The Message and Accompanying Documenst.

The President's Message will refer to the restoration of the Southern States at length. His point will be that Congress should admit Southern Representatives to seats in the councils of the nation.

He considers that ten States remain without representation and looks upon this as injustice, while if they were admitted their appearance in Congress would tend to strengthen the Union. He is not of the opinion that disloyal men would be allowed seats at the Capitol while the Senate and House are judges of the rights of persons applying for admission.

Secretary McCulloch's report will prove of interest to the nation. It is prepared with great care, and the Secretary expresses his views in reference to our currency and the revenue system in a manner which will attract the attention of Congress.
