

The Jeffersonian,

THURSDAY, MAY 9, 1867.

Read the advertisement of Messrs. Berger, Shatts & Co., in another column, headed, "Afflicted, suffer no more."

The favors of our advertising friends have almost swamped our news columns. We will do better next week.

Attention is called to the advertisement in another column, of Madame H. A. Ferrigo, of Buffalo, N. Y., the great Astrologist and Clairvoyant. Madame P. can be consulted by letter, on all affairs of life, past, present and future.

Valentine Kautz, this week, calls the attention of the public to his new carriage making establishment. All wanting any thing in his line of business, and who want a good honest job, got up of the best material and by the best of workmen had better give him a call. See his card.

With other matters of importance, the reader will find, on the first page, a synopsis of the proceedings of the meeting of the Newton Presbytery, recently held in this place. The synopsis was prepared and should have appeared last week, but was overlooked in the arrangement of matter for the paper. The fourth page also contains its share of good things.

We have been requested by Dr. Up De Graff to announce that, at the earnest solicitation of a number of persons, who desire to avail themselves of his professional services, he will remain at the Washington Hotel, in this borough, two weeks longer. Patients should make sure of the opportunity by calling early.

The Messrs. Dosters have commenced work in the Stroudsburg Woolen Mills, and are setting hands to work as rapidly as machinery can be prepared for their accommodation. Under their energetic and experienced management, we think it will soon be demonstrated that money can be made out of the woolen business in this section of country. We are pleased to learn that our old friend Charles R. Andre remains in the establishment.

Mr. H. S. Wagner, one of the most enterprising of our business men, renews his invitation to the public in the advertising columns of this week's paper. His stock will be found to embrace nearly every thing necessary for the comfort, convenience, and sustenance of mankind, and will be disposed of at most reasonable prices, either by the proprietor himself or by his amiable and gentlemanly *chef d' department*, Mr. Rouse. If you wish to be politely waited upon, and honorably dealt with call on friend Shuman, by all means.

We learn that our esteemed townsman, Dr. A. Reeves Jackson, has made arrangements to join a pleasure party, on a trip to the old world. The trip comprises the chartering of a steamship, the visiting of all places of note, along seaboard, in Europe, Asia and Africa, and many of the islands of old Ocean, and a good time generally. Abundant facilities will also be afforded the members of the party to visit the Paris Exposition. The Doctor, we understand, will occupy the position of Ship's Surgeon, a post for which he is most eminently qualified. He will be much missed by his numerous friends here at home, and will carry with him their best wishes for the safety and pleasantness of the trip, and for a speedy return. The vessel will sail on the 8th of June, and the trip will occupy several months.

Church Improvements.
We are pleased to learn that the prospects for the erection of a handsome church building for the use of the Lutheran congregation of this borough, during the present season, are quite flattering. We hope the prospects may become a certainty.

It is said that the Hiesite Friends are looking around, with a view to the purchase of a lot on which to erect a new Meeting-house. Their present place of worship is becoming quite dilapidated, and has, besides, the inconvenience of situation against its further occupancy.

The Presbyterians have not yet commenced their new building, but we were informed, by one of the committee, a few days ago, that as soon as all the arrangements, now in progress, are completed, the work will be pushed ahead, rapidly.

The improvements contemplated by the Methodist brethren, in their church building, are still in the "talked of" stage of existence, but there is an earnestness in the talk which, we are satisfied, will produce something tangible before the winter sets in. The improvements are really demanded by the overcrowded houses which, on each Sabbath, greet the eloquent pastor in charge, Dr. Alday.

During the thunder shower which visited this place on Monday last, a spurt of wind blew down about twenty feet of the fire-wall of the American (Kuecht's) Hotel, and unroofed a portion of a bark shed belonging to Gershom Hall. We have also heard of corn-cribs and fences being blown down, in the country, but have no particulars.

The storm mentioned above has proved to be something more than a mere passing thunder shower. Without a single ray of sunshine it has kept on raining with but slight intermission until the moment of our going to press last evening. During Tuesday the fall of rain was moderate, but on Tuesday evening it came down with a perfect rush, and from 11 o'clock on Tuesday night until 4 o'clock on Wednesday morning it poured as though the heavens had broken loose—fully saturating the ground, and overflowing gardens and filling cellars. Much damage was done in this way. Yesterday morning the creeks began to swell rapidly, and before night McMichael's, Pocono, and Brodhead's creeks were at flood height—fully up to the flood mark of May, 1862, when the lower end of the borough was nearly destroyed. The drift wood which has passed this place indicate that the whole length of our streams was washed by the storm, and we should not be surprised to hear of great loss in the washing of banks and fences along each. At the time of this writing, Wednesday evening, the creeks are still rising, though we hope, as the rain has moderated, that they have about reached their maximum height. Should we hear of damage, we will endeavor to note it, with particulars, in our next.

The building in course of erection, by George W. Drake, on the lower end of Main-street, and of which we made mention a couple of weeks ago, is progressing quite rapidly, and, being a curiosity in its way, is well worth an examination by all who design building. There is not a post in it; nor a stick of timber, with the exception of the joice, larger than two by four inches in thickness. To look at the slender proportions of the frame as standing naked, one would suppose that a moderate gust of wind would blow it to atoms, but, we are informed, the plan secures the most substantial wooden structure built; it having the advantage in point of stiffness over either the old style frame or the plank building—while in point of cost it is far below either. On the Western Prairies, where for a number of years heavy winds and tornadoes have been the rule, it is the only plan which makes a show of standing the pressure, and is the one, in ninety-nine times out of a hundred, even where timber is abundant, employed in erecting wooden buildings. It is our intention to watch the progress of the building to completion; and when completed we will endeavor to give our readers, in figures, its cost comparatively with the cost of a frame and a plank house of similar size and style of finish. In the present high price of material and labor, the knowledge that a few dollars may be saved may induce the erection of, at least, a few of the many buildings so much needed in our borough. Go and see the balloon frame.

Headache.
The brain and stomach are very intimately connected, consequently a disordered stomach produces Headache, Dizziness, Vertigo, &c. Coe's Dyspepsia Cure will certainly correct the Stomach, and assist digestion, thus removing the cause of these troubles.

Raid on Distillers.
Collector S. C. Hitchcock, of Binghamton, learned last week that a man from Scranton was offering whisky for sale in the above place for less than the government tax. On examining the liquor in question, he found the barrels unstamped, and giving every evidence of not having been returned by the manufacturer and inspected. Upon these proofs of fraud, Mr. Hitchcock visited this city and made a tour of inspection of all our distilleries. He reports that in every one of them he found clear evidences of violation of the revenue laws. Scranton being without the bounds of his jurisdiction, and there being no Revenue Collector acting in this district, he telegraphed to Washington, inquiring what he should do with the offenders. He received in reply a special commission, with instructions to seize all suspected liquors, with stores, premises, and other property of the liquor dealers. Armed with this authority, he made a raid on the following establishments:—Manuel Green, S. S. Hull, David McDonald, Frederick Weichell, Frederick Loehar, Jacob Kunz. We understand that Mr. Green is the most serious offender, and that the Revenue officers claim that he is without excuse or defense for most palpable violations of the plainest provisions of the law. It is likely that he will lose his entire property, valued at \$27,000, and perhaps be imprisoned besides. If we have got any laws, let us have them enforced.—Scranton Republican.

It is thought that Jeff. Davis will be taken to Richmond on Saturday and lodged in jail.

A society for the prevention of cruelty to animals is to be organized in Philadelphia.

Our Railroad.
From the Auditor-General's Report on Railroads, for 1866, we glean the following in reference to the Delaware, Lackawanna & Western Railroad:—
Length of main line, 116 miles; number of engine houses and shops, 4; number of engines, 87; number of first-class passenger cars, 17; number of baggage, mail, and express cars, 5; number of freight cars, 697; number of coal cars, 5938; iron bridges, none; wooden bridges, 13; stone bridges, 4; stations on the main road, 28; tunnels, 3; total number of passengers carried in 1866, 200,486; total tonnage carried, 1,920,874 tons; tons coal carried, 1,608,733; tons of iron, 121,193; tons of limestone, 36,234; employees killed, 8; others, 3; employees injured, 13.

A Wisconsin paper tells the story of a man who eloped with another's wife, but on going to the hotel breakfast table in Chicago, where such congenial spirits most do congregate, was filled with consternation at seeing his own wife with the man whose domestic peace he thought he had wrecked forever. After consultation each escorted his own lawful wife back to his deserted hearthstone.

On Monday in Richmond, the United States District Court met, Judge Underwood presiding. In his charge the Judge made a very complimentary allusion to the press and ministers of the city, and instructed the jury that they would have a great deal of work to perform.—Among the members of the Grand Jury are John Minor Botts, Joseph Segar, Lewis McKenzie, and five colored men.

The "Eight Hour" bill introduced in the Pennsylvania Legislature last winter, was passed by the House, but not by the Senate, as it slumbered in the hands of the Judiciary Committee until the session ended.

It will be two years the 22d of this month since the arch-traitor Davis entered the portals of Fortress Monroe.

A destructive fire occurred at Biaghampston, N. Y., on Sunday. Loss \$13,000.

CONSUMPTION CURABLE BY DR. SCHENCK'S MEDICINES.
TO CURE CONSUMPTION, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good, wholesome food, which, by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. SCHENCK'S MARY DRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.
SCHENCK'S PULMONIC SYRUP is nutritious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhoea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the room as much as possible, eat all the richest food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well. [2d w. ea. mo. 1 yr.]

ALCOCK'S POROUS PLASTERS.
HARTFORD, Conn., Nov. 11, 1864.
Messrs. THOS. ALCOCK & Co.—Please send, with dispatch, a twelve dozen Alcock's Porous Plasters. Our daily experience confirms their very superior excellence. At this moment of writing a man applies for one, who, by entanglement in the shaft of machinery, had both his legs broken, spine severely injured, and was for nearly a year entirely helpless. This man found relief very soon by the application of a plaster to his spine. He was soon enabled to work, and now he labors as well as ever. He would cheerfully pay \$5 for a single Plaster if they could not be had at a lower rate. I am surprised that surgeons do not make use of these perforated plasters to the exclusion of all others, for their flexibility and adhesiveness are greatly in advance of all other plasters with which I am acquainted; while the perforations peculiar to them rendered them greatly superior to all others for ordinary surgical uses. Knowing the plasters to be so useful, I have no scruples that my sentiments should be known.

A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruddy complexion of almost marble smoothness, and instead of two-thirds she really appeared but eighteen.—Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficiency in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the service as Nature intended it should be, clear, soft, smooth and beautiful. Price \$1, sent by Mail or Express, on receipt of an order by W. C. CLARK & CO., Chemists, No. 3 West Fayette St., Syracuse, N. Y. The only American Agents for the sale of the same. DR. UP DE GRAFF,
OF
UP DE GRAFF'S
EYE AND EAR INFIRMARY,
Will be at Stroudsburg,
At the Washington Hotel, two Weeks,
COMMENCING, APRIL 29, 1867.
Dr. UP DE GRAFF treats all diseases, among which are the following: Deafness, Discharges from the Ear, Roaring and other sounds of the Ear, Blindness, Sore Eyes, Asthma, Bronchitis, Consumption, Catarrh, Coughs, Contracted Limbs, Cancers, Convulsions, Dropsy, Dyspepsia, Weak Limbs, White Swellings, Wens and Tumors, Gross Eyes, Hare Lip, Diarrhoea, Disease of the Kidneys, Disease of the Heart, Skin Disease, Fever and other sores, Pits, Gravel, General Debility, Sick Headache, Humors, Involuntary Emission, Lameless, Neuralgia, Palpitation of the Heart, Palsy, Rheumatism, Spinal Disease, Scrofula, St. Vitus Dance, Swollen Joints, Salt Rheum, Tetters, Ruptures, Rupture and Swelled Neck.
CONSUMPTION.—The Doctor has a new discovery for treating consumption, called the Atomiser by which medicine is made so fine and mixed with the air that it can be breathed by the patient, thus bringing the medicine directly in contact with the lungs, which is the only way by which this formidable disease can possibly be cured.
CAUTION.—No cases are guaranteed, but all persons are assured that the best efforts of the Doctor will be directed to their cases, and no cases will be taken but those considered either curable or improvable.—Female complaints are withheld in professional confidence, with due delicacy of the patients. We would advise Patients to call soon, as the Doctor's stay is short, the best must be made of time.
ARTIFICIAL EYES.—Dr. Up De Graff will insert Artificial Eyes without pain, and so natural as to defy detection.
CONSULTATION.—Nothing will be charged for Consultation.
For particulars, &c., see Bills.
