Court Proclamation.

Whereas. the Hon. GEORGE R. BARRETT, President Judge of the 22d Ju. coal District of Pennsylvania, composed of the counties of Wayne, Pike, Monroe and Carbon, and Abraham Levering and Jeremy Mackey. Esqr's, Associate Judges of the Court of Common Pleas of the County of Monroe, and by virtue of their offices, Justices of the Court of Over and Terminer and General Jail delivery and Court of General Quarter Sessions in and for the said County of Monroe, have issued their precept to me commanding that a Court of Quarter Sessions of the Peace and Common Pleas, and Court of Oyer and Terminer and General Jail Delivery and Orphan's Court, for the said County of Monroe, to be holden at Stroudsburg, on the 26th day of February, 1866, to continue one week if necessary.

NOTICE

Is hereby given to the Cononer, the Justices of the Peace, and Constables of the said county of Monroe, that they be then and there feady with their rolls, records, inquisitions, examinations and other remembrances to do those things which their offices are appertaining, and also that those who are bound by against the prisoners that are or shall be in the jail of the said county of Monroe, or against persons who stand charged with the commission of offences to be then and there to prosecute or testify as shall be just.
(God save the Commonwealth.)
CHARLES HENRY, Sheriff.

Sheriff's Office Straudsburg, ? Jun. 25, 1866.

Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease law living discovered by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children timo the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the imquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofalous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate Business and Ornamental Penmanshir it by healthy food and exercise. Such a meditaught in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disor-der from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DIS-EASES, ST. ANTHONY'S FIRE, ROSE, or ERY-SIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and Boils, Temors, Terrer, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA. DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

contaminated constitutions. Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy

at once so simple and inviting. Not only do they care the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaunaice, and other kindred complaints, arising from a low state of the hody or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hourseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the dis-

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superi-ority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be
