Floral Fair and Strawberry Festival

It will be observed by the handbills posted around, that the ladies of our borough have taken a hand in the building up of a Fire Company for Stroudsburg -With this object in view they design holding a Fair and Festival in the Fair House, on Wednesday and Thursday next, the 27th and 28th of June, at which strawberries and cream, ice cream, cakes, lemonade, and other refreshments will be served to customers at reasonable rates .-It is the design of the committee to make the Fair, during its continuance, an agreeable place of resort, and with this object in view, a post-office, music by the Strouds-Lurg Brass Band, a Firemen's Grand Parade, and the skill and science of our Base-ball Athletes, will be brought into requisition. Two splendid Photograph Albums will be voted for at so much per ballot, to be given, the one to the single lady receiving the most votes, and the other to the married lady equally fortunate. A splendid pair of worked slippers will be voted for, by ladies only, to be given to the gentleman receiving the highest number of votes. There will also be on exhibition, and for sale, a fine assortment of Paintings, Pianos, Melodeons, and Furniture furnished by our enterprising townsman, J. H. McCarty, Esq ; and when we add that the "edibles" and the "lookables" will receive an additional rest from the bright eyes, rosy cheeks, and angelic voices of a host of Strouds burg's beautiful ladies-and where do you find handsomer ?- we think we have said all that need be said to draw full houses and a full Treasury of proceeds .-The proceeds of the Fair are to be devoted to the laudable purpose of creeting and furnishing an Engine House for the Phonix Fire Company.

TORNADO IN MONROE COUNTY.

TERRIFIC TORNADO IN MONROE COUNTY -OLD BOREAS ON A RAMPANGE-DAM AGE TO HOUSES, BARNS, SHEDS, FEN-CES, ORCHARDS, TIMBER &C.

Sunday morning last dawned upon this section of country as pleasantly as could well have been desired. The sun shown out During the shower, on Wednes- brilliantly, and everything indicated a fine day of last week, 19 valuable sheep were day throughout. At about nine o'clock, killed by lightning on the property of however, the heavens began to assume a Daniel Brown, Esq., at Tribleville, in this showery aspect, which varied somewhat under a large chestnut tree, when the until about noon when a regular east storm lightning struck the tree. As the day advanced, the storm the sheep belonged to Mr. Brown, and gathered force until evening, when the the remainder to Mr. John Smith, a neigh- rain fell in torrants, and old Boreas sent bellion. forth blasts of wind that were anything but agreeable to tender nerves, and caused many a one to make mental calcula tion as to the capacity of the shelter to stand the pressure. But in spite of tremors and fears, both rain and wind continued until about half past ten P. M., when the storm culminated in a terrific tornado, which carried destruction to everything which came in its way.

> The tornado seemed to gather force first on the farm of the late Abraham Fetherman, near Bossardsville, now owned by two of his sons. Here a large barn was torn to pieces, fences were scattered to the winds, trees aprooted and crops destroyed. The loss of the Fetherman boys is estimated at over \$1,000. From thence it made a dash at Bossardsville, destroy ing everything in its way, where it unroofed and otherwise damaged the house and store house of Charles Williams, destroyed the shed attached to Bossard's hotel, and somewhat injured the hotel building, tore up trees and scattered fences as though there was fun in the operation.

direction towards the north-east doing but little damage until it reached the farm of Peter Marsh, near Kunkeltown, about three miles from Stroudsburg, where it stripped his orchard, uprooting nearly every tree, and moved a wagon shed some three feet from its foundation. From thence the first serious mark of its passage was on the farm of Peter Kunkle, Esg., where fruit trees and much valuable timber was destroyed. Mr.-K. estimates his loss in timber at \$300. Its force here may be gathered from the fact that it twisted a shellbark hickery, at least two feet in diameter, off close to the ground. From Mr. Kunkle's, its course lay through a patch of timber belonging to Mr. Robert Huston, of this borough, which also suffered greatly. Large We give below the programme of trees and young saplings were twisted off, David Green, George Fable, Philip Swartwood, as do indeed every farm through which it passed, bear unmistakable evidence of the power and fury of the some four miles north of the borough on land occupied by Mr. John Daubt, where the damage done was not so heavy as in other quarters.
