UNION STATE TICKET.

FOR GOVERNOR,
Major General JOHN W. GEARY,
OF CUMBERLAND COUNTY.

Among the visitors sojourning in this neighborhood, are Brig. Gen. McIntosh, of the Army, and family. The General won his stars by his devotion to the Union, and by distinguished services in its behalf during the rebellion.

The arrangements of the committee having in charge the celebration of the 4th of July are completed, and we can safely promise a good old-fashioned time to all who join us on that day. Parade and rational enjoyment through the day and Torch Light procession in the evening. Come one—come all.

The Ladies' Fair, for the benefit of the Phoenix Fire Company opened yesterday. The Fair House is most beautifully decorated, and the ladies with their blandest smiles, dealt out the most luscious ice creams, strawberries and cream, &c., to the many who were in attendance.—The Fair continues through to-day, and winds up this evening, after a Firemen's Grand Parade, and a match game by the Stroudsburg Base Ball Club. We will report matters more fully in our next.

Quite a hubbub was kicked up on Centre-street, in this borough, on Tuesday last by the freaks of a run-a-way horse. The horse became frightened at the rattling of some boards, and dashed up the street at more than 2:40 speed, barking trees, smashing a wagon to which he was attached, and scattering things generally. Though many were scared, we are pleased to be able to say that nobody was hurt.

CHURCH DEDICATION.

The new Methodist E. Church, near Scribner's school house, on Tannerville circuit, will be dedicated to the service of God on Sabbath morning, July 15th, 1866. Rev. Dr. J. H. Alday, will preach in the morning, at 10 o'clock, and the Rev. Andrew Manship, of Philadelphia, in the afternoon at 3 o'clock. The public are most affectionately invited to attend. Come one, come all, and we will do thee good.

J. CHANDLER GREGG, Pastor.

Our former townsman, Mr. George P. Heim, paid a flying visit to his many friends in this neighborhood, on Tuesday last.—George resides near Hoboken, N. J., and is one of the proprietors of the celebrated Schwann Brewery near that place. If the lager he brought with him, a sample of which we tested slightly, is a fair specimen of the "wet goods" dispensed by that extensive establishment, we must confess that the "Schwann" is clearly entitled to the first premium for good lager. The sample we tested, slightly of course, was the best we ever drank, and was as rich in quality as is George in those characteristics which go to make the whole-souled, clever gentleman.

By reference to our advertising columns, it will be seen that the Rev. J. Kirby Davis has opened a Classical and Mathematical School, at Shawnee, in this county. Mr. D. possesses a finished classical education, and having had much experience as a successful educator of youth, is well qualified to take charge of an institution of the highest order.—He, for some time, had charge of the Academy at Elizabethtown, N. J., where he taught to the improvement of the pupils under his charge, and to the acceptance of parents. The school is located in one of the most beautiful and healthy sections of the mountain region. Shawnee, the site of the school, is one of the oldest settled points in Monroe county, is but three miles from the Del. Water Gap, and five miles from Stroudsburg, both of which points are railroad depots, and is consequently easy of access to persons from abroad. A more delightful point at which to place children, or a person better qualified to take charge of their moral, mental and physical education can hardly be found.

Accidents.

Mr. Daniel Coss, of Middle Smithfield township, in this county, had his right arm broken by a kick from a horse, on the 22nd inst. Mr. C. had some "luck" connected with his accident. He was lucky in escaping with no more serious injury, and lucky in having effected an insurance against accidents to his person, but a few days previous to his mishap.

Our townsman, Mr. Robert Huston, met with quite a severe accident, at Mt. Bethel Station, a few miles below here, on Friday last. He had gone to the station in his own conveyance, and while attending to some business his horse took fright at a locomotive, and for a time became unmanageable. In attempting to subdue the horse Mr. Huston was thrown with some violence upon his face, which was badly cut and bruised, and considerably stunned. We were glad to see him attending to business as usual the next day. His face yet bears evidence to the severity of his hurts.

The news from Europe is of the most warlike character.

The securing of peace without a struggle is an idea made obsolete by the attitude and preparation of the opposing governments. Austria assumed the character of the belligerent boy, and placing the chip of its own will upon its shoulder, dared Prussia to knock it off. Prussia, determined not to be dared, knocked the chip off by marching into and taking possession of Holslein, from which Austria at once receded and decided to resort to the sword as a means to settle the trouble. Both countries have powerful armies, and as Italy takes a hand in, and the liberals of Europe generally squint an eye at the matter, in hopes of discovering an opportunity to make things play to the advantage of liberal institutions and constitutional and representative government, the contest promises to be a long and bloody one. Its final result may, we hope will, be the wiping out of the dogma of the "Divine right of Kings," and the establishment of the living and eternal principle that "all power is inherent in the people." The two governments will probably bring 1,500,000 men into the field, while Italy, on its own account, to settle old scores with Austria, will muster men by the hundreds of thousands. Kossuth, Garibaldi, and their revolutionary compeers of 1848, are actively at work in hastening matters to a crisis. A rumor prevailed, at the sailing of the last steamer, that war had been officially declared by Austria. Whether this is true or not, war has already begun, though no fighting has yet taken place.

Carbon Academy.

We are under obligations to a friend for a circular and catalogue of the Carbon Academy and Normal School, for young ladies and gentlemen, an institution of more than ordinary merit, located at Lehighon, Carbon county, Pa. The catalogue exhibits quite a flourishing state of affairs, showing that the efforts of the Principal, Mr. A. S. Christine, and his talented assistants are duly appreciated, and in a fair way to be properly rewarded. The plan of the Academy embraces thoroughness in every branch calculated to secure a complete English and Classical education, while the charges are far below the average of institutions of like prominence and worth. The next term of the Academy will commence on the 23rd of July, when a special class for teachers, and those preparing to teach, will be formed, to which instruction will be given in the Theory and Practice of Teaching, on the plans adopted in the leading Normal schools of the State, in connection with the common and higher branches of education. In addition to the exertions of the Principal and his Assistants, students will have the advantage of the educational experience of the County Superintendent, who will also give instructions. The opening, especially for teachers, or those who design becoming teachers, is a rare one, and we would advise such to make application for a circular, to Mr. A. S. Christine, at Lehighon, Pa., when they can learn terms, &c.

The editorial fraternity of New Jersey, at a convention recently held at Trenton, N. J., among other things resolved to meet at Belvidere to-day, and join in a grand excursion trip to the Del Water Gap, to-morrow, Friday. Where so many good looking folks and so much talent is congregated together, there cannot fail to be, in every sense of the term, "a good time generally," and as the wives and children of the distinguished savans are to be of the party, of course every thing will be, as it would be without their presence, conducted with becoming decorum and sobriety. We are under obligations to the committee for an invitation to join them in the excursion, and regret that pressing business engagements will only permit us to take a look at and hand-shake with our editorial brethren at the Gap, if so much. In spirit and desire, of course we shall be with them.

The heated term is certainly upon us. Others may have doubts as to its being hot, but we have no need of thermometers to convince us of that fact; nor would we care to describe heat by the figures so mystically arrayed for our edification by Fahrenheit.—Scorching days and sweltering nights—if the Corn don't grow now, we shall lose all faith in home-made "saws" There is a mixture which used to prove very refreshing in such weather, the formula of which is about as follows.—A little Eau de Vie, a little Jamaica, a little white sugar, a little slushed ice, and a little bruised garden mint well mixed together; then some more slushed ice, a few sprigs of unbruised mint stuck around the edge of the glass, a little more white sugar, with a few ripe strawberries nestling gently thereon, the liquid to be imbibed, at leisure, in the shade, through a rye straw. But something better than this, and more wholesome, can be made by procuring some of J. S. Williams & Co.'s Sarsaparilla or Raspberry Syrup and, after mixing it with cold water, drinking at leisure. If extra seasoning is required to make it exactly to your taste, J. S. W. & Co. can supply that also, and of the best quality.

The Michigan farmers sold \$1,000,000 worth of potatoes from the crop of 1865.

Canadian Bluster.

We observe that in the Canadian Parliament Canadians are getting quite pugna-cious, and have all at once taken it into their foolish noddles that they have been misused by Uncle Samuel, and that for security in the future they must make present provision for an army to guard against ulterior designs on our part. The essence of bancombe, or braggadocio, has soaked into their craniums, and they fear we intend annexing them whether they are willing or not. Now we have no reason to love either Canada or the Canadians, but we will venture the sage advice that they quit their foolishness, and settle themselves down into a decent state of sobriety. When they were scared almost to death by the eccentricities of a few thousand Fenians, Uncle Samuel headed their cries for help and scattered the armies which threatened to squelch them. A few hundred happened to slip into Canada and gave the "Queen's own" a most unmerciful drubbing; and yet it is the "Queen's own," who now bluster and blow, and want to stand in belligerent attitude towards us—want to line the border and shake fists and make faces at us, in return for our kindness in having saved their hides from a well merited tanning. They had better be quiet, or they may wake up some fine morning to find themselves inhabitants of an outside dependency of ours—a sort of second southern confederacy, similar to that confederacy with which they once so lovingly cahogled to send fire and destruction into our cities, pestilence into our land, and to murder our President—undergoing the pains of taxation without the pleasures of representation. They have no cause of complaint against us, but much cause to love us. Our Government stood by them when their fear came upon them, and helped them in the time of their sore distress. We do not know but that it was too fast. Indeed we think the government might better have let the Fenians worry them a little more, so as to have taken the blustering starch out of them. But Fenianism is not dead yet.

A Heavy Haul by Pickpockets.

One of the heaviest operations in picking pockets that has lately taken place, occurred in Philadelphia last Friday evening, of which Aaron Kratz, a horse dealer, belonging to Plumsteadville in this county was the victim. Mr. Kratz was engaged in the horse trade in connection with Hoekman and Company, and had just made arrangements to start West to buy stock. About 9 o'clock on Friday evening, he started from his hotel in the city to go to the depot of the Pennsylvania Railroad, having previously put his pocket-book containing his money in an inside vest pocket. At the corner of Ninth and Market, as he was getting upon the rear platform of a passenger car which was very much crowded, he put his hand to his pocket to be sure that his money was safe, when to his dismay he found it was gone. On attempting to ascend the platform he noticed a confusion in the crowd, and the suspicion of the light-fingered gentry being on hand, and that they were engaged in the crowding process, which is a plan they sometimes take to divert attention while engaged at their nefarious business, at once flashed upon his mind, but the sharps were too quick for him. The whole thing was but the work of a moment, as but a very short time elapsed from the time of his getting on the car until he discovered his loss. The pocket-book contained between \$2500 and \$3000 in money, besides a number of valuable papers, including several notes payable at the Doylstown National Bank.—Mr. Kratz is himself a heavy loser by the operation. The matter was at once put into the hands of the detectives, and a reward of \$1000 offered for the recovery of the money, with, however, but faint hopes of obtaining it. Mr. Kratz of course abandoned his expedition to the West, and came home on Saturday.—Bucks Co. Intelligencer.

The Supreme Court of this State, sitting at Wilkesbarre on Wednesday, gave a decision in the case involving the right of deserters to vote, which came up from Franklin county. The decision does not seem to touch the constitutionality of the law itself, but relates to the right of a judge of election to reject the vote of a man who is marked as a deserter on the list of voters. Messrs. Woodward, Strong and Thompson hold that the judge of elections could not refuse a man's vote until he had been tried and convicted of desertion, while Messrs. Read and Agnew were of the opinion that the judges of elections were the proper persons to decide the question.

Under the recent act of Congress, all soldiers who have lost an arm or leg, or been permanently and totally disabled in the same, are now entitled to a pension of fifteen dollars per month; those who have lost an arm and leg or both legs, twenty dollars; those who have lost both eyes or both hands, twenty-five dollars. This act also restores pensions to soldiers employed in any civil capacity under the Government.

Gen. Geary's receptions in various parts of the State, which he is usually visiting, are of the most enthusiastic character.—He is hailed by the soldiers as one of their ablest leaders, and greeted by the people as one of their bravest defenders. He will be the next Governor of Pennsylvania by an immense majority.

Last week the redemption division received and cancelled fractional currency amounting to \$569,300. Counterfeit currency, reaching two hundred and seventy dollars, was detected and properly branded by this office.

The Triple Homicide in York County, Pennsylvania.

From a Special Correspondent.
LEWISBERRY, York Co., Pa., June 18.

A most flagrant murder was committed in Warrington Township, this County, on last evening. The victims of this horrible tragedy are Mr. George Squibb, an aged and highly respected citizen, his wife and little granddaughter. These three persons constituted the entire family, Mr. Squibb is still living, but is sinking rapidly, and cannot survive many hours.—He has 14 wounds inflicted about the head and face, three of which are within the compass of the temple. Thirteen of these wounds penetrated the brain, and seemed to have been made with a sharp instrument similar to a mortising chisel. The old lady received but three blows, which look as if they had been inflicted with a "billy" or "slung shot." The attending surgeon entertains slight hopes of her recovery. The little granddaughter was killed instantly, her skull being broken by a blow from a club. The stroke was evidently dealt by a left handed man.

This terrible affair is enshrouded in mystery. The position of the bodies when found indicate that the murder was committed at an early hour on Sunday night, and while the family were making preparations for retiring. The old man must have been enticed from the house and murdered on the porch, where his body was found, shockingly mutilated.—He evidently made a desperate struggle for his life, but was over-powered. Two persons were certainly concerned in the bloody work, and the old lady and granddaughter were doubtless assaulted at the same time the struggle was going on outside the house.

The murder was discovered near noon to-day (Monday), by the son of a neighbor who visited the house on an errand. The neighbors immediately assembled, and found the mutilated bodies of the rest of the family. The object of the murderers was doubtless to get possession of a sum of money which Mr. Squibb had by industry and economy managed to lay up. The bureau was broken open, and a pocket-book containing some \$200 taken. But he had money secreted in different parts of the house, and consequently the greater portion of it escaped the notice of the murderers and robbers.

No clue has been obtained to the perpetrators of this fiendish act. Several suspicious characters were observed in the neighborhood on Sunday afternoon, and this morning passed through Ross-ville, in the direction of York. They were ostensibly engaged in selling the confession of Probst, whose wholesale murder, if report be true, they have successfully rivaled. Other circumstances tend to implicate one acquainted with Mr. Squibb's pecuniary circumstances, as the son and half log-house in which he resided with its primitive and dilapidated surroundings, would not indicate any hoard of wealth.

Criminals Struck by Lightning.

The Fort Leavenworth correspondent of the Columbus (Ohio) Journal writes: A peculiar freak of nature occurred here on the 19th ult. Four men who had been committing some crime, for which crime warrants were issued for their arrest, and the proper civil authorities were in pursuit of, sought refuge under a tree between here and the city, about half a mile from the fort, to protect them from the rain, as it was raining very rapidly and was uncommonly stormy, and storms are only known in Kansas—wind blowing with terrible fury and the rain coming down in torrents, thundering and lightning as though the clerk of the weather was on a "bust." Well, as we may say, by an interposition of Providence, these men who were struck by lightning, and, of course, instantly killed. But, strange to say, although every man was killed of the four, not a sign of the freaks of the electric fluid was visible on the tree. The bodies (the men) were as black as coal, and two of them horribly mutilated; the ground was torn up for several feet around the tree, but it remained untouched.

Poisoned by Wearing Paper Collars.

A Boston paper has a report that a clerk in one of the wholesale stores of that city has lately been afflicted with painful breaking out on the neck, which he at first attributed to boils, but the matter getting serious, he applied to a physician who informed his patient that he was suffering from the poisonous properties of articles used in the preparation of his enamelled paper collars which had been absorbed into his system; and upon inquiry it was found that some half dozen other clerks, all of whom wore those collars, were affected in a similar manner.

The Penitentiary.

Since the erection of the Western Penitentiary, in Allegheny city, there has been three thousand, three hundred and thirty-three prisoners received within its massive walls. There is at present about three hundred inmates, which, before the present term of court expires, will doubtless be increased to some extent.—Pittsburg Gazette.

Cholera, Diarrhoea, and Dysentery!

A CURE IS WARRANTED BY DR. TOBIAS' CELEBRATED VENTRIAN LIMEWATER, if used when first taken by persons of temperate habits. This medicine has been known in the United States over 20 years.—Thousands have used it, and found it never failed to cure any complaint for which it was recommended, and all those who first tried it, are now never without it.—In the Cholera of 1848, Dr. Tobias attended 40 cases and lost 4, being called in late to do any good.
DIRECTIONS.—Take a teaspoonful in a wine-glass of water every half hour for two hours, and rub the abdomen and extremities well with the Liment. To allay the thirst, take a lump of ice in the mouth, about the size of a marble every ten minutes. It is warranted perfectly innocent to take internally. Sold by all druggists, price 40 and 80 cents. Depos. 56 Courtland St., New York.

A SINGLE BOX OF BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak right out in their favor. It is a duty which will save life.
Our race are subject to a red maney of entiated bile at this season, and it is dangerous as it is prevalent, but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness.—Sold by all respectable Dealers in Medicines.

REDUCTION IN PRICE OF THE AMERICAN WATCHES,

MADE AT WALTHAM, MASS.
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low as possible as they can be placed
WITH GOLD AT PAR,
so that no one need hesitate to buy a watch now from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
MORE THAN 200,000 WATCHES
have given our productions the very highest rank among timekeepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together we have been unable to supply the demand. We have repeatedly enlarged our factory buildings until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade-marks engraved on the plate:
1. "American Watch Co." Waltham, Mass.
2. "Applon, Tracy & Co." Waltham, Mass.
3. "P. S. Bartlett." Waltham, Mass.
4. "Wm. Eliot."
5. "OUR LADIES' WATCH" of first quality is named "Applon, Tracy & Co." Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price.

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED to be the best time keepers of their class ever made in this or any other country. Buyers should remember that under the guarantee of a large maker who can never be reached, this warranty is at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American watch made at Waltham, are for sale by dealers generally throughout the country, we do not solicit orders for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

THE SHAWNEE MATHEMATICAL AND CLASSICAL SCHOOL.

The subscriber has opened a Day and Boarding School, at Shawnee, Pennsylvania, for the purpose of furnishing Ladies and Gentlemen, at home and abroad, an opportunity to pursue any studies they may desire, to fit them for the various duties of life. The location is unsurpassed in the richness and variety of its surrounding scenery. Its fine valley, its beeling cliffs, and lakes imbosomed in the mountains, all combine to make it one of the most desirable places for a Boarding School. The location is healthy, and free from the corrupting influences in and near cities and large towns. For further information, address the undersigned, Shawnee, Pa.
