ANY of our readers afflicted with Scho-FULA or Scrofulous complaints, will do well to read the remarks in our advertis ing colums respecting it. But little of the nature of this disorder has been known by the people, and the clear exposition of it there given, will prove acceptable and useful. We have long admired the search ing and able manner in which DR. AYER treats every subject he touches; whatev er has his attention at all, has a great deal of it; he masters what he undertakes, and no one who has a particle of feeling for his afflicted fellow man, can Jook with indifference upon his labors for the sick. Read what he says of Scrofula, and see in how few words and how clearly he tells us more than we all have known of this insidious and fatal malady. [Sun, Philadelphia, Pa.

WHY IS IT?

We observe by the Scranton papers that coal is advertised for sale in that place, delived at the residences of custo mers, at \$3.50 per ton for all sizes except lamp coal, which is 25 cents less .-Here at the Stroudsburg Depot, coal of a er. In addition to this the cutsomer has to pay 75 cents per ton for hauling. Adcormorant maw of a corporation, we have \$2.95 as the profit on each ton of ly pays for transportation &c. But to this \$2.95 should be added 60 cents, the difference allowed by the Scranton coal merchant between his delivering to his cus tomer and the customer hauling for himself. This would make the company prof first look to the color. If it is white, woods.
