# SNOW POWDER

Patented May 29, 1866.

This is an article for washing without  
rubbing, except in very dirty places, which  
will require a very slight rub, and unlike  
other preparations offered for a like purpose,  
WILL NOT ROT THE CLOTHES, but will leave  
them much whiter than ordinary methods,  
without the usual wear and tear.

It removes grease spots as if by magic,  
and softens the dirt by soaking, so that rinsing  
will in ordinary cases entirely remove it.

This powder is prepared in accordance  
with chemical science, and upon a process  
peculiar to itself, which is secured by Letters  
Patent. It has been in use for more  
than a year, and has proved itself an universal  
favorite wherever it has been used. Among  
the advantages claimed are the following,  
viz.—

It saves all the expense of soap usually  
used on cotton and linen goods.

It saves most of the labor of rubbing, and  
wear and tear.

Also, for cleaning windows it is un-  
surpassed. With one quarter the time and labor  
usually required it imparts a beautiful  
gloss and lustre, much superior to any other  
mode. No water required except to moisten  
the powder.

Directions with each package.

And can be readily appreciated by a single  
trial. The cost of washing for a family  
of five or six persons will not exceed THREE  
CENTS.

The manufacturers of this powder are a-  
ware that many useless compounds have been  
introduced to the public which have rotted  
the cloth, or failed in removing the dirt, but  
knowing the intrinsic excellence of this ar-  
ticle, they confidently proclaim it as being  
adapted to meet a demand which has long  
existed, and which has heretofore remained  
unsupplied.

new Foundry and Machine Shop would re-  
spectfully inform his old friends, and the  
public generally, that he is fully prepared to  
fill all orders in his line with promptness, and

hands and the best material, the public may  
rest assured that all work coming from his  
shop will be fully equal, if not superior, to  
that produced by any other establishment in  
the country. The new Foundry and Ma-

Elizabeth street, in the borough of Strouds-  
burg, where the orders of old friends as well

## J. LANTZ, DENTIST.

Has permanently located him-  
self in Stroudsburg, and moved  
his office next door to Dr. S.  
Walton, where he is fully prepared to treat  
the natural teeth, and also to insert incorrupti-  
ble artificial teeth on pivot and plate, in the  
latest and most improved manner. Most  
persons know the danger and folly of trust-  
ing their work to the ignorant as well as  
the traveling dentist. It matters not how  
much experience a person may have, he is  
liable to have some failures out of a number  
of cases, and if the dentist lives at a distance  
it is frequently put off until it is too late to  
save the tooth or teeth as it may be, other-  
wise the inconvenience and trouble of going  
so far. Hence the necessity of obtaining the  
services of a dentist near home. All work  
warranted.  
Stroudsburg, March 27, 1862.

sylvania, for the purpose of furnishing Lad-  
ies and Gentlemen, at home and abroad, an  
opportunity to pursue any studies they may  
desire, to fit them for the various duties of  
life.

The location is unsurpassed in the rich-  
ness and variety of its surrounding scenery.  
Its fine valley, its beetling cliffs, and lakes  
imbosomed in the mountains, all combine to  
make it one of the most desirable places for  
a Boarding School. The location is healthy,  
and free from the corrupting influences in  
and near cities and large towns.
