Pennsylvania Insane Asylum.

The annual report of this institution TAPE WORM .- That dread to the Hu. has just been issued. Since the opening ber, 1861, nearly 1,850 persons have par-Consultation in my office in the English ticipated in its benefits. Of this number, 360 have been discharged, "restored," capable of again entering into the business, discharging the duties and partaking of the enjoyments of life. Between 420 and 430 have been improved, and their condition greatly ameliorated. Ou patients in the hospital was 281, viz : 148 ties are there, and how much remains

Auswer. They are due in two years and a half from the 15th of February, 1865; viz.: on the 15th of August, 1867. 5th Question. Must I receive back my money so soon as 1867?

Answer. No ! not unless you yourself prefer to do so-the Law gives you the right to domand from the Government, at that time, either your money or an equal amount at par, of the famous and popular 5.20 Gold-Bearing 6 per cent. Loan. 6th Question. How much do you consider this privilege of conversion, into 5.20 Loan be worth?

Answer. 5.20s bearing Gold Interest from 1st of November, are to-day worth 9 per cent. premium. If they are worth no more at the end of the two years and a half, when you have a right to them, than they now are, this premium added to the interest you receive, will give you at least 10 per cent. per annum for your money-but the opinion is they will be be worth more than 9 per cent. premium at that time.

7th Question. What other advantage is there in investing in the 7-30 Loan?

Answer. It cannot be taxed by States, Counties or Cities, and this adds from one to three per cent. per annum to the net income of the holder, according to the rate of taxation in various localities. All bonds and stocks, except those of the United States, and all mortgages, &c., are taxed, not only by the Government, but

Sth Question. How does the Government raise the money to pay the interest, and is it safe and sure?

Answer. The Government collects, by taxes, internal revenue, and duties on imports, fully three hundred millions each year. This is nearly three times as much as is needed to pay the interest on all the debt, and as soon as the war is ended, the amount not needed to pay the interest will be used in paying off the debt. Our Gov-

crnment has twice paid off all its debt, and can easily do so again. The interest is sure to be paid promptly, and the debt itself is the safest investment in the world. It is as safe as a mortgage on a good farm and pays a better interest. It is, in fact, a First Mortgage on all lands, all incomes, all railroads and canal bonds, and bank or

other stocks, mortgages, &c. Nothing can be safer, for we are all bound for it, and all that we have is firmly held for the payment of principal and interest. How foolish those people are, who keep their gold and greenbacks idle and locked up, or purchase mortgages or railroad stocks and bonds, which pay only 5 or 6 per cent interest, when these Seven-Thirtnes pay (counting the premium on Five-Twenties,) over ten per cent., and are so much safer and surer.
