

The Jeffersonian

THURSDAY MARCH 22, 1866

Election throughout the County was held last Friday, to elect Town officers. We will give in our next paper a complete list of all officers so elected.

Mr. JACOB HEISTAND, of this Borough, has bought Mr. SAMUEL PIRNER'S farm, near the Delaware Water Gap, for \$18,000.

The Ball given by Sheriff Marsh, of the "Stroudsburg House," on Thursday evening last, turned out to be a complete success in every respect. The attendance was unusually large, numbering forty couple. The music was good; and the table supplied, with all the substantial and dainties that the epicurean and the most fastidious could desire.

A Suction Fire Engine!

That the Borough needs a good Suction Fire Engine, no one disputes nor doubts. The only question is, how shall the necessary funds with which to purchase one, be raised? Some propose raising them by subscription. This plan might succeed, if all would do their duty in the premises.

But why not resort, in the first place, to a Fair and Festival? This would present the matter in such a shape that all parties interested could contribute in one way or another. And certainly this would be a popular way of getting at the matter in a practical shape; and should it fail to produce all the funds required, then subscription could be resorted to to finish it up.

Our Ladies are very efficient in getting up Fairs and Festivals; and we doubt not, that if they are properly encouraged, they will take this enterprise in hand and carry it out to a complete success. What say you all?

The Reno Oil and Land Company.

In another column will be found the advertisement of this Company. The Company proposes to build a town in the very heart of the great Venango Oil Region, and to develop an estate of twelve hundred acres. No royalty or leases are given on the wells. To thoroughly test it, the Company has a working capital of half a million of dollars.

The feature in this Company which will recommend it is the guarantee of the stock. The capital is placed in the Government Securities, and kept there until the land pays its full value in dividends. Then only does the guarantee cease.—The party still retains its stock. If the holder wishes to withdraw his money, he can take his stock to the office and receive its par value. The wells sunk upon the property thus far have proved productive, and there seems to be every reason for believing that the anticipations of the managers will be realized.

A national guaranteed legal tender oil stock is a novelty in our finance. Such a stock is Reno.

The Philadelphia Conference of the Methodist Episcopal Church commenced its annual session in that city on Wednesday last. The usual preliminary business, appointment of committees, &c., occupied the first part of the session.—Resolutions were unanimously adopted expressing rejoicing at the return of peace, the overthrow of the rebellion, and the abolition of slavery by a constitutional amendment, and of sorrow for the untimely death of President Lincoln. On Thursday the subject of a division of the conference was brought up and postponed for final settlement. A communication was received from a number of ladies requesting the consideration of the propriety of establishing a female seminary under the auspices of the Philadelphia conference, which was referred to the appropriate committee.

The State of the Treasury. The return of Mr. Spinner, United States Treasurer, in answer to the resolution of the House of Representatives on the 5th inst., requiring a statement of the condition of the Treasury at that time gives, in addition, the full return up to the 19th inst. The whole available amount, including cash in the National Banks and depositories, was \$123,423,085.91—being a gain of about seven millions of dollars since the report of Mr. McCulloch on the 1st inst. Mr. Freeman Clark, in his late letters, attempted to show that on the same day the amount of assets in the hands of Secretary was about one hundred and seventy millions. The estimate of the Secretary is therefore, sustained by the United States Treasurer, and the figures of Mr. Clark seem to be more wild than ever.

Equalizing Bounties.

The subject of equalizing the bounties of our volunteers during the rebellion still commands attention, and there have been so many declarations in its favor by political and other conventions that there seems to be a certainty that some plan of disposing of the claims of soldiers will have to be resolved upon by Congress.

There is, of course, hostility to the proposition, not because the measure would be unjust, but because it is inexpedient to increase the national debt. But right is right, and cannot be disposed of by an allegation that it is inconvenient to pay that which is justly due. A bill has been prepared which contains the following features:—That the rate of bounty to every soldier honorably discharged from the service shall be \$3,334 for every month of actual service. Soldiers who received no bounty whatever are to be paid at the rate for which they served. Those who received partial bounties are to have those amounts deducted. If any surplus should be due after deduction at the rate proposed, they are to receive it. Deserters and persons discharged at their own request or the request of others, except when it was for the purpose of promotion to a higher rank in the service, are to receive nothing. The money is only to be paid to soldiers who have retained their discharge papers. And one who has bartered, sold, assigned, transferred, loaned, exchanged or given away his papers loses his rights, and each applicant is required to take an oath that he has not disposed of parted with possession of his papers in the manner indicated. The bill will be pressed upon the consideration of Congress, and it seems to be a fair method of disposing of the subject, although the result is likely to be costly.

State Politics. Harrisburg, March 19.—The Hon. Frank Jordan, of Bedford county, has been appointed Chairman of the Republican State Central Committee. Mr. Jordan is at present the State Agent at Washington, and is well known throughout the interior of the State as a gentleman of ability and integrity.

During the last two years the Government has realized, from sales of confiscated and abandoned cotton, sugar, &c., in the State of Mississippi, over six million dollars.

The receipts of coffee at the port of New York, for the year just closed, were nearly one hundred and thirteen million pounds, and into the United States one hundred and thirty-three and a half million.

A coroner's jury in West Amherst a few days ago gave the following verdict on the case of a man who was killed by falling down stairs:—"That the said Stephen Hoyt came to his death, probably, by reason of a fall (breaking his collar bone and bringing on concussion of the brain) down the stairs leading from the bar room into the second story of the barn, to the first story of the same, belonging to Ezra P. Downing of Amherst."

The peach crop in Ohio is killed. Thirteen Massachusetts sportsmen recently caught 30,632 pounds of fish in eight hours.

The French soldiers are eating up the Mexican cats. Boston Corbett, who shot Booth, has been very active in the revival labors at Newark, N. J.

A new material for soling shoes has made its appearance. There have been six hundred balls in New York this winter, the cost of which is estimated at seven million dollars.

STRANGE, BUT TRUE. Every young lady and gentleman in the United States can hear something very much to their advantage by returning (free of charge), by addressing the undersigned. Those having fears of being humbugged will obligingly not notice this card. All others will please address their obedient servant, THOS. F. CHAPMAN, 831 Broadway, New York.

\$1,500 PER YEAR! We want agents everywhere to sell our improved 820 sewing Machine. Three new kinds. Under and upper feed. Warranted five years. Above sixty or large commissions paid. The only machines sold in the United States for less than \$40, which are fully licensed by Howe, Wheeler & Wilson, Grover & Baker, Singer & Co., and Brother. All other cheap machines are infringements and the seller or user are liable to arrest, fine, and imprisonment. Circulars free. Address, or call upon Shaw & Clark, Biddeford, Maine, January 4, 1866.—ly.

TO CONSUMPTIVES. The advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease Consumption—is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, Colds, Coughs, and all Throat and Lung Affections. The only object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription will please address Rev. EDWARD A. WILSON, Williamsburgh, Kings County, New York.

THE LANDS OF THE COMPANY consist of Twelve Hundred acres, at Reno, on the Allegheny river, in Venango County, Pennsylvania—the heart of the Oil District in that State.

One Thousand Wells CAN BE SUNK UPON THE PROPERTY WITHOUT INTERFERENCE. Test wells have been sunk on the Estate and Oil found in paying quantities in every instance. FIFTY WELLS are now being put down to be followed by others rapidly as possible to the extent necessary to fully develop the property. One hundred wells yielding only ten barrels a day each at six dollars a barrel, a price much below the average price at Reno, would give one million eight hundred thousand dollars a year of income, making a profit of probably fifteen per cent. over expenses and taxes of every kind. If large flowing wells are found, a single acre of the territory may yield the entire output within two years.

The Company owns the town of Reno, together with several Hundred Lots for Business and Dwelling Houses. There is an Extensive Demand for them, and the Revenue from their Sale will be very great.

Youatt's Vegetable Condition Powders.

Prepared from Youatt's original recipe, by WM. HOLLINSHEAD, DRUGGIST. The manufacturer of the above Powder, takes pleasure in recommending it to the owners of Horses, Cattle, Hogs and Sheep, as being the best thing of the kind ever offered to the public. In the spring of the year when a horse is about shedding his coat, nothing will do him better service than a teaspoonful of the Powder every morning, well mixed with his food. This Powder is a preventive of diseases as well as a cure. DISTEMPER.—It has cured hundreds of horses of this troublesome disease. COWS. This Powder given in the same manner, for the same disease, will procure safe and speedy cures. HOGS. Hogs and young Pigs during the summer, after overheating themselves, get swollen necks, coughs, ulcers in the lungs and liver, which causes them to die suddenly. These affections may be entirely prevented by putting a pound of "Youatt's Powder" into a barrel of swill. It will hasten the fattening process. PRICE 30 CTS. 4 PACKAGES \$1. Try it and be convinced.
