

Quaker Justice.
The Washington correspondent of the Cincinnati Gazette tells the following story:
Gen. Schenck's resolution, just introduced in the House, making runaways from the draft, who have gone to Canada, aliens, and requiring them to be naturalized before they can again exercise the rights of citizenship, is good but old. Congress will undoubtedly enact the law, but a decision in advance has already been given by competent authority.
"There has no right to vote," said a good old Quaker Judge of Election in Warren county, Ohio, to a would-be voter at the late election.
"What do you mean?" stormed the astounded devotee of the "Great Unready?"
"I mean thee is not a voter; thee is not a citizen of this State."
"Why, you old fool, I was born in this county, and have lived here all my life, and there's nobody knows it better than you!"
"Thee is mistaken, my friend. Thee was born here, it is true—I knew thy father before thee, and a good man he was; I little thought his son would do such a thing; but thee hasn't lived here all thy life. Thee slipped away about the time of the draft; thee went to Canada, and neither paid thy three hundred dollars, if thee was opposed to fighting, nor took thy musket if thee wasn't; but thee became a citizen of a foreign country; and thee can't vote here!"
The McClellanite raved, but the Quaker Judge was inflexible. The McClellanite declared there was no law for such a decision, and he would prosecute him; but the Quaker was calm. "Thee may be right about the technical language of the law; I do not pretend to say; but thee went to Canada; and I am clear in my conviction. Thee can't vote." And he didn't. That Quaker was born for a law-maker.

A Touch of Petroleum.
Close to the lands of the Centre Oil Company there lives an old chap who is worth a mint. Ignorant, of course, dumb luck has made him rich. His household pets consist of a terrier dog and stupid daughter, both of whom engage his attention. The former provided for, he determined to "accomplish" his daughter. To this end he came to the city. He bought a piano, and a harp, and a guitar, and a car load of music books, and so forth, winding up his business by engaging a first-class intellectual and musical tutor with all of which he started for the "region." The documents were of course soon arranged for business. The tutor set to work and toiled like a Trojan, but with no success. Despairing of ultimate triumph, the tutor went to the oil king and made a clean breast of it.
"Why, what in the world's the matter?" asked the father.
"Well, answered the tutor, "Kitty has got a piano, and guitar, and harp, and music, and books, and all that, but she wants capacity—that's all."
"Well, by the Lord Harry," cried the oil king, "if that's all, just buy it. I've got the stuff, and if money will get it she shall have capacity or anything else."

A Very Great Rascal.
Two young lawyers, Archy Brown and Thomas Jones, were found of dropping in to Mr. Smith's parlor, and spending an hour or two with his only daughter Mary. One evening, when Brown and Mary had discussed almost every topic, Brown suddenly, in his sweetest tones, struck out as follows:
"Do you think, Mary, you could leave father and mother, this pleasant home, with all its ease and comforts, and emigrate to the Far West with a young lawyer, who has but little besides his profession to depend upon, and with him search out a new home, which it should be your joint duty to beautify, and make delightful and happy, like this?"
Dropping her head softly on his shoulder, she whispered: "I think I could, Archy."
"Well," said he, "there's Tom Jones, who's going to emigrate, and wants to get a wife: I'll mention it to him."

Large Tax.
The Boston Post says: "One of our Boston merchants yesterday paid the excise on 700 barrels domestic spirits, which amounted to the snug little sum of sixty-six thousand and three hundred dollars, (\$66,300.) This, we are informed, is the largest amount paid at any one time since the present internal revenue law has been in operation."
"For the want of water I am forced to drink water; if I had water, I would drink wine." This speech is a riddle, and here is the solution. It was the complaint of an Italian vineyard man, after a long drought and an extremely hot summer, that had parched up all his grapes.

IMPROVEMENTS.
Men are apt to denounce all projects proposed, which they do not at once comprehend. To discourage, instead of promoting a good, too often their efforts they lend.
In all ages improvement projects have met with discouragements in every plan. For the comfort, domestic and public, of that sprig of humanity—man,
It is very unsafe to affirm positively, This thing or that cannot be done, Notwithstanding prognostics of failure sometimes, Important achievements are won.
In matters of dress even some men believe it is best to adhere to old styles, Not so however, that promulgator of Fashions,
Our enterprising citizen, Pyle,
I have just placed on my counters a splendid assortment of Boy's and Children's Clothing for winter wear, to which the attention of the public is particularly invited.

Ayre's Ague Cure.
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.
Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arise from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spine, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be overestimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell, because one bottle cures a whole neighborhood.
Prepared by J. C. Ayre & Co., Lowell, Mass., and sold by Wm. Hollinshead, Dreher & Brother, in Stroudsburg, and by dealers in medicine everywhere.

U. S. 7-30 Loan.
The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum—principal and interest both to be paid in lawful money.
These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect.—They will be issued in denominations of \$50, \$100, \$500, \$1,000, and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.
The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.
As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of deposit.
Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one quarter of one per cent, which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.
Special Advantages of this Loan.
It is a National Savings Bank, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.
It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collateral for discounts.
Convertible into a Six per Cent. 5-20 Gold Bond.
In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent per annum, for the current rate 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profits on this loan, at the present market rates, is not less than ten per cent. per annum.
Its Exemption from State or Municipal Taxation.
But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.
It is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities is, pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.
While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.
Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomination of notes required, and whether they are to be issued in blank or payable to order.—When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.
Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositories and by the First National Bank of Scranton Pa., Second National Bank of Scranton, Pa. and by all National Banks which a depositories of public money, and all RESPECTABLE BANKS and BANKERS throughout the country will give further information and

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever been made by any body. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases.—While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm.—Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character, as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.
The agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:—
Constiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from full stomach, Nausea, Indigestion, Morbid inaction of the Bowels and Pain arising therefrom, Flatulency, loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body, or obstruction of its functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

IMPORTANT TO ALL INVALIDS.
IRON IN THE BLOOD.
It is well known to the medical profession that IRON is the Vital Principle of Life Element of the blood. This is derived chiefly from the food we eat; but if the food is not properly digested, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will stopify the brain, will obstruct the liver, and will send its disease-producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease.
The great value of
IRON AS A MEDICINE
is well known and acknowledged by all medical men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This point, says Dr. Hayes, Massachusetts State Chemist, has been attained in the Peruvian Syrup, by combination in a way before unknown.
THE PERUVIAN SYRUP
is a PROTRACTED solution of the PROTOXIDE OF IRON. A NEW DISCOVERY IN MEDICINE, that strikes at the Root of Disease by supplying the blood with its Vital Principle or Life Element—Iron.
