A CARD FROM THE American Watch Company
WALTHAM, MASS.

This Company begs leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States. The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. — But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Aneres, Le-pices and so called Patent Levers — which cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

HOW AMERICAN WATCHES ARE MADE.
The American Waltham Watch is made by no such uncertain process — and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the Watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their Watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of them more than a hundred parts of every watch made by a machine — that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it.

The Company respectfully submit their watches on their merits only. They claim

A BETTER ARTICLE FOR THE MONEY
by their improved mechanical processes than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low priced, and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enamel and jeweled cases; but the indispensable requisite of all their watches is that they shall be **GOOD TIMEKEEPERS.** It should be remembered that, except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

THE UNION PACIFIC RAIL ROAD CO.

THEIR FIRST MORTGAGE BONDS
As an Investment.

The rapid progress of the Union Pacific Railroad, now building west from Omaha, Nebraska, and forming, with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "Are they a profitable investment?" To reply in brief: 1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One-fourth of the work is already done, and the tract continues to be laid at the rate of two miles a day.

2nd. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 425 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The materials for the remaining 82 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th. The net earnings of the sections already finished are several times greater than the gold interest upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built, the part already completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they represent a bona fide property.

6th. Their amount is strictly limited by law to a sum equal to what is granted by the U. S. Government, and for which it takes a second lien as its security. This amount upon the first 517 miles west from Omaha is only \$16,000 per mile.

7th. The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to them a third lien), may well inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities than Government bonds, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Governments to re-invest in these bonds — thus securing a greater interest.

9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and accrued interest, they are the cheapest security in the market, being more than 15 per cent. less than U. S. Stocks.

10th. At the current rate of premium on gold, they pay **OVER NINE PER CENT INTEREST.**

NEW GOODS
AT
Greatly Reduced Prices!
I WOULD RESPECTFULLY ANNOUNCE to the public, that I have just made large additions to my already extensive stock and am now selling **DRY GOODS, GROCERIES, &c., &c.,** lower than ever.
My shelves are loaded with **MUSLINS, CALICONS, DE LANES, and GINGHAMS,** of the most celebrated makes, my charges for which will prove astonishing to customers. My stock of **Dress Goods** embracing nearly every variety of style, color and fabric is well worth the attention of the Ladies, while in **CLOTHS and CASSIMERES,** both plain and fancy, I can offer inducements to gentlemen which they cannot forgo without detriment to their finances.
My stock of **SHAWLS, YANKEE NOTIONS, &c.,** is also full, and is offered low. My assortment of **Coffees, Sugars, Molasses, and Syrups,** is very complete, and as usual held at a very low figure.

I have lots of goods the names of which could hardly be compressed within the limits of an advertisement, all of which will be sold cheap.

Remember, the place to buy, with the best assurance of getting your money's worth is at

GOOD NEWS FOR ALL
IN SHAPE OF
New Goods at Stormsville.

THE subscriber takes pleasure in informing the public, that he has just opened the largest and best selected stock of Goods, at his old stand in Stormsville, Pa., ever brought into Monroe county, and that he has determined to dispose of them at prices, much cheaper than they can be bought at any other establishment, whether in town or country. His stock comprises, in almost endless variety, and of the best quality,
DRY GOODS, NOTIONS, HARDWARE, QUEENSWARE, GROCERIES, &c., &c.

He has, also, on hand a very large assortment of new and fashionable
Boots and Shoes, both city and home-made, all of which he will dispose of at prices which will make purchasers wonder. Look at a few of the prices at which I am really giving away goods, and you cannot fail to be convinced that my store, in Stormsville, is the place at which to secure real bargains:

PRINTS from 10 to 22 cents per yard,
MUSLINS from 15 to 25 " yard,
DE LANES from 25 to 35 " yard,
and all **Woolen goods** at figures proportionately low.

Boots and Shoes very low — home-made at least 50 per cent. below Strodsburg prices.

SUGARS from 10 to 17 cents per pound,
MOLASSES from 50 cts. to \$1 per gal.

In short, all articles in my line far below the monopoly prices which have heretofore prevailed.

The excitement growing out of these great reductions has already begun, but come one, come all, my stock will always be found full up to the demand.

BUTTER, EGGS, and country produce generally will not be refused in exchange for goods, and the highest market prices allowed.

July 25, 1867.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in its character, descending from parent to children, and to the third and fourth generation. Indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaint; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla
is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood.** Minute reports of individual cases may be found in Ayer's AMERICAN ANNALES, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of **AYER'S SARSAPARILLA,** although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these diseases. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL.
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
