

**A CARD FROM THE  
American Watch Company**  
WALTHAM, MASS.

This Company begs leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary.—But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Aneres, Le-pines and so called Patent Levers—which cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

**HOW AMERICAN WATCHES ARE MADE.**

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the Watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their Watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of its more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it.

The Company respectfully submit their watches on their merits only. They claim

**A BETTER ARTICLE FOR THE MONEY**

by their improved mechanical processes than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low priced, and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be **GOOD TIMEKEEPERS.** It should be remembered that, except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

**ARE FULLY WARRANTED**

by a special certificate, and this warranty is good at all times against the Company or its agents.

**THE GREATEST PAIN-RELIEVER IN THE WORLD.**

Warranted superior to any other, or no pay, for the cure of Chronic Rheumatism, Toothache, Headache, Sore Throat, Mumps, Burns, Cuts, Insect stings, Pains in the Back, Chest, and Limbs, Sprains, Old Sores, Swellings; also, to take internally for Diarrhoea, Dysentery, Colic, Spasms, Sea Sickness, Vomiting, and Croup. It is perfectly innocent to take internally, if used according to the directions, and never fails, as thousands can attest. It was first introduced in 1847, and now millions of bottles are annually sold. Every one who has used it, continues to do so, and recommend it to their friends as the most valuable medicine extant. Certificates enough to fill a dozen newspapers have been received by Dr. Tobias. His medicine, the Venetian Lintment, will do all that is stated, and more. No one will regret trying it. Those residing at a distance from a physician, will find it a reliable medicine to have on hand in case of accidents. Ask for Dr. Tobias' Venetian Lintment, and take no other. Price 50 cents and 1/2. Sold by all Druggists. Depot, 56 Cortlandt Street, N. Y. July 18, 1867.—1m.

**THE UNION PACIFIC RAIL ROAD CO.**

**THEIR FIRST MORTGAGE BONDS As an Investment.**

The rapid progress of the Union Pacific Railroad, now building west from Omaha, Nebraska, and forming, with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "Are they a profitable investment?" To reply in brief:—1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One-fourth of the work is already done, and the tract continues to be laid at the rate of two miles a day.

2nd. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 425 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The materials for the remaining 92 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th. The net earnings of the sections already finished are several times greater than the gold interest upon the First Mortgage Bonds upon such sections, and if not already completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they represent a bona fide property.

6th. Their amount is strictly limited by law to a sum equal to what is granted by the U. S. Government, and for which it takes a second lien as its security. This amount upon the first 517 miles west from Omaha is only \$16,000 per mile.

7th. The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to them a third lien), may well inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities than Government bonds, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Governments to re-invest in these bonds—thus securing a greater interest.

9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and accrued interest, they are the cheapest security in the market, being more than 15 per cent. less than U. S. Stocks.

10th. At the current rate of premium on gold, they pay

C. S. DETRICK. S. S. DETRICK. July 25, 1867.

**MAKE WAY! GOOD NEWS FOR ALL**

IN SHAPE OF New Goods at Stormsville.

THE subscriber takes pleasure in informing the public, that he has just opened the largest and best selected stock of Goods, at his old stand in Stormsville, Pa., ever brought into Monroe county, and that he has determined to dispose of them at prices, much cheaper than they can be bought at any other establishment, whether in town or country. His stock comprises, in almost endless variety, and of the best quality.

DRY GOODS, NOTIONS, HARDWARE, QUEENSWARE, GROCERIES, &c., &c.

He has, also, on hand a very large assortment of new and fashionable

Boots and Shoes, both city and home-made, all of which he will dispose of at prices which will make purchasers wonder. Look at a few of the prices at which I am really giving away goods, and you cannot fail to be convinced that my store, in Stormsville, is the place at which to secure real bargains:

PRINTS from 10 to 22 cents per yard, MUSLINS from 15 to 25 " yard, DE LANES from 25 to 35 " yard, and all Woolen goods at figures proportionately low.

Boots and Shoes very low—home-made at least 50 per cent. below Stroudsburg prices.

SUGARS from 10 to 17 cents per pound, MOLASSES from 50 cts. to \$1 per gal

In short, all articles in my line far below the monopoly prices which have heretofore prevailed.

The excitement growing out of these great reductions has already begun, but come one, come all, my stock will always be found full up to the demand.

BUTTER, EGGS, and country produce generally will not be refused in exchange for goods, and the highest market prices allowed.

CASPER METZGAR, Stormsville, Pa., Nov. 22, 1866.—4f
