SPEAR'S PATENT

# Prait-Preserving Solution, FOR THE PRESERVATION OF ALL KINDS OF

Cider, Etc., Etc., Etc. Without Sugar, and Walhout Expensive Scaling or Air-Tight Jars .- One Bottle will preserve 128 Pounds of Frait, or 48 Gallons of Wine or Cider.

This Solution when properly used, effectually prevents fermentation or decay of Fruits, and, by the most simple and inexpensive process, every variety may be kept in a fresh and perfectly wholesome condition the year round. It is no new and uncertain experiment, but has been in practical use for the past eight years, yet has been, for the most part, kept from the public for the purpose of ascertaining the result of a series of experiments, all of which have proved the validity of all that is now confidently claimed for it.

Fruits preserved by this Solution are as good as the best "canned" fruits, while the use of the Solution avoids the trouble of sealing, costly jars or cans, keeping from the air and light, frequent examinations, and the many other troubles and annoyances well known to every housewiffs.

All his necessaries for pleasure were on hand-good music, pretty girls, and excellent whisky. The evening passed off rapidly, as it always does, and Bill had, about one o'clock, become pretty happy. Stepping up to a young lady, he requested the pleasure of dancing with her.

She replied that she was engaged. "Well," said Bill, are you engaged for the next set?" she said she was. Can I dance with you the next, then?

I am engaged for that, also. Can I dance with you to-night? No, with some hesitancy.

'Go to Boston," said Bill, highly indignunt, and turned on his heel. After a few moments Bill was accosted by the brother of the young lady, and
