

The Jeffersonian,

THURSDAY, APRIL 25, 1867.

IMPORTANT.

Having procured one of Gordon's Fast Printing Machines, we are now fully prepared to print Bill Heads, Prescription and other Labels, Cards, Circulars, Letter Heads, Envelope Cards, Dodgers, Pamphlets, &c., &c., either in plain or colored inks, or bronze, with the greatest dispatch, and at the lowest city prices. Our stock of Plain and Fancy Type, Paper, Cards, &c., to which we are constantly making additions, cannot be surpassed. Orders from town or country, by mail or otherwise, promptly attended to.

LOCAL NEWS.—Our subscribers, and others living about the county are particularly requested to send in the particulars of such matters of interest as may transpire in their several localities. Marriages, deaths, accidents, changes in residence, sales of real estate, proceedings of important meetings, new improvements, &c., are all wanted to make up a miscellany of home news interesting to every body. State every thing in your own way, writing names distinctly, and we will prepare it for our columns.

As usual our first and fourth pages are filled with matters worthy the attention of our readers, and should not be neglected, even to the advertisements.

We had a very respectable snow storm yesterday morning, which somewhat dimmed the prospect for early vegetables in this neighborhood.

Dr. Seem's card, in another column, is worthy the attention of the toothless, or those about becoming so. "Cheapness beauty and durability" is his motto.

Bad Breath is often one of the attendants of a disordered stomach, and may be speedily obviated by the use of Coe's Dyspepsia Cure. By removing the cause the effect is removed. Our druggists all sell it.

In mentioning the improvements in our borough, last week, we inadvertently gave Mason Tock's property to Uriah Slutter. It is Mr. Tock's house which is being changed into a two-story building.

Postmaster Burnett commenced breaking ground for the new post-office building on Tuesday. He expects to have it ready for occupancy in about two weeks. When completed it will be a model of convenience.

The semi-annual meeting of the Newton Presbytery commenced in our borough on Tuesday afternoon last. There was quite a number of clergymen in attendance, and the services held were of the most impressive character. We will endeavor to give a synopsis of the doings of the Presbytery in our next week's paper.

To-morrow (Friday) will be observed throughout the State, by the Odd Fellows as a day of Thanksgiving and Prayer, pursuant to the proclamation of the Grand Sire. Services, under the auspices of the Order, will be held at the Methodist E. Church, in this borough, commencing at 2 o'clock, p. m. The public are invited to attend.

Messrs. Clark & Co., Chemists, Syracuse, N. Y., would call attention to their advertisements in another column, headed "Reparator Capilli," "Crisper Coma," and "Circassian Balm." These, undoubtedly, are the most perfect and efficacious articles of the kind ever offered the American Public. To unbelievers, we would say, "try them and be convinced."

The attention of our readers is called to the Advertisements in another column of Messrs. Berger, Shatts & Co., Chemists, Troy, N. Y. They are manufacturers of, and agents for, some of the most valuable Toilet preparations in use. By their use all may possess a clear, smooth skin, or a healthy and luxuriant growth of hair upon the head or face. Those of our readers having use for anything of the kind, would do well to patronize them.

Dr. Updegraff, of Updegraff's Eye and Ear Infirmary, will be in Stroudsburg, on Tuesday of next week and remain for two weeks. The Doctor has earned a wide spread popularity in our adjoining counties. We see by the Pike county paper, that the Doctor has made some wonderful cures in that and adjoining Counties. We would say to the afflicted to call on the Doctor soon, as his stay is short, and the best must be made of the time.

Dr. A. Reeves Jackson, of this borough, performed an operation for the removal of the collar-bone and a portion of the thigh-bone from a child of Mr. Kimball, in Potterville, Bradford county, on Sunday last. The operation, which was rendered necessary by the extensive disease of the parts, was most skillfully performed, as we are informed by an eye-witness, and promises to be a complete success. The Doctor's reputation for skillfulness as a surgeon, is rapidly becoming world wide.

The public schools of our borough will open on first Monday of May, under the supervision of D. S. Lee, Esq., assisted by Miss Albina Fenner as 1st, and Miss Miriam Waters as 2nd, and Miss Ella Kern as 3rd, Assistants. The primary schools will be taught by the following teachers:—No. 1, or Race street school, Rachael Van Buskirk; No. 2, or Bark street school, Elmira Dutot; No. 3, or down town school, Jane Barry. The appointments are all excellent. The Board of School Directors is comprised as follows:—President, Wm. Clements; Secretary, Samuel S. Rees; Treasurer, B. S. Everett; Charles Waters, Charles R. Andro, and Jacob Hiestand.

The card of Drs. Jackson & Bidlack will be found in our columns this week. Both gentlemen will be prepared, when not professionally engaged, to meet all calls on their professional services. The reputation of the former, both as a physician and surgeon, is too well established to need commendation from any quarter. Dr. Bidlack is nearly a stranger among us; but his professional skill, his kindness in the sick chamber, and his gentlemanly deportment in all the walks of life, are fast winning a way for him to public confidence. He is a graduate of fifteen years standing, during which time he has been engaged in active practice; five years of which, was in the army.

We learn that Messrs. Sontheimer & Herrmann, have associated with themselves, in the wholesale Notion Business, Mr. Abraham Labar, of Smithfield township. Mr. L. is an excellent business man, a clever, genial gentleman, and will, doubtless, soon become a popular member of the firm. We regret, however, to learn, in this connection, that, though he will maintain his relationship as a member of the firm here, Mr. Sontheimer is about to embark in the same business in New York, where he will, in the future, make it his home. Mr. S. has gotten to be one of our most energetic and public spirited citizens, and we are not so rich in this kind of material that we can afford to lose him. For our excellent Fire Apparatus, and the commodious, convenient, and tasteful building in which it is housed, we are more indebted to his energy, than to that of any other man. He has the best wishes of our citizens for the success of his new enterprise, and their regrets at his determination to leave us.

The Lutheran Church.

The Rev. Mr. Heukel will preach in the Court-House on Sabbath morning next. Services to commence at the usual hour. His sermon on last Sunday a week, defining the faith of the Lutheran Church, denominated, we believe, the "Old School," was listened to by a large and appreciative audience, and was an eloquent production. On Sunday afternoon last, the arrangements for the opening of a Sabbath-school, in connection with the congregation, were about completed. A Lutheran congregation in our borough is now a fixed fact; and, under the guidance of so able a pastor, who gives unmistakable evidence of real business tact and energy, as well as Christian zeal, it will not be long ere it will have a Lutheran Church in which to worship. We understand that, for the present, services will be held at the Court-House on every alternate Sabbath morning.

In our advertising columns will be found a notice of Jay Cooke & Co., Drexel & Co., and E. W. Clark & Co., in relation to the new Pennsylvania State six per cent. loan, a majority of which was subscribed by these parties. The loan is for twenty-three millions of dollars, and is entirely free from all State, county and other local taxation.

The debt of Pennsylvania does not exceed this twenty-three millions of dollars when the assets applicable to the sinking fund are deducted from the total indebtedness, and this is being paid off annually at the rate of one or one and a half millions. It is calculated that in less than seventeen years, at the present rate of liquidation, we shall be entirely free from State debt.

What security can be better than this? Our noble Commonwealth is probably the richest, as it is the keystone of the arch of the Union, and this debt is but a trifling amount compared to the immense resources of our people. When it is remembered that within the borders of the State there are over \$500,000,000 invested in railroads and government bonds alone, and many hundred millions more in manufactures, coal and iron mines, &c., &c., and that the Legislature has supreme control over all these sources of taxation (excepting government bonds), no one can fail to agree with us that our State loan is the safest of all investments.

It is calculated that at the present rate of daily sales, not a dollar of this loan will remain in sixty or ninety days. Parties holding the past due loan can, if promptly presented, have it paid in, face and interest, in payment of the new loan.

There were 227 deaths in Philadelphia last week.

Copperhead Orators have brawled themselves hoarse, and Copperhead editors have wasted gallons of ink and reams of paper in the fruitless task of proving the military reconstruction bill to be unconstitutional. Attorney-General Stansberry, President Johnson's legal adviser, declares that it is constitutional, and that he has no doubt of being able to show it to be so to the satisfaction of the Supreme Court, on the hearing of the Mississippi and Georgia cases. In view of this deplorable state of things, what is the *Monroe Democrat's* opinion of "white mice?"

A heavy thunder shower passed over this section of country, on Monday last. In some sections hail fell in large quantities.

In some portions of our county the storm raged furiously. At Bossardville the wind rose high and threatening, but no especial damage was done. At Kunkletown, in Hamilton township, it amounted almost to a tornado; and whole panels of fence were twisted into confused shapes and blown down. At Henryville the clatter of the hail was terrific, but we heard of no damage being done. In Middle Smithfield hailstones fell, which are declared to have been nearly as large as goose eggs: one of them, picked up by a daughter of Dr. Bash, measured six inches around. Several horses attached to wagons were scared into a run away, making work for wagon-makers. The Millford stage was caught in the storm, and, strange to relate, the horses got up a very respectable gait under the terrors of the scare. Quite a number of slate roofs were damaged, and much window glass was destroyed by the force of the hail. A portion of Smithfield township was also visited by the hail part of the storm, which flew furiously in Shawnee and its neighborhood. A friend informs us that he has seen more hail on the ground, but never, in a lifetime of many years, saw such large hailstones as fell on Monday last. The stones were of an oblong, oval shape, flattened and indented on one side, and, upon being broken open, were found to be quite snow-like on the inside. In one portion of our borough there was a slight sprinkle of hail; but rain, with thunder and lightning and wind accompaniment, principally marked the passage of the storm here.

Senator Wilson, of Massachusetts, having satisfied himself, by experiment, that public discussion at the South, from a republican standpoint, is practicable, now that he is freed from his Senatorial cares, has resumed the work. He has already spoken to, and was respectfully heard by, large audiences, comprised of all classes and colors, at several places in Virginia, including the city of Richmond, and proposes making the tour of all the States lately in Rebellion, and speaking at one or two prominent points in each. He will, doubtless, be followed by other Republicans of prominence, and thus will have been begun a work which cannot but produce the most beneficial results.

Mentally blind-folded by the Copperhead press North, and the fire-eating press South, the Southern people had no opportunity to learn and understand the sentiment of the loyal North in regard to reconstruction. Every measure looking towards the bringing of order out of the chaos produced by the war—towards the supplanting of strife with peace—towards the planting of the seeds of prosperity on the ground where only the weeds of stagnation had grown during the five years of war, was tortured, twisted and screwed to mean any thing but the good which it was honestly intended to accomplish, and which, as the final result will show, it certainly will accomplish. And there was no remedy for the evil. Presses of the opposite party were not, because of prejudice, patronized in the South; and Republican Orators were looked upon only as so many targets for rotten eggs, or the murderous bullet, sped on in its mission of death by the finger of some unreclaimed rebel. But, thanks to the wisdom of Congress, a way is now opened by the military reconstruction law, in which the truth may flow into the Southern heart; and that truth once firmly established there, as it will certainly and speedily be by means of sound, Republican argument, the day will soon come in which a feeling of fraternal brotherhood will so unite the Northern with the Southern heart, as that the removal of disabilities will be demanded and granted, and the whole land and people become a Union so firm as to be beyond the possibility of disruption.

To Senator Wilson belongs the honor of inaugurating the work which is sure to accomplish this most desirable end—an end for which Southern chiefs in the rebellion are praying as fervently as are Northern loyalists; and we hope his noble example will be so speedily followed by others, that, long ere the meeting of Congress, every village, and hamlet, and school-house, and store, and dwelling south of Mason and Dixon's line will have been blessed with the truth from the lips of some one not a whit less radical in sentiment than he. The sooner this shall have been done, the sooner will a millennium of union, of peace and of prosperity dawn upon our land.

\$550,000 in specie was sent to Europe from New York on Saturday.

Bishop Quintard confirmed nearly one hundred persons at Memphis on Sunday.

Russia has not yet ratified the "cession treaty."

A fire occurred in Toledo Sunday night which burned several buildings. Loss \$20,000.

Five whites and sixteen negroes were before the Louisville City Court for "free fighting" on Sunday.

A terrible riot occurred among the miners at Belmont, Nevada, on the 18th inst. Twenty men were killed.

William R. Street, of New Haven, Conn., died at Harrisburg on Monday, from injuries received on the Lebanon Valley Railroad.

A law has passed the Virginia Legislature levying a tax of 30 cents on the \$100, to pay the four per cent. annual interest of the public debt.

It is denied from Washington, that an exploring expedition under the auspices of the State Department, is organizing for Russian America.

ALLOCOCK'S POROUS PLASTERS. HARTFORD, Conn., Nov. 11, 1864.

Messrs. THOS. ALLOCOCK & Co.—Please send, with dispatch, twelve dozen Allocock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay \$5 for a single Plaster if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters to the exclusion of all others, as their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them rendered them greatly superior to all others for ordinary surgical uses. Knowing the plasters to be so useful, I have no scruples that my sentiments should be known.

Know Thy Destiny.
MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometre, guarantees to produce a lifelike picture of the future husband or wife. The applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can attest. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. Box 223, Hudson, N. Y. [Feb. 14, '67.—1y.]

REASONS WHY THE AMERICAN WATCH

Made at WALTHAM, Mass.

IS THE BEST.
It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its accuracy, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs. We keep them in any kind of order. All persons who have carried "American" watches and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsuitable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of trial, we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES and that no other have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, unsurpassed by anything made in the world.

For this purpose we have the simplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert, without fear of contradiction that for the same money our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warranty is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

DR. SCHENCK'S MANDRAKE PILLS A SUBSTITUTE FOR CALOMEL.

These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and as effectually as blue pills or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious effects in general.

SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the liver, indicated by sallow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition.

In short, those Pills may be used with advantage in all cases when a purgative or alternative medicine is required. Please ask for "Dr. Schenck's Mandrake Pills," and observe that the two likenesses of the Doctor are on the Government stamp—one when in the last state of Consumption, and the other in his present health.

A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft, ruddy complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen.

Upon inquiry as to the cause of so great a change, she plainly told them that she used the **CIRCASSIAN BALM**, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficiency in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the service as Nature intended it should be, clear, soft, smooth and beautiful. Price \$1, sent by Mail or Express, on receipt of an order by W. C. CLARK & CO., Chemists, No. 3 West Fayette St., Syracuse, N. Y. The only American Agents for the sale of the same. CHILDREN'S LIVES SAVED FOR 50 CENTS.

THOUSANDS OF CHILDREN DIE annually of Croup. Now, mothers, if you would spend 50 cents, and always have a bottle of Dr. Tobias' Venitain Liniment in the house, you never need fear losing your little one when attacked with this complaint. It is now 10 years since I have put up my Liniment, and never heard of a child dying of Croup when my Liniment was used; but hundreds of cases of cures have been reported to me, and many state it was \$10 per bottle they would not be without it. Besides which, it is a certain cure for Cuts, Burns, Headache, Toothache, Sore Throats, Swellings, Mumps, Colic, Diarrhoea, Dysentery, Spasms, Old Sores, and pains in the back and chest. No one once tries it who is ever without it. It is warranted perfectly safe to take internally. Full directions with every bottle. Sold by the Druggists. Depot, 56 Cortlandt Street, New York.
