

A Snake Story.
A few weeks ago, as a boy by the name of Hughes, about 12 years old, was returning home from Dudley, in Carbon township, he saw a large black snake coiled in the road in front of him. As he approached, it sprang at him, passing over the horse's back, but missing the boy. The horse was put to the gallop, but the racer pursued, and again darted at the boy, and again missed him, and fell on the opposite side of the horse. The snake then coiled around one of the front legs of the horse and remained there some minutes, the beast all the while running as fast as possible. For several days the horse's leg was much swollen. This story is from the best authority.—*Huntington Monitor.*

A Rare Fish.
A friend has presented us a rare fish, caught, we believe, in the waters near Danversport, Mass. It is about a foot in length, with a hard flattened head, and a round, smooth body, beautifully tapering to the tail without ridge or fin on the back. Its belly is white, smooth and soft, but its back is dark and covered with small compact scales. We sought in vain to find any one who had before seen such a specimen, and just as we were about to give up the search a fisherman told us it was called by his craft a "grunter," but it had another name which he had forgotten. This name was given it on account of a peculiar grunting noise it makes when captured. Another peculiarity of this rare fish is, that it has six legs or tentacles under its head, which it can make flexible or horny at its will. Although now rare, it may become as common in our waters as the once rare Tautog or Blackfish.

Oiling Leather.
The *Scientific American* says that oils should not be applied to dry leather, as they would invariably injure it. If you wish to oil harness wet it over night, cover it with a blanket, and in the morning it will be dry and supple; then apply neat's foot oil in small quantities, and wipe so much elbow grease as will insure its disseminating itself throughout the leather. A soft, pliant harness is easy to handle, and lasts longer than a neglected one. Never use vegetable oils on leather, and among animal oils, neat's foot is the best.

The New Loan.
Secretary Fessenden has acted wisely in appealing to the people for contributions for the support of the government. This, as he justly observes, is the people's war, and the people whenever appealed to directly as in this instance, cannot fail to give it a vigorous support. Already the call of the Secretary for contributions is meeting an encouraging response. The subscriptions to the new loan in New York the first day it was offered, amounted to over two and a half millions of dollars, showing that the popular confidence in the integrity of the government and the financial strength of the nation is not at all diminished.

The Ant Trap.
As the season is now at hand for these pests (the ants), housewives and others who are troubled with them may probably use the following trap to advantage: Procure a large sponge, wash it well, and press it dry, which will leave the cells quite open; then sprinkle over it some fine white sugar, and place it near where the ants are troublesome. They will soon collect upon the sponge and take up their abode in the cells. It is only necessary to dip the sponge in scalding water, which will wash them out dead by the tens of thousands. Put on more sugar, and set the trap for a new haul. This process will soon clear the house of every ant.

A Rat with a Wooden Leg.
One day last week a cat belonging to the Rev. Mr. O'Rourke killed a rat having a wooden leg. A vessel, we are informed by Mr. H. Tyndall, was it appears, discharging coal at Cape Clear, and the cat went on board by means of the plank forming a passage from the quay to the ship. Master Tom had not been long off terra firma when he caught a huge rat, and, on examination, it was found to be minus a leg, which was replaced by a wooden one, doubtless by some of the men of a former crew of the vessel. The leg was neatly attached by means of a silk cord, and lest it should wear out during the time of the rat's natural life, it had on a little ferule, made of tin. The sailors were not at all obliged to "Tommy" for this achievement in rat-catching.—*Skibberon (Ireland) Eagle.*

DISCONTENT.
"Past and to come" to some men seem Always the very best,
The present to such is e'er a state Of serious unrest.
Winter finds them longing for the change,
That Spring's debut will bring;
Springtime oft bears them gloomily,
Of Winter's praises sing.
Nothing within their power to reach,
For joy affords a theme,
Only of unattainable
Emoluments they dream.
Prospective pleasures they pursue,
While present comforts lie,
Unnoticed, or seen, but to be
Unthankfully passed by.
To those who find it rather hard,
"To keep free being sour,"
Sometimes we'd say that pleasantly,
They might employ an hour.
In looking at the new costumes,
Of rarest kind and style,
To be found alone at Fashion's mart,
The Emporium of Pyle,
Pyle's store is opposite the old Easton
Bank, where you will always find the largest
and best stock of Ready made Clothing
to be found outside of the cities. Call and
see the styles.

Boys, if you don't want to fall in love, keep away from music. You can no more play with those girls without losing your hearts than you can play with gamblers without losing your money. The heart-strings of a woman like the tendrils of a vine, are always searching out for something to cling to. The consequence is, that before you are going you are "gone," like a lot at an auction.

A French gardener finding a piece of woolen cloth, which the wind had lodged in tree, covered with caterpillars, acted upon the idea suggested, and placed woolen rags in several trees. Every morning he found them covered with caterpillars, which were easily removed.

U. S. 10-40 Bonds.
These Bonds are issued under the Act of Congress of March 5th 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority.—Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government at any period not less than ten nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and all other Bonds semi-annually.—The interest is payable on the first days of March and September in each year.
Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's orders. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.
Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin—(or in United States notes or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from the date of subscription and deposit. As these Bonds are Exempt from Municipal or State Taxation, their value is increased from one to three per cent. per annum, according to the rate of tax levied in various parts of the country. At the present rate of premium on gold they pay
Over Eight Per Cent Interest
in currency, and are of equal convenience as a permanent or temporary investment.
It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is held to secure the payment of both principal and interest in coin.
These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.
It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864 has been so far at the rate of over \$100,000,000 per annum.
It will be seen that even the present gold revenues of the Government are largely in excess of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.
Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.
Subscriptions will be received by the First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa. Third National Bank of Philadelphia, Pa. AND BY ALL NATIONAL BANKS which are depositories of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Depository Banks,) will furnish further information on application and Afford every Facility to Subscribers.

Wistar's Balsam OF WILD CHERRY.
ONE OF THE OLDEST AND MOST RELIABLE REMEDIES IN THE WORLD FOR
Coughs, Colds, Whooping Cough, Bronchitis, Difficulty of Breathing, Asthma, Hoarseness, Sore Throat, Croup and every affection of THE THROAT, LUNGS AND CHEST; INCLUDING EVEN CONSUMPTION.
Wistar's Balsam of Wild Cherry! So general has the use of this remedy become, and so popular is it everywhere, that it is unnecessary to recite its virtues. Its works speak for it, and fine utterance in the abundant and voluntary testimony of the many who from long suffering and settled disease have by its use been restored to pristine vigor and health. We can present a mass of evidence in proof of our assertions that CANNOT BE DISCREDITED.
The Rev. Jacob Sechler, Well known and much respected among the German population in this country, makes the following statement for the benefit of the afflicted.
HANOVER, Pa. Feb. 16, 1859.
Dear Sirs:—Having realized in my family important benefits from the use of your valuable preparation—Wistar's Balsam of Wild Cherry—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam; and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case, made frequent use of your valuable medicine, and have always been benefited by it.
JACOB SECHLER.
From Hon. John E. Smith, a distinguished Lawyer in Westminster, Md.
I have on several occasions used Dr. Wistar's Balsam of Wild Cherry for severe colds, and always with decided benefit. I know of no preparation that is more efficacious or more deserving of general use.
The Balsam has also been used with excellent effect by J. B. ELLIOTT, Merchant, Hall's Cross Roads, Md.

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever been made by any body. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases.—While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm.—Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character, as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.
The agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:—
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid inclination of the Bowels and Pain arising therefrom, Flatulency, loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body, or obstruction of its functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand Ayer's and take no others. The sick want the best and there is for them, and they should have it.
Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by Wm. Hollinshead, Dreher & Brother, in Stroudsburg, and by dealers in medicine everywhere.
