

The Jeffersonian,

THURSDAY NOVEMBER 2, 1865.

Read Nicholas Ruster's card, in another column, headed money wanted.

We have not yet received the official vote, in this State, by Counties for Auditor General and Surveyor General. The reported official majority for the Union State ticket, without the army vote, is 20,791.

Trotting Match.

A trotting match for a purse of \$400 is announced to come off, on Saturday, the 11th inst., on the track of the Monroe County Agricultural Society. See notice in another column.

A Monster Radish.

Mr. Samuel Rees, Jr., of this place, showed us a radish he raised this season which weighed 12 pounds, measured 21 inches in circumference, and was 26 inches in length. This beats anything we ever heard tell of in the radish line. If this can be beat we should like to know it.

Tableaux.

The tableaux performances given in the Court House on the evenings of last Monday and Tuesday, under the superintendence of Miss Elizabeth Malven, assisted by her pupils and a number of the young ladies and gentlemen of this place, were quite creditable to all concerned. Many of the pieces were well performed. The object was to raise money to properly reseat the school room in the Seminary, occupied by Miss Malven. We understand that about \$70 were realized.

Peter Williams of this place, accompanied by his son Jerome and a soldier, some days since started for Hatchers Run, Va., to recover the remains of his son Jacob, who fell in the battle at that place on the 6th of February last. The soldier who accompanied Mr. Williams was in the battle with Jacob when he fell, and assisted in burying him, and having properly marked his grave they readily found his body, which they placed in a metallic coffin, and returned with it here on last Monday. His funeral will be preached in the M. E. Church, this (Thursday) morning at 10 o'clock, after which his body will be re-buried in the new Cemetery of this place.

Death of Lord Palmerston.

The death of Lord Palmerston, which is announced by the news from Europe received yesterday, is an event which will attract attention throughout the world.

Lord Palmerston, who had been ill several days, died, on the 18th at 9:35 a. m., at Brocket Hall, his seat in Hertfordshire. Lord Palmerston has been for years the actual chief of the British Government, possessing more influence in the settlement of the national policy than any man in England; a more absolute ruler, in fact, than the Queen. He has been an astute, but not a frank statesman, making but few mistakes, and being more successful generally, in infusing confidence in his measures, than any other British politician who has been in power.

Insurance against Accidents.

Perhaps but few of the people of this County are aware of the fact that James Carr, Jr., of this place, has the Agency of "The Travelers Insurance Company of Hartford, Connecticut." This Company insures against all manner of accidents. An insurance Company of this kind is certainly a great blessing to the poor man, who is entirely dependent on his daily labor for the support of his family. For instance: A person pays \$3 to be insured against accidents for one year, he will, in case he should be disabled, receive \$3 for each week he may remain disabled; and in case he should be killed, his family will receive \$500. And in case he pays \$10 premium for one year, then, in case of disabling accident, he will receive \$10 per week for each week of his disability, and in case he should be killed, then this sum would entitle his family to \$2,000. Parties can be insured for any sum they may desire at these or higher rates. We instance as a case in point the person who fell and broke his leg at the Factory building last week. Had he been so fortunate as to be insured at a premium of \$10 per year, he would then draw \$10 for each week of his disability. And what a great favor it would be to his family had he been insured. Those desiring to be insured, or to acquaint themselves further with the workings of this institution should call upon Mr. Carr, who resides next door to Judge Mackey, and they will be made fully acquainted with all the particulars connected with it. We most heartily commend this institution to the favorable regard of all interested.

There have been no arrangements made as yet for the trial of Jefferson Davis.

A Proclamation.

By the President of the United States of America:

Whereas, it has pleased Almighty God, during the year, which is now coming to an end, to relieve our beloved country from the fearful scourge of civil war, and to permit us to secure the blessings of peace, unity and harmony, with a great enlargement of civil liberty; and

Whereas, our Heavenly Father has, also, during the year, graciously averted from us the calamities of foreign war, pestilence and famine, while our granaries are full of the fruits of an abundant season; and

Whereas, righteousness exalteth a nation, while sin is a reproach to any people;

Now, therefore, I, Andrew Johnson, President of the United States, do hereby recommend to the people thereof, that they do set apart and observe the First Thursday of December as a day of National Thanksgiving to the Creator of the Universe for these deliverances and blessings.

And I do further recommend that on that occasion the whole people make confession of our national sins against His infinite goodness, and with one heart and one mind implore the Divine guidance in the ways of national virtue and holiness. In testimony whereof I have hereunto set my hand, and caused the seal of the United States to be affixed. Done at the City of Washington this twenty-eighth day of October, in the year of our Lord one thousand eight hundred and sixty-five, and of the independence of the United States the ninetyeth.

ANDREW JOHNSON, Secretary of State. Washington, Oct. 28 1865.

A Question Answered.

The Doylestown Democrat of October 24th, asks, with charming curiosity:—"Will the Press tell us what was, and what was not, decided in the late election?"

ANSWER.—It was "decided" by over twenty thousand majority that the editor of the Doylestown Democrat could not be Auditor General of Pennsylvania, and that the people were not willing to confide the destinies of the State and country to a party which had no higher mission than to abuse an oppressed race, and to apologise for an accursed institution of which even the slaveholders were ashamed. It "decided" that the Republican or Union party was strong enough to defy all the misrepresentations of its opponents and to discuss, without dissension or irrelevance, all the great questions of the day, even, if that will gratify the Democrat, to the assertion of the duty of leading the freedmen against the cruelties and bigotry of those Northern politicians who continue to "cry havoc" upon the negro, notwithstanding their late masters stand ready to concede to them many material franchises. If the Democrat can prove that this means giving the colored people of the South the right of suffrage, and making them socially the equals of the whites, it will have accomplished almost as much as when it attempted to make the voters believe that its editor was in earnest when he fought against a rebellion with which he sympathized.—*Foray's Press.*

The Chicago Republican says the following is the best estimate that can be made of the political complexion of the next House:—

	Union Dem.
Twenty-four Northern States have elected,	140 40
To elect in Northern State	3
Eleven Southern States have elected	7 4
To elect in 11 Southern States	47
Total	150 92
Union majority 50 in a House of 242 members.	
As respects the Senate, should the nine Southern and unrepresented States all elect Democrats, and should they all be admitted, the body would stand;	
Union	47
Democrats	27
Union majority	20

A British officer writing from Teheran, Persia, to the "London Times," remarks:—"A Cathartic Pill, manufactured by 'an American Chemist,' (Dr. J. C. Ayer, of Lowell, Mass.) has cured the Shah, of a Liver Complaint that threatened his life. This simple fact, as might be expected, renders the Americans immensely popular here, while we English are overlooked. Doubtless our own scholars made the discovery which he employs, and thus it is in everything; we do the labor, then the mousing Americans put their mark on it and take the reward.—Doctor Ayer is idolized by the Court and its retainers here, which will doubtless be reflected to him on a gold snuff-box or diamond hilted sword, while not the name even of Davy, Christian or Brodie—the great light by which he shines, is known."—[New York Sunday Paper.]

The Philadelphia Press of the 24th ult. says:

During yesterday there was quite an excitement about Dickerson street wharf it will be remembered that a big coal fire occurred there two or three weeks ago. Yesterday some posts were being taken out of the ground, and it was found that the holes immediately filled with oil. The "strike" was soon noised about, and upwards of a hundred people commenced digging for oil. The ground was completely saturated, and they had good success. Each one averaged about ten gallons. One man sold what he had obtained during the day and received \$36 for it.

Rebel claimants for cotton, who brought suit in the U. S. Circuit Court at St. Louis to recover 572 bales, were notified last week, on the ground that the cotton was lawfully seized during the war as the property of the public enemy.

EXTENSIVE SEIZURE OF COUNTERFEIT MONEY.

\$11,000 in Spurious Treasury Notes and Fractional Currency in the Hands of the Police.—The Agent Arrested.

On Saturday last Capt. Steers and Officer Anderson of the Thirteenth Precinct made one of the most extensive seizures of counterfeit money that has taken place in this city for the past 10 years.

A short time since Officer Anderson was informed by some of the neighbors that Francisca Bahagar, who for the past two months has occupied an apartment in the rear of No. 5 Goerck-st., was in the habit of receiving a great deal of company, and as he had no ostensible means of support, they thought the matter required investigation.

The officer accordingly kept a close watch on the premises, and he discovered that the suspected man was visited almost daily by men habited in the garb of countrymen, the most of whom bore away with them small parcels. Other visitors, rather better dressed, as invariably called and left parcels.

These suspicious circumstances were by the officer detailed to Capt. Steers, and on Saturday the latter determined to arrest Bahagar and search his apartment. The suspected man was arrested by the Captain and Officer Anderson, and on the way to the Station-House attempted to throw away a bunch of keys, which were secured. The apartment of the prisoner was found to contain a trunk, stove, mattress, chair, and one or two other articles. The trunk was opened, and found to contain counterfeit Treasury notes of the denomination of fives and twenties, and an imitation of the last issues of 50 cent postal currency. The entire amount reached the enormous sum of \$111,000. It was neatly done up in \$1,000 packages. The engraving and printing are of the very poorest description and the paper is stiff and unlike that used by the Treasury Department. The most ordinary judge of money would detect its spurious character at a glance. It is believed that it was intended for circulation throughout the South and West, and a long the Canadian border.

The prisoner's visitors were the buyers and sellers of the Counterfeits, he being probably only the agent, and his apartment the depot for their sale. The officers have been indefatigable in their search for the accomplices of the prisoner, but thus far without success.—He stubbornly refuses to reveal anything. Capt. Steers will take him before the United States Commissioner this morning for a hearing.—Tribune.

The Cholera.

There can no longer be any doubt that the Asiatic cholera has made its appearance and is spreading in England. Another fatal case has occurred at Southampton. From there it has spread to Sholing-Common and Bitterne, situated about four miles from Southampton.—The two cases at Sholing-Common have proved fatal; of seven cases in Bitterne two have proved fatal, while the other patients were improving. There is also a marked diarrhoea all over the district of Bitterne.

In France, the disease is likewise on the increase. A letter from Toulon states that it has broken out with startling suddenness at Solies Point, a little town of 3,000 inhabitants. In the first night in which it made its appearance there were sixty cases, and thirty six hours later there had already been fifty five deaths out of a population reduced to one thousand souls by a panic stricken people. In Toulon it has a peculiarly virulent character. It has also made its appearance at Paris, where, according to the testimony of Dr. Macher, the condition of the stagnant water of the basin causes a serious apprehension of its rapid spread.

Conditions of the History of the War in one Volume.

The History of the civil war in the United States, its cause, commencement and progress, containing full, impartial and graphic description of various military and naval engagements is the title of a new work written by Samuel Schuncker, L. L. D., and published by Jones Brothers & Co., Philadelphia. The work will be embellished with groups of naval and military heroes, also full page portraits of President Lincoln and General Grant, it will also contain biographical sketches of the great men of the great rebellion, it will contain over one hundred portraits of distinguished officers and civilians, besides numerous fine steel engravings of battle scenes &c. The work will be printed from a beautiful, clear new type, on fine calendered paper made expressly for this work, and will contain about one thousand pages. The book will be sold by subscription and furnished to subscribers in neat and substantial binding at the following prices: In fine Cloth \$6.50 per copy. In fine Leather (Library Style) 7.50 The work can be obtained from W. H. REINHART, and him alone.

Dues from Southern Postmasters.

WASHINGTON, Oct. 25, 1865. Three hundred and sixty-one thousand four hundred and five dollars and ninety cents is due the Government from the defaulting postmasters of the Southern States, which they retained when the Rebellion broke out. They are now being called on for the amount. The Virginia postmasters are mostly in arrears, owing \$66,004 47. As all their securities were required to have real estate it is believed that the larger portion of this sum can be recovered. In 1861 their refusals to pay the sums were often abusive and arrogant. Now their tone is apologetic and poverty pleading.

National Finances.

The entire Governmental expenditure for the coming year will be \$265,000,000, which, according to present appearances, will be quite covered by the income from Internal Revenue alone.

SOUTH CAROLINA

The Late Election—Final Defeat of Wade Hampton—Gov. Perry Elected Senator.

Columbia, S. C., Monday, Oct. 30, 1865. Returns from all the Districts give Orr, for Governor, about 500 majority over Wade Hampton. Gov. Perry was elected Senator to-day for the long term, ending 1871.

Counterfeiters—Descent on a Den.

Astoria, L. I. Tuesday, Oct. 31, 1865. Roe H. Smith of this place, Department Collector of Internal Revenue, while in the discharge of his duty during the past month discovered at Maspeth what he supposed to be a retreat for counterfeiters. He last week communicated with Superintendent Folk of the Brooklyn Police. The place was watched and this morning seized by six detectives. In the place were found dies, stamps, &c., hid in the cellar, and is reported, \$100,000 in counterfeit fractional currency.—Two of the counterfeiters were captured and two escaped.

The Pope denounces Free Masons.

The Pope has again pronounced an allocution which is making some stir in Europe. This time he warns the faithful against the Free Masons, reminding them that several of his predecessors have proscribed and reprobated that sect, the entrance into which they declared should entail excommunication, which the Pope alone could remove. The Pope denounces the Free Masons as the instigators of revolutions, and calls on the secular governments to suppress them. The Siecle of Paris calculates that there are in Europe more than 2,000,000 Catholic Free Masons who do not seem to heed much the thunderbolts of the Vatican.

The Commissioner of the General Land Office in Pennsylvania has furnished for publication, a tabular statement of the value of real and personal property of each county in the State as it has been ascertained by the returns of the last census. There is much to be found in such a statement which will afford the practical man and political economist the evidence of the great growth and advancement of this Commonwealth with the last ten years. The total value of real estate is \$1,151,528,785, and of personal estate \$504,680,139—giving an aggregate of \$1,656,208,924. Of this valuation the city of Philadelphia represents \$212,668,947 of real estate, and \$151,475,521 of personal—in all, \$364,144,468, or nearly one-fourth of the valuation of the entire Commonwealth. The next richest counties are Allegheny and Lancaster. The former of these in the aggregate leads the latter \$180,000, but the latter in its real property exceeds the former by \$2,282,158. The counties next in order are Chester, \$66,964,298; Bucks, \$50,041,181; Berks, \$49,883,785; York, \$41,626,029; Northampton, \$35,583,050; Luzerne, \$34,250,944; Washington, \$30,822,489; Dauphin, \$30,138,377; and then Cumberland, Franklin, Westmoreland, Erie, etc., down to Forest, which represents only \$176,197.

The Copperheads account in various ways for their sweeping defeat at the late election, but among all the causes, stated they do not refer to the true one. The Cops were beaten on account of their infamous record during the war and since. It was not apathy, but disgust of honest and patriotic democrats who by thousands have left the rotten old party and joined the Republicans. The very name of "Democrat," once so highly honored, now stinks in the nostrils of the people. It can never be the ruling party of this country.

The Rebel debt must be repudiated by the Southern people before they can be restored to their former status. Secretary Seward has transmitted a communication to the Provisional Governor of Georgia, in which he says:—"The President of the United States cannot recognize the people of any State as having resumed the relation of loyalty to the Union, that admits as legal, obligations contracted or debt created in their name to promote the war of the rebellion."

Trotting in Boston.

Boston, Oct. 31.—The great twenty mile trot against time took place yesterday at the River side Park. The track was somewhat heavy, but the horse, a thorough-bred Kentucky gelding named "Captain McGowan," accomplished the feat within the time specified, one hour, viz., 58 minutes and 25 seconds, making but one skip in the twenty miles, and was but little distressed.

Hon. William Orton has resigned his position as Commissioner of Internal Revenue. He will be succeeded by the Deputy Commissioner of the Department, Hon. E. A. Rollins.

Judge Grier, presiding in the United States District Court in Philadelphia, has sentenced Robert M. Lee to one year's imprisonment in the penitentiary for forgery. He gave the culprit a very severe lecture for his crimes.

A little daughter of Mr. Cressey, of the Cressy hotel, at Detroit, on Friday night went into the room adjoining the one where she slept, to get a cup of water and was shot and instantly killed by a man who mistook her for a burglar.

The President's speech to the black soldiers, hit the Democratic craft just between wind and water. Another shot from Andy will sink their old hulk.

The Directors of the Pittston Bank, originally a State Institution, but more recently working under the National Bank Law have resolved to place the Bank in liquidation.

Immense bones have been found in Adams County, Miss., which medical men believe to have belong to a giant 30 feet high.

Hurricane in the Gulf.

New York, Oct. 31.—The steamer John Rice, from New Orleans on the 19th, reports having experienced a hurricane on the 22d. On the 24th the steamer was at Fort Jefferson and ascertained that the hurricane had blown down a large brick building, killed the Post Quartermaster and severely injured several others. The buildings inside the fort were unroofed, trees torn up, &c. The steamer also went into Key West, and makes a similar report to that received per the Massachusetts at Philadelphia.

COAL.

The bituminous coal-field around Pittsburgh, is 15,000 square miles in extent equal to 8,600,000 acres.—The upper seam of coal is estimated to contain 53,264,439,900 tons, which, at \$2 per ton would yield a sum sufficient to pay a debt twenty-seven times as large as ours. It is hardly worth while to talk of reparation.

Auction Sale of Coal.—Over thirty-one thousand tons of Pittston coal were sold at auction in New York on Wednesday, exciting brisk bidding, but prices were lower than those of the last month's sale: Lump, \$10 11; steamer, \$11 11 25; grate \$11 37; egg, \$11 62; 1 11 65; stove, \$11 75 11 85; chestnut, \$10 11.—Twenty-five thousand tons of Scranton coal were also sold at the following prices: Lump, \$10 10 50; steamer, \$10 12 10 20; grate \$10 62; 1 10 57; egg, \$10 62; 1 10 75; stove, \$11 37; 1 11 75; chestnut, \$10 10 62. Freight from Elizabethport, 75 cents per per ton.

Internal Revenue.

The receipts from Internal Revenue on Saturday amounted to \$1,033,480 76. The receipts on the 30th from Internal Revenue amounted to over \$1,500,000. The receipts on the 31st at the Internal Revenue Bureau amounted to \$1,262,274 58.

He Knew Him.

"Come here my little fellow," said a gentleman to a youngster of five years, while sitting in a parlor where a large company were assembled. "Do you know me?" "Yith, thir," "Who am I? Let me hear!" "You th the man who killed mamma, when papa was in New York."

Exclusive of all government expenditure for the soldiers of the Union army, the people have given \$212,000,000 and over. Of this prodigious sum about \$25,000,000 was given by individuals and associations, \$187,000,000 by states and corporations, and the balance was from miscellaneous sources.

Barnum is to have a new curiosity. A dwarf elephant is on its way to New York from England. It came from the interior of Africa, and is about the size of a Newfoundland dog. There is but one other on exhibition in the world, and that is in the Royal Zoological Gardens, London. It cost Barnum about \$11,200.

The Utica Herald waggishly says:—"The editor of the New York World went over to Washington to have an interview with President Johnson, and failed. A regiment of colored soldiers called on the President, and he not only thanks them for the compliment, but makes them a long and friendly speech. Isn't that making a distinction of color? No wonder the World is struck dumb."

A shooting match at Chicago on Saturday afternoon, for \$1,000 and the championship, 100 single birds, between Taylor of Jersey City and King of Illinois, was won by Taylor, who secured 94 birds, while King secured 86. A match yesterday between the same parties, 50 double birds, was won by Taylor, he securing 91, against 71 by King.

PUBLIC SALE OF REAL ESTATE.

The subscribers, heirs at law of Moses Shoemaker, dec'd, late of the township of Pahaquarry, in the county of Warren, and State of New Jersey, will sell at public sale, at the late residence of said dec'd, in said township, on

Thursday, the 14th day of December next, all the Real Estate whereof said deceased died seized, consisting of three tracts of land, situate in the township of Pahaquarry.

No. 1 is the HOMESTEAD FARM, of said deceased, situate at Shoemaker's Eddy, on the Dglawar River, and adjoining lands of Samuel Shoemaker, and others, containing 104 Acres of land, more or less, in which are included 30 acres on Opopux Island in the Delaware River. The improvements are a TWO STORY MANSION HOUSE, a tenant House, two Barns and other out buildings. There is a good Ferry over the Delaware annexed to the said Farm, which will be sold with it. A hotel was formerly kept by said deceased on the premises, and its location adjacent to the said Eddy, makes it a good tavern stand. The lands are all improved and in an excellent state of cultivation, and are of the best quality of river-bottom lands.

No. 2 adjoins lands of Samuel Shoemaker and J. Michael, and contains about 50 acres of land, all under cultivation, part of which is river bottom and part upland, and all an excellent quality of farm land. There are a Lime Kiln and a quarry of good Lime Stone on the premises, also good water in abundance.

No. 3 is a tract of Wood Land, adjoining lands of Samuel Shoemaker and others, containing 242 acres, more or less, lying within a quarter of a mile of the Delaware River, and easy accessible. The premises are heavily timbered with oak and Chestnut timber. The premises will be sold in parcels to suit purchasers. Terms will be easy. Persons wishing to view the premises before the day of sale, will call on Abm. Shoemaker on the premises.
