PERUVIAN SYRUP.
PROFECT SOLUTION OF THE PROTONIDE
OF IRON, supplies the blood with its LIFE ELEMENT,
IRON, giving strength, vigor and new life to the whole
system.

If the thousands who are suffering from Dyspepsia,
Debility, Female Weakness, &c., would but test the
virtues of the Peruvian Syrup, the effect would not
only astonish themselves, but would please all their
friends; for instead of feeling cross, "all gone" and
miserable, they would be cheerful, vigorous and ac-
tive.

**A DISTINGUISHED JURIST WRITES TO A FRIEND
AS FOLLOWS:**
I have tried the Peruvian Syrup, and the result fully
sustained your prediction. It has made a new man of
me, infused into my system new vigor and energy; I
am no longer tremulous and debilitated, as when you
last saw me, but stronger, heartier, and with larger
capacity for labor, mental and physical, than at any
time during the last two years.
Thousands have been benefited by the use of this rem-
edy from weak, sickly, suffering creatures, to strong
healthy, and happy men and women; and invalids
cannot reasonably hesitate to give it a trial.
The genuine has "Peruvian Syrup" blown in the glass.

irreversible. "We publish this statement, not for pay,

"there is virtue in the iodine Water treatment, which

SCHENCK'S SEAWEED TONIC.
This medicine, invented by Dr. J. H.
SCHENCK, of Philadelphia, is intended to dis-
solve the food and make it into chyme, the first
process of digestion. By cleansing the stom-
ach with Schenck's Mandrake Pills, the
Tonic soon restores the appetite, and food
that could not be eaten before using it will
be easily digested.
Consumption cannot be cured by Schenck's
Pulmonic Syrup unless the stomach and liver
is made healthy and the appetite restored,
hence the Tonic and Pills are required in
nearly every case of consumption. A half
dozen bottles of the SEAWEEED TONIC and
three or four boxes of the MANDRAKE
PILLS will cure any ordinary case of dys-
pepsia.
Dr. SCHENCK makes professional visits in
New York, Boston, and at his principal Of-

papers of each place, or his pamphlet on con-
sumption for his days for visitation.

**A CARD FROM THE
American Watch Company**
OF
WALTHAM, MASS.
This Company begs leave to inform the
public that they commenced operations in
1850, and their factory now covers four acres
of ground, and has cost more than a million
dollars, and employs over 700 operatives.
They produce 75,000 Watches a year, and
make and sell not less than one-half of all
the watches sold in the United States.
The difference between their manufacture
and the European, is briefly this: European
Watches are made almost entirely by hand,
and the result is of necessity a lack of that
uniformity, which is indispensable to correct
time-keeping. Both the eye and the hand
of the most skillful operative must vary.
But it is a fact, that except watches of the
higher grades, European watches are the
product of the cheapest labor of Switzerland,
and the result is the worthless Ancres, Le-
pices and so called Patent Levers—which
cost more in attempted repairs, than their
original price. Common workmen, boys and
women, buy the rough separate parts of
these watches from various factories, polish
and put them together, and take them to the
nearest watch merchant, who stamps
and engraves them with any name or brand
that may be ordered.
HOW AMERICAN WATCHES ARE MADE.
The American Waltham Watch is made
by no such uncertain process—and by no
such incompetent workmen. All the Com-
pany's operations, from the reception of the
raw materials to the completion of the
Watch, are carried on under one roof, and
under one skillful and competent direction.
But the great distinguishing feature of their
Watches, is the fact that their several parts
are all made by the finest, the most perfect
and delicate machinery ever brought to the
aid of human industry. Every one of the
more than a-hundred parts of every watch is
made by a machine—that infallibly re-
produces every succeeding part with the
most unvarying accuracy. It was only ne-
cessary to make one perfect watch of any
particular style and then to adjust the hun-
dred machines necessary to reproduce every
part of that watch, and it follows that every
succeeding watch must be like it.
The Company respectfully submit their
watches on their merits only. They claim
A BETTER ARTICLE FOR THE MONEY
by their improved mechanical processes than
can be made under the old-fashioned handi-
craft system. They manufacture watches of
every grade, from a good, low priced, and
substantial article, in solid silver hunting
cases, to the finest chronometer; and also
ladies' watches in plain gold or the finest
enamelled and jeweled cases; but the in-
dispensable requisite of all their watches is
that they shall be GOOD TIMEKEEPERS. It
should be remembered that, except their sin-
gle lowest grade named "Home Watch
Company, Boston," ALL WATCHES made
by them
ARE FULLY WARRANTED
by a special certificate, and this warrantee
is good at all times against the Company or
its agents.

**MAKE WAY!
GOOD NEWS FOR ALL**
IN SHAPE OF
New Goods at Stormville.
THE subscriber takes pleasure in inform-
ing the public, that he has just opened
the largest and best selected stock of Goods,
at his old stand in Stormville, Pa., ever
brought into Monroe county, and that he
has determined to dispose of them at prices,
much cheaper than they can be bought at
any other establishment, whether in town or
country. His stock comprises, in almost
endless variety, and of the best quality,
DRY GOODS,
NOTIONS,
HARDWARE,
QUEENSWARE,
GROceries,
DRUGS, MEDICINES, &c., &c.
He has, also, on hand a very large assort-
ment of new and fashionable
Boots and Shoes,
both city and home-made, all of which he
will dispose of at prices which will make
purchasers wonder. Look at a few of the
prices at which I am really giving away
goods, and you cannot fail to be convinced
that my store, in Stormville, is the place
at which to secure real bargains:
PRINTS from 10 to 22 cents per yard,
MUSLINS from 15 to 25 " " yard,
DE LAINES from 25 to 30 " " yard,
and all Woolen goods at figures propor-
tionately low.
Boots and Shoes very low—home-made
at least 60 per cent. below Stroudsburg
prices.
SUGARS from 10 to 17 cents per pound,
MOLASSES from 50 cts. to \$1 per gal.
In short, all articles in my line far below
the monopoly prices which have hereto-
fore prevailed.
The excitement growing out of these great
reductions has already begun, but come one,
come all, my stock will always be found full
up to the demand.
BUTTER, EGGS, and country produce
generally will not be refused in exchange
for goods, and the highest market prices al-
lowed.
