#### A Whisper.

There was never a day so sad and long; But it wore at length to evensong; There was never a life so full of grief, But death came at last to its relief.

There was never a soul so wholly sad, But it found some moment to be glad; There was never a heart so full of care, But it had one hope to cheat despair.

There was never a winter dark and drear, But changed to spring in the early year; There was never a summer, well a-day! But it sloped through autumn to decay.

[This ringing lyric is said to have been written by Hon. Daniel S. Dickinson, man, especially in his right to own men, a wild goose. Being wing tipped and of New York, in response to a letter address- buted to him by a lady to know if he was not 12. They oppose "Woman's Right," in favor of peace.]

### AM I FOR PEACE! YES.

For the peace which rings out from the cannon's throat,

And the sussion of shot and shell, Till rebellion's spirit is trampled down To the depths of its kindred hell.

For the peace which shall follow the squadron's tramp,

Where the brazen trumpets bray, And, drunk with the fury of storm and strife,

The blood-red charges neigh. For the peace that shall wash out the lep-

Of our slavery-foul and grim, And shall sunder the fetters which creak and

On the dark trodden dark man's limb.

I will curse him as traitor, and false of heart, Who would shrink from the conflict now, And will stamp it, with blistering, burning

On his hideous, Cain-like brow.

Out! out of the way! with your spurious

Which would make us rebellion's slaves; We will rescue our land from the traitorous

Or cover it over with graves.

You trembling and trading pack! Crouch away in the dark like a sneaking

That its master has driven back.

You would barter the fruit of our father's ministration.

And sell out the stripes and stars, To purchase a place with rebellion's votes,

Or escape from rebellion's scars. By the widow's wail, by the mother's tears,

By the orphans who cry for bread, By our sons who fell, we will hever yield Till rebellion's soul is dead.

## A Sargeon's Story.

One sometimes has to resort to droll methods to save life and alleviate suffering, in the service of wounded men, where balls, shells, and all instruments of this is a contest not between States, comdeath have played in every conceivable munities, or institutions, but between all manner with human bodies.

sort when I was down at our receiving penly scoff at, as "God and humanity," depot after the battle of Fair Oaks. A poor fellow came in to us in the greatest agony that you can conceive of. He was suffering from thirst, the most exeruciat- From Bucks County Intelligencer. ing. He would snatch up a vessel of water and pour it down his throat, and it would run right out on both sides of his neck. Poor fellow, he was shot straight and injurious to animals to force them to grass. The paint had in it a peculiar wanted a stomach pump, but it was not rist. to be obtained there, so I took a long, flexible tube used for surgical purposes, and gently and carefully pushed it below the wound into the stomach. I then pre-long the strain becomes still greater.— during seed time, and applying different When colts are obliged to stand tide on colors, we shall no doubt be enabled to could bear after long fasting, and with a syringe injected it. Never did a poor fellow manifest more joy or appear to be more relieved. "More, more," were the signs he made when I had given him all that prudence could allow, and when I proposed to withdraw the tube to relieve him until it should be proper to feed him again, he would not let me, but proposed to hold on to his precious "friend in need!" Gradually we gave him toast water and strained soup, and when I last saw him he was in the ambulance with his tube still hanging from his mouth, and his syringe, which he had learned to use himself, in his hand. So probably it aemained until the holes in his throat united, and nature, the wonderful healer, rendered the surgeon's contrivance no

of hard wood, 1 by 2 inches, should be mortised in and nailed to the spars to keep them to their places. For a better Jones?" but more costly plan for a stable floor, see Feb. No. of the American Agricultu-

Earthen floors are, perhaps, the most healthy for horses' feet, but it requires attention to keep them in order .-When an earthen floor is made level at first, a horse will sometimes get his hind feet worked down two or three inches below its surface, which makes it as bad for him as if his floor had that much descent from his fore feet to his hindfeet. A slightly concave bed is the easiest and most natural for dumb animals generally; but when a horse paws his floor, or when, by any means, his floor becomes elevated between his fore and hind feet, he then has just that kind of a floor which no horse should be permitted to lie down on. I have seen horses and colts trying to rest themselves on such places which groaned as badly as if they were suffering from cholic.

Wrightstown, 1864.
