I will sak a lavor, that you send me a test by which I can discover traud n. the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I telieve where good etfects do not toilow, the failure is caused by the Night Express West the impure article, which curses the inventor of the good. What is true and so apparent in this trivial and common complaint, is also true in many this trivial and common complaint, is also true in many of the deeps-ated and dangerous distempers. The same purgative effect expels them. Caused by similar obstruc-tions and derangements of the natural functions of the bady, they are rapidly, and many of them surely, cured by the same means.
