

The Jeffersonian,

THURSDAY FEBRUARY 8, 1866.

We call the attention of all desiring a pleasant and profitable employment to the advertisement in this paper headed "\$1500 per year."

In last week's Jeffersonian, we announced, that the Congregation and friends of Rev. B. S. Everitt, pastor of the Presbyterian Church of this Borough, at their donation on the 25th ult. had raised \$225. Since then the amount has been increased to \$235.

Mr. Jacob Knecht, of this Borough, killed six hogs on Monday last, 9 months and 11 days old. One of them weighed 359 pounds after it was dressed. The others were not weighed, but were estimated to weigh about 359 lbs. each.—This is the finest lot of pork ever slaughtered in this town.

The Donation to Rev. Mr. Paxson, of the M. E. Church of this place, on last Wednesday evening, we are gratified to learn was quite a success. The number present was quite large. The sum given, about \$200, is the largest that the Methodist congregation ever gave their minister in this place. This is a well merited compliment to Mr. Paxson, for no one could have been more earnest and untiring in promoting the interest of the Church both spiritually and financially. He found the church with a debt of about \$1,000 resting upon it, and he resolved to free it from that debt, and succeeded completely. He himself giving \$50 towards the payment of the same. We regret that, in all probability, this will be his last year in our place. Wherever he may be sent, we doubt not, he will carry with him the best wishes of the Church as well as of a large circle of friends.

Beadle's Monthly.

This new Magazine is emphatically "a Magazine of to-day." It is not so solid as to be indigestible to a common mind, nor yet so light as not to afford real nourishment. It is just the thing for the fireside, and for all readers who desire to read to some advantage.

We have only seen the second number—February—and the above is our "verdict." All contributions are paid for, and of course none would be accepted that did not ring with merit.

TERMS—Single copies \$3 dollars, Club of six copies for \$15 00; Eleven for \$25. Address Beadle's Monthly, 118 William street, New York.

Rebel Drafts for Collection.

Gen Spinner, on Saturday, mailed to Europe, for collection, three captured drafts of £50 each, drawn by Col. Harrison of Jeff. Davis's military family, to the order of Secretary Trenholm, and by him indorsed upon Brown, Shepley & Co., the Rebel bankers of Liverpool.—Several captured English drafts have heretofore been sent forward for collection, but with the indorsement of "No funds." As the Government has knowledge that these are good, the action of the Liverpool bankers is awaited with special interest.

Since the organization of the money-order system, November 1, 1864, to the 1st of February, 1866, there have been issued at the Washington Post Office 7772 money orders, amounting in the aggregate to about \$162,000. The amount of money paid during the same time may be set down at \$100,000. The amount received in surplus deposits, about \$80,000. Surplus deposited in New York, about \$133,000. The total expenses of this branch, aside from clerk hire, do not exceed \$100.

Letters received from Charleston, S. C., represent that there are still 2,000,000 bales of cotton in the South; they also state that there is great activity in the sale of this product, and that notwithstanding the impression generally prevalent as to its scarcity, it is steadily being brought into the market. The prospect of securing a fair yield of cotton in the interior of the State is encouraging, and the freedmen are generally industrious and self-supporting.

Cotton as a Preserver of Fruit.

It is not generally known that common raw cotton is one of the best and most simple means of preserving fruit for a long while in America, it is in general use for keeping grapes fresh all the winter. The method employed is as follows: The bunches are gently laid between a layer of cotton in an earthenware jar which is then corked down, and the corks dipped in melted rosin. Of course it is much easier to preserve apples and pears, which need only be laid between two layers of cotton on the pantry shelf or store room.

The public debt of Rhode Island is \$3,826,000.51.

Arrest on a Serious Charge.

St. Louis Feb. 2.—General Coolbaugh, who was charged with having been engaged in various swindling operations in different parts of the country, was arrested here today.

THE GOVERNOR'S MESSAGE.

Governor CURTIN'S Message, which was sent to the Legislature on Tuesday, furnishes the people of this commonwealth with information which is usually imparted at the beginning of the year. The Message shows us that the financial condition of the State has been extremely prosperous. We received over six millions two hundred thousand dollars during 1865, and there was a balance at the beginning of that year of nearly two millions of dollars. We paid out during the same period over five millions and three quarters, and had a balance in the treasury on the first of December of \$2,373,558.14. Out of the sum paid away, we appropriated, in redemption of the State indebtedness, \$1,903,345.88. Our debt on the same day was \$37,476,258.06.—We had assets on that day amounting to \$13,023,668.14, leaving our liabilities in excess of assets at \$23,862,589.92. As contrasted with the year 1860, when our liabilities exceeded assets \$26,498,168.94, we stand more than two millions six hundred thousand dollars better off than we were at that time. When we consider what we have gone through in those five years, the heavy expenditures required for defense, and expenses incident to the war, we can well congratulate ourselves at having done so well, particularly when we know that other commonwealths have added immensely to their debt.

The Governor believes that the annual receipts of the Commonwealth are large enough to justify a removal of all State taxes on real estate, and recommends that it be done. In regard to the old tax of 25 cents per \$100 there is no difficulty, but the tax of 5 cents per \$100, laid by that act of 1864, was pledged for the repayment of \$3,000,000 loan, and cannot be removed until that money is paid.—Perhaps this will have to remain, but the greater tax can be removed, and no doubt it will be done.

The Governor recommends that, in case the State tax on real estate is removed, the levying of local taxes on bonds, mortgages, loans, and all property of that kind, be prohibited. He says:

"Such a repeal would largely encourage the investment of capital in this State and add immensely to the wealth of the State, while the local authorities would lose very little, as it is notorious that, from the difficulties of assessment, they receive very little from these sources."

The Governor sums up the result of the action of Pennsylvania in supporting the cause of the Union during the Rebellion with a proud consciousness that we have done our duty. We furnished the United States during the Rebellion with 302,284 soldiers, exclusive of militia and volunteers for emergencies, and exclusive of men sent into the navy. Of the latter the Message does not give us the numbers, except that in 1863 there were 36,588 of these troops furnished for the emergency preceding the battle of Gettysburg. The number of men furnished to the navy might have been 20,000. Assuming that it was only 10,000, the whole number of men furnished the Government for service during the Rebellion could not have been less than 408,872, a record of patriotism scarcely to be exceeded by any other State in the Union.

Brutal Assassination of an Officer of the Freedman's Bureau at Pontotoc, Mississippi.

From The Nashville Times
A gentleman who has just returned from Pontotoc, Miss., states that a few nights since the agent of the Freedman's Bureau at that place was murdered in cold blood, while sleeping in his bed, by a party of Rebels. His body was riddled with bullets in the most shocking manner. The people at Pontotoc hated the Bureau intensely for interfering with them in exercising control over their slaves, and are heartily glad over the summary method in which its agent has been dismissed from service. We are informed that the people of Mississippi generally sympathize with them in their hatred of the Bureau and their oppression of freedmen. They denounce the President in unmeasured terms for insisting on the abolition of Slavery, and speak of the Federal Government as a despotism, to which they must yield, for the present, from necessity, and not from inclination. Union men are compelled to be as silent and cautious as they were in 1861, and look as if they were the subjugated party. The Secessionists treat them with contempt and speak of them on all occasions as "traitors to the South."

The "trichina disease" has broken out in Detroit. A young German lady died there lately from eating pork, and a post mortem examination resulted in discovering her flesh to be filled with animalcules.

Christian Berger was on Friday last convicted of murder in the first degree, having killed Mary Watt, an aged woman living in Germantown, two or three weeks ago. The evidence in the case appears to have been entirely circumstantial, but the jury found no difficulty in agreeing upon a verdict. A motion for arrest of judgement and a new trial was entered by the prisoner's counsel.

Three boys, the oldest of whom is about fourteen, have been arrested in New Haven for obtaining letters under false pretenses from the mail.

Bold Villainy.

The audacity of some of the robberies which have taken place recently is sufficiently startling, but the boldness of the one described in the item below, which we find in the Louisville Journal, rather takes the palm from any we have yet had a description of:

A robbery took place at Chattanooga, Tennessee, last Monday, which, if the facts are stated correctly, is one of the most extraordinary on record. Two men, named Bass and Williams, pretending to be detectives from Columbus, Georgia, persuaded a lieutenant of the military guard to furnish them assistance, went to the Crutchfield House, dragged several gentlemen out of bed, carried them to the guard-house, plundered them of over two thousand dollars in money, watches, &c., and kept them locked up that night, and next day started South. The affair is undergoing investigation before the military authorities.

Something New—An Ink Mine.

The San Francisco Mining Press says a party has recently arrived at Los Angeles, from the vicinity of Buena Vista Lake and the oil springs there, having in his possession a bottle containing "a mineral substance very much resembling crude petroleum, but, without any smell, and possessing all the qualities of a fine writing fluid. Several experiments were made by different persons, and all pronounced it a good quality of ink, or fluid, for writing. We dipped our pen in the fluid and wrote several lines, and could not distinguish the difference between it and the best writing fluid now in use. When first used the color is a deep, rich black, but after exposure to the air the color moderates a little, still retaining a good, and, to all appearances, durable color. A company is being formed for the purpose of testing the above discovery."

The manufacturing enterprise of Pennsylvania was never as lively as at the present. The latest exhibition of energy in this connection, is that of the capitalists of Bellfonte, Centre county, who are about to erect an immense establishment for the manufacture of Russia sheet-iron, on Spring creek. The Central Press says that all the arrangements for the works have been made, and that they will be in operation in a very short time.

A Chicago paper says that a demented individual named Henry Kelsey, with unwashed face and unkempt locks, wearing dilapidated garments and a seedy air generally, was picked up in the streets on Sunday by officer Shippy, while preaching the near approach of the Judgment Day and its terrors, and praying in the slush and snow for the regeneration of wicked Chicago. He stated that he had left a wife and family in Saratoga county, New York, but he avers that the Lord told him in a vision that "Chicago was the best city on the earth, and that, like Jonas to the Ninevites, he must go and preach to the Chicagoans."

Sentenced.

Benj. F. Taylor, a clerk in the Cleveland, Ohio, post office, whose arrest in November last, for stealing certain letters put up by S. B. Row, Agent of the Post Office Department, which we noticed at the time, was arraigned two weeks since before the U. S. District Court for the offence, when he pleaded "guilty," and was sentenced to 10 years imprisonment in the Ohio Penitentiary.—*Raftsmen's Journal.*

In the matter of the contested right of Hon. John P. The Houston News is not yet "reconstructed." It says—"Secession as she became, the South was always the Unionist, as she is at this very hour.
