This Company owns in fee simple seveny-seven and three-tenths acres on the East ide of the Allegheny River, in Rockland township, Venango County, Pennsylvania. It is situated five miles below the town of Franklin, opposite the mouth of the West Sandy Creek, and has a frontage of 110 rods on the river. It is but a short distance below the celebrated Hoover well which is yielding 200 barrels of oil daily. Other yielding wells surround it in every direction, and within the past few weeks two new wells have been struck in the immediate neighborhood, one of which is producing dainine per cent., including gold interest from ly 30 barrels of heavy lubricating oil, worth Nov., which makes the actual profit on the at the well \$30 per barrel.

A fine vien of Bituminous coal, easily accessible, is on part of the land, and in view of the enormously high price of coal in that region, is an important consideration, and have no trouble. The interest is payable semi- an income from its sale to others,

The adjoining properties are in the hands of good and prosperous companies, all in suc-cessful operation, and it is believed that no one company has started out with better prospects for paying large and regular monthly dividends.

This Company intend developing their land without the least delay, and for this purpose have arranged for the necessary engines, tools, tubing, &c., all of which will be put upon the ground and in operation as soon as the season will permit.

In addition to their own wells, the Company also propose to lease to responsible parties portions of their land divided into lots of 10 square rods each, at a rent of one half the oil, the Company to be at no expense whatever. They will have at least fifty such lots to lease, all these lots can be leased at once if deemed expedient, with covenants Since the above was written we have re- 7-30 Loan has the option of accepting "Flour had advanced to \$250 to \$300 Great Popular Loan of the People. ble despatch to the depth of five hundred or more feet.
