Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes viriated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrotulous taint is variously caused by mercurial disease, low living, disordered or unhealthy find improve air fifth and filther unhealthy food, impure air, filth, and filthy habits, the depressing viees, and, above all, by the venereal infection. Whatever he its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or alcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corrupenergies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers' perish by disorders which, although not serofuloas in their nature are still rendered fatal by this taint in the system. Most of the consump tion which decimates the human family has its' origin directly in this scrofulous contamination; and many destructive diseases of the liver, kid-neys, brain, and, indeed, of all the organs, ariso from or are aggravated by the same cause.
