Patented May 29, 1866.
This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT THE CLOTHES, but will leave them much whiter than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.
This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz.—
It saves all the expense of soap usually used on cotton and linen goods.
It saves most of the labor of rubbing, and wear and tear.
Also, for cleaning windows it is unsurpassed. With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.
Directions with each package.
And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS.
The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained un supplied.

IN THE WORLD.**

I am acquainted with H. T. Helmbold; he occupied the drug store opposite my residence, in New York, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.
**W. M. WRIGHTMAN,

Manufacturing Chemist,
Ninth and Brown Streets, Philadelphia.**

[From the Philadelphia Evening Bulletin; March 10th.]
We are gratified to hear of the continued success, in New York, of our townsman, Mr. H. T. Helmbold, Druggist. His store, next to the Metropolitan Hotel, is 23 feet front, 230 feet deep, and five stories in height. It is certainly a grand establishment, and speaks favorably of the merit of his articles. He retains his Office and Laboratory in this city, which are also model establishments of their class.
The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are

GENUINE PREPARATIONS,
And, knowing that the intelligent refrain from using any thing pertaining to Quackery, or the Patent Medicine order—most of which are prepared by self-styled Doctors, who are too ignorant to read a physician's simplest prescription, much less competent to prepare pharmaceutical preparations.

These Parties Resort
to various means of effecting sales, such as copying parts of advertisements of popular remedies, and finishing with certificates.
The Science of Medicine stands SIMPLE, PURE, MAJESTIC,—having Faith for its Basis, Induction for its Pillar, Truth alone for its Capital.

A WORD OF CAUTION.
Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to other besides the manufacturer, or until they are satisfied of the qualifications of the party so offering.
