

Another Case of Secession.

The Washington Republican has this paragraph: The wife of the Hon. A. R. Boteler, a member of the last Congress, from Harper's Ferry district, but now a secessionist leader, has seceded from her husband and gone to the more congenial atmosphere of Hagerstown, where she will probably remain until her husband gets over his secessionist proclivities.

Mrs. Boteler is of New-Jersey stock, her ancestors having been Sussex county people, and noted for their activity in behalf of Independence during the Revolutionary era. Her love for our gallant little State has been evinced by the care with which she preserved certain valuable papers illustrative of the status of Sussex, in Revolutionary times, and her donation of copies of these precious relics to the New Jersey Historical Society some 4 or 5 years since.

Dying for one's Country.

The editor of the Green Bay Press discourses on this subject in a style quaint as that of Sir Thomas Browne or old Fuller. He says: "Here is an opportunity of going out of the world which is very well worth one's while to come in for. Here is a consummation of the acts of our lives which is like the last number in a sum, ten times greater than all the rest. To die of a dry rot—to go off with a lazy languor—with convulsions and deformity is a terrible rebuke to the dignity of human nature. A piece of ordinance or an executioner does up one's business more gingerly and more gently than fever and cholera; and we ought to thank God for the honor and the opportunity."

To nurse up the vital flame as long as it will last, like a kitchen wench, is infamous and ridiculous. It were better to cover it over with an extinguisher of glory, than let it consume till it burns blue and lies agonizing within the socket, and at length goes out smelling badly.

A Fund for Mr. Douglas's Family.

The Chicago papers publish an address to the people of the United States, but more particularly of Illinois, setting forth the fact that Mr. Douglas died leaving no foot of earth on which his family can reside and call their own. His widow has given to the State the three acre lot as a resting place for the remains of her husband. The address invites voluntary contributions to a fund to be administered by trustees to provide a home for the widow and children of Mr. Douglas.

Parson Brownlow of the Knoxville Whig.

Parson Brownlow of the Knoxville Whig, says "We have been studying the character of God for the last thirty years, and that, too, in sacred Biography of his own writings; and we confess that we have not come up with any point in his character, or nature, which warms the belief that he will identify himself with the Southern Confederacy in this conflict. The war has been brought about without any adequate cause."

The Peter-burg Va. ladies, forty in number, are drilling for fight.

Their captain is Josephine Swan. What a jolly company to capture.

The Post Office Department propose to procure a new style of stamped envelopes.

This has been made necessary by the action of the rebels, whose Postmasters steal those now in their hands.

Gen. Beauregard, in a recent proclamation to his fellow rebels in Virginia, stigmatizes northern men as thieves and brutes, who have no respect for the rights of property, nor regard for the virtue of women; yet, strange to say, he has sent his own wife to the city of New York, for safety and protection.

Market Value of Confederate Bonds.

Fifty thousand dollars of the bonds of the Southern Confederacy, belonging to parties in New Orleans, La., who were forced to sell, were disposed of a fortnight ago, at the rate of ten cents on a dollar. Only \$5,000 could be obtained in that market for the lot, which within a few months cost \$50,000.

Farmers and the War.

This country would be able to support a very large number of fighting men through an indefinite period of time if the peaceful industry of the community was directed to this end. It would simply be necessary to divert the labors of those who are now engaged in making superfluous luxuries, to the production of food and clothing. This diversion of labor will be gradually effected by a decline in the price of luxuries and an advance in those of the necessities of life. This already begins to be felt; while works of art, books, jewelry, &c., are of very slow sale, the coarser styles of woollen cloths and satinetts have advanced some 30 per cent. in price in such colors as are adapted for military purposes. If the community is intelligent, they will anticipate this change in the market demand for articles, and will, by a prudent forecast, save us from a scarcity of products absolutely essential to existence.—This applies with especial force to farmers. Let them sow their seed with perfect confidence that there will be a certain demand for their crops, which will bring better prices than in preceding years. Above all things, let us not have the horrors of famine added to the trials of war.—Harrisburg Telegraph.

"AND THE STRIPES."—A little four year old girl, while repeating the catechism for her mother, was asked, "What did God create?" The child promptly replied, "The earth, the sun, the moon, the stars—and stripes!"

The Stevens Bomb-Proof Battery.

It is stated that during the last visit of Mr. Edwin A. Stevens to Washington, he obtained a promise from the Navy Department that measures should be immediately taken with a view to complete the famous Stevens bomb-proof battery, now lying at Hoboken. A commission will be appointed, and, after examining the proposed plans and the work thus far completed, will decide upon their merits. It is claimed that this battery could be used, without doubt successfully, to retake Fort Sumter, and would not mind the assaults of the small land batteries which would be obliged to pass. Owing to a peculiarity in its construction it can be raised or lowered in the water at will, and when going into action only about seventy feet of her is exposed to the fire of the enemy. On crossing a bar, or in shoal water, she can be sunk so that only her working battery will be above water. As for crippling her machinery is concerned, that is next to an impossibility. The battery will have two independent crews. Her armament would consist of rifled guns of the most approved pattern, and of a much larger calibre than those now in use. Thus armed and protected, she might defy a dozen batteries, and if called upon to engage a fortification of masonry, it would be a question of short time, in regard to breaching its walls and compelling the enemy to retreat. Mr. Stevens has strong hopes that the commission will urge upon the Government to push the work forward, and in this hope the public coincide. The New Jersey Legislature have memorialized the Secretary of the Navy, and it is thought the matter will be brought up in the coming session of Congress. It will take a host of four or five months to complete this work, which will cost about \$1,000,000.—Jersey City American Standard.

The Pennsylvania Regiments in Virginia have adopted for their watchword in the time of battle: Remember Greble!

This will ring in the ears of the traitors as terribly as once the battle cry of Remember Paduk rang in the ears of the servile soldiers of an imbecile tyrant.

According to the Southern Papers, our losses so far in the little skirmishes we have had with the rebels, foot up as follows:

Table with 2 columns: Location, Casualties. At Sewell's Point, 600 killed. At Fairfax Court House, 20. At Phillipi, 1000.

The actual result, according to the official report, is as follows:

Table with 2 columns: Location, Casualties. At Sewell's Point, 0 killed. At Fairfax Court House, 1. At Phillipi, 1.

A Medical Journal states that by laying a piece of cold charcoal upon a burn, the pain subsides immediately.

A Cumberland Valley farmer charged some of our hungry soldiers two shillings for a loaf of bread!

That fellow is mean enough to steal acorns from a blind hog in the forest, and would chase a flea thro' a five mile swamp for the hide and talow. He ought to migrate to the south and enlist in the rebel army.

A door-lock has been invented which rings a bell and lights a taper the instant any person attempts to pick it.

It is considered a good safe guard against burglars. We expect that it will be so improved, such is the ingenuity of the day, that it will also shoot the burglar and give a signal to the police.

Will French, Pray or Fight.

A Methodist Minister in Ohio, being anxious to obtain a situation as Chaplain in a Regiment, wrote to the Governor: "I am a Methodist Preacher of the North Ohio Conference, an 43 years of age, and will preach, pray or fight, as occasion requires."

A Venerable Couple.

At Atlanta, Ga., a few weeks ago, there stood before the altar the Rev. Isaac Ross, a pioneer Methodist Preacher, now in the eightieth year of his age, and Miss Childs, aged ninety years, who were united in marriage.

Teacher—"Well, sir, what does h-a-i-r spell?"

Boy—"Don't know."

Teacher—"What have you got on your head?"

Boy—"I guess it's a 'skeeter bite, it itches like thunder."

The Grand Jury at Pittsburg have presented Messrs. Frowenfeld, of Pittsburg, and Mr. Charles M. Neal, of Philadelphia, Agents of Gov. Curtin, for fraud in the army clothing, and the Court of Quarter Sessions have directed the District Attorney to draw a bill of indictment against those persons.

High-stepping carriage horses are now scarce, though greatly prized, and the world wonders why they are not more to be met with. This is simply an affair of training. In the North of Germany, whence these horses are chiefly imported, you may frequently see the animals exercising on the high roads, caparisoned like the knight's charger of old, with heavy clothing, wearing no blinkers, but large spectacles. These spectacles are strong magnifiers, and each pebble, to the eye of the deluded quadruped appears as a granite boulder, so in his youth and ignorance, he lifts up his legs high in the air to avoid their contact, and thus contracts the habit of high-stepping so much admired, and for which amateurs pay unheard of prices.

AGENTS WANTED to sell the Erie Sewing Machine.

We will give a commission or pay wages at from \$25 to \$60 per month, and expenses paid. The ERIE is a new machine, and very simple in its construction. A diploma was awarded our Machine by the Industrial Association of Farmers & Mechanics, held at Chambersburg, Pa., at its exhibition in 1860, over the Grover & Baker, and Boudoir Machines. It is equal to any machine in use, and the price is but fifteen dollars. Address R. JAMES, General Agent E. S. M. Co., Milan, Ohio. March 14, 1861.—6m.

THE GREAT ENGLISH REMEDY. SIR JAMES CLARKE'S Celebrated Female Pills.

PROTECTED BY ROYAL PATENT. Prepared from a prescription of Sir J. Clarke, M. D. Physician Extraordinary to the Queen.

THIS well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the constitution. To married ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, pain in the back and limbs, fatigue on slight exertion, palpitation of the heart, hysterics and whiteness, these Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything injurious to the constitution. Full directions in the pamphlet around each package which should be carefully preserved.

DELAWARE WATER GAP CLASSICAL SCHOOL

The next Term opens, May 1st, and continues five months. The Principals have had much experience in conducting such Schools, and will spare no labor or expense in giving their pupils the best advantages. In addition to the usual branches of an English education, thorough instruction will be given in the German, French, and Spanish languages, and in all the branches required to prepare young men for college, or for business pursuits. Day scholars, and young men qualifying themselves for teaching, received on the most liberal terms. Rev. H. S. HOWELL, Principals. Rev. C. M. BLAKE, Principals. Delaware Water Gap, April 4, 1861.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered system—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease, a cold, settled, and dangerous disorder. These, if not relieved, spread upon themselves and the surrounding organs, producing general prostration, suffering, and distress. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the pleasant feeling of health again. What is true and so apparent in general and common complaints, is also true in many of the most dangerous disorders. The positive effect of these Pills, is their ability, and many of them, to cure by the same means. Some who know the virtues of these Pills, will neglect to employ them when suffering from the most trying cases. Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Paraphrasing Merchant of St. Louis, Feb. 4, 1856.

Dr. Ayer: Your Pills are the purgation of all that is great in medicine. They have cured my little daughter of a chronic case upon her hands and feet that had proved uncurable by the usual means. Her mother has been long and sorely afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I had one or two large doses of your Pills, taken at the present period of the menstrual action, when wholly or partially suppressed, and also very effectual in clearing the stomach and expelling worms. They are the most valuable of all the medicines I have used, and I have frequently recommended them to my friends.

From the Rev. Dr. Himes, of the Methodist Ep. Church, Pulaski, Mo., Savannah, Ga., Jan. 6, 1856.

I should be grateful for the relief which your pills have brought me. I did not report my case to you. A cold settled in my husband brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your pills. Their effect was slow, but sure. By persevering in the use of them, I am now entirely well.
