An Improvement.

One of the most notable improvements made in our borough this fall, is the addition to the old Goetz House, now occupied by Mr. H. C. Levanway, Esq.

Accidents.

In our notice of accidents, last week, we erroneously stated that William Bowman was seriously injured by falling into a vat, in the Tannery at Analomink.

While several boys were playing at "catch," a sort of base-ball practice, on Academy hill, on Friday last, a lad named Theodore Burnett, son of M. M. Burnett, Esq., was run into, and receiving a bump on the temple, was seriously injured.

While Mr. John Kern, a respectable citizen of our borough, was leading a horse, belonging to Barnett Mansfield, through the upper end of town, on Monday last, the animal became vicious, turning around, kicked Mr. K. in the face, on the head and in the side, inflicting severe injury upon him.

Quiet Restored.

We learn that the members of the elderly branch of the Democracy of Monroe county, who threatened to kick up a rumpus, start a new organ, secure the appointments, and raise the "old boy" generally, have been flaxed out by the "Young America" branch, and have quietly consented to take the seats in the synagogue which they had so boldly set apart for their conquerors.

We observe by the Snyder County Tribune, that friend Bilger, who "runs the machine" with so much acceptance by the loyal Unionists of Snyder, has been relieved from the trials, tribulations, duties and responsibilities of the Assistant Assessorship of that county.

Southern Democracy coming North. We had supposed that transactions like those enumerated in the following letter were confined exclusively to the South, and that even there they were indulged in only by the most bitter of the unrepentant rebels.

The manner in which the "intelligent Democracy" of some in the townships of this county, manage the elections would prove irresistibly comic, if it did not seriously interfere with the free exercise of that dearest right of freeman—the right of suffrage.

These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and as effectually as blue pills or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious effects in general.

In short, these Pills may be used with advantage in all cases when a purgative or alterative medicine is required.

How often we hear expressions of Patent Medicines, and in advertisements of ten they may be right. It is over 19 years since I introduced my medicine, the VENETIAN LINIMENT, to the public. I had no money to advertise it, so I left it for sale with a few druggists and storekeepers through a small section of the country, many taking it with great reluctance; but I told them to let any one have it, and if it did not do all I stated on my pamphlet, no one need pay for it.

At such rates few can afford to eat much butter. We remember that during the war an excited orator on the stump said that the women of the country could churn out the public debt in a few years. Judging from the price of butter they have commenced upon the business already.

REASONS WHY THE AMERICAN WATCH Made at WALTHAM, Mass. IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (most famous for its work, as well as for its effectiveness) and is therefore properly made. The watch has what all mechanism should have—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys.

How well we have accomplished this may be understood from the fact, that after so many years of trial, we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES and that no other have ever given such universal satisfaction. While this development of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, unsurpassed by anything made in the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeit wares will be prosecuted.
