We are gratified to hear of the continued success, in New York, of our townsman, Mr. H. T. Helmbold, Druggist. #### Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes viriated weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth, and fifthy habits, the depressing vices, and, above all, by the venere infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercies; in the glands, swellings; and on the surface, cruptions or sores. This feal corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofuthis tains in their nature are still rendered fatal by this tains in the system. Most of the consumption which decimates the human family has its CATION, as taug sciela directly in this scrofulous contamination and many destructive diseases of the liver, kid neys, healn, and, indeed, of all the organs, arise rom or are aggravated by the same cause.

One quarter of all our people are scrofnlous; eir persons are invaded by this lurking infeetion, and their health is undermined by it. To cleanse it from the system we must renovate the slood by an alterative medicine, and invigorate t by healthy food and exercise. Such a medicine we supply in

the most effectual remedy which the medical shill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the sysem from its destructive consequences. Hence t should be employed for the cure of not only crefula, but also those other affections which arise from it, such as Enverive and Skin Dis-BASES, ST. ANTHONY'S FIRE, ROSE, OF ERV-SITELAS, PUBLIS, PUSTULES, BLOTCHES, BLAINS and Holls, Tumons, Terrer, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, all Complaints arising From VITIATED OR INFURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsa-parilla is to purify and regenerate this vital fluid, without which sound health is impossible in

## Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting Not only do they care the every-day com-
