

# The Jeffersonian

THURSDAY, NOVEMBER 7, 1867.

We regret to learn that Jerome B. Drake, formerly of this place, met with a serious accident at Youngstown, Ohio, about ten days ago. He was engaged slating a house when he lost his balance and fell 30 feet to the ground. When picked up he was insensible and thought to be nearly dead, but by a proper application of restoratives he was soon restored to consciousness. Since which time he has been slowly recovering, and at last accounts was doing as well as could be expected.

### Double Track.

The Delaware, Lack. & W. R. R. Co. have completed the double track from Scranton to this place. They are now engaged in building the double track from Delaware to the Junction. When the rest is finished they will build a double track from Delaware to this place.

By reference to Morris I. Drake's new cards in this week's issue, it will be seen that he has been making important additions to his stock of Boots and Shoes, both in quantity and quality. Those wishing anything in his line of trade should give him a call, as he is a fair dealer and delights to please his customers.

### Real Estate Sales.

The following Farms have been lately sold through George L. Walker, Real Estate Agent, of this place:—

Daniel Peters' farm of 185 acres, in Stroud township, to Judge Durell, of New Orleans, for \$12,500 cash.

S. D. Bush's farm of 70 acres, in Middle Smithfield township.

John Primrose's farm of 42 acres, in Smithfield township.

Mr. Walker is an industrious and enterprising man, hence his success. We understand Mr. Walker is negotiating with a capitalist to put up a large factory at Buttermill Falls.

Francis H. Hagerman has sold his Tavern property and 30 acres of land, at Portland Station, Upper Mount Bethel, now occupied by Col. Bellis, to Mr. Heistand, of Stroudsburg, for \$10,000.

Nicholas Ruster, on Tuesday last, sold his lot, situate on the corner of Centre and Elizabeth Streets, adjoining The Jeffersonian office, to Geo. F. Heller, of Shawnee, for \$1,500.

### Wine.

A gentleman in New Jersey, named Speer, is cultivating the Port grape with signal success, from which an excellent wine is made, which is better than imported Port, and has been adopted for medicinal purposes in the hospitals in New York, Philadelphia and Washington.

Eminent men of Science have discovered that electricity and magnetism are developed in the system from the iron in the blood. This accounts for the debility, low spirits and lack of energy a person feels when this vital element becomes reduced. The Peruvian Syrup, a protoxide of iron, supplies the blood with its iron element and in the only form in which it is possible for it to enter the circulation.

Soothing and Healing.—we might with truth add, certainly curing in every case. No remedy known equals Coe's Cough Balsam, for Coughs, Colds, Croup and Consumption. It is an old and tried friend, and always proves true.

Governor Geary has appointed J. Pringle Jones, of Reading, Judge of the Third Judicial district (composed of Northampton and Lehigh counties), vice Judge Maynard. The appointment of Mr. Jones was urged with great unanimity by members of the bar of all parties in the district, and his was the only name presented to the Governor for the position.

The Democratic party of Ohio is in sore perplexity, not knowing how to dispose of Vallandigham's claims for Ben Wade's seat in the United States Senate. Nearly all the members elected by the Democrats to the State Legislature are pledged to their constituents to support Vallandigham, but the wise men of the party see utter ruin ahead if these pledges are redeemed.

The Rev. Mr. Owens, who has been untiring in his devotion to the sick and dying all through the plague siege in Galveston, and who has won the love and respect of every one in the town, has at length succumbed, and is supposed to be dying of the fever. Mr. Owens is a brother of General Joshua Owens, of Philadelphia.

Church and State will without doubt be shortly divorced in most of the States in Europe; at least things seem to be tending that way a good deal now. After so long a union, it is sad to think of a separation, although they have had but a very brief time of it while together.

## THE ELECTIONS HELD ON TUESDAY.

### New York.

The Democratic majority in the city is 61,165, and it seems to be a settled point that the State has gone Democratic by some 20,000 majority.

### Massachusetts.

A special despatch from Boston says that Governor Bullock and the Republican State ticket has been re-elected by 20,000 majority.

### New Jersey.

TRENTON, Nov. 5.—The Democratic ticket is probably elected by a small majority.

### Maryland.

BALTIMORE, Nov. 5.—The entire vote of the city stands Democratic 19,911, and Republican 4,860. Returns from the counties are meager, but indicate Democratic gains throughout the State.

### Wisconsin.

MADISON, Nov. 5.—Sufficient returns have been received to show at least 5,000 majority for the Republican ticket, and a large majority in both branches of the Legislature.

### Kansas.

ST. LOUIS, Nov. 5.—Returns from Kansas are meager, but indicate the defeat of both the female and negro suffrage by 8,000 to 10,000 majority.

### Trouble with Turkey.

A serious embroglio in our relations with the Divan has arisen, as follows: Sarkis Minasian, who has for many years acted as the resident agent in Turkey for the sale of Dr. J. C. Ayer & Co.'s medicines, driven by the increase of his business to a necessity for more room, built his warehouse in Constantinople several stories higher, after having obtained the necessary permit from the authorities. The Imans of a neighboring mosque, which overlooked the premises demanded a large present in money, which was refused. They then applied to the Grand Vizier, for the enforcement of an obsolete law, which had been disregarded two hundred years, requiring them to take down the building to eighteen feet, which was granted, and they commenced the work of demolition. Minasian then applied to the American Minister, who notified the Sublime Porte that American property could not be thus trifled with, and that the demolition must cease. Then commenced the usual course of Mussulman prevarication and promises, but no real redress. Finally Minister Morris informed them that if their depredations continued, he should order the U. S. ships of war to enter the Bosphorus and Messrs. Ayers' medical warehouse would not be alone roofless. A stroke of his pen would have laid the whole city under the sweep of American cannon, backed by men who are not schooled in the lessons of fear. This brought them to their senses and speedy redress. Minasian has now arrived in this country, to present the case to our State Department for indemnity. At length it is something to say among the peoples of the earth—"I am an American citizen!"

### The Way the Money Goes.

There are scores of persons in Wayne county to-day who are engaged in making up clubs with a view to trying their luck in a swindling "gilt enterprise" concern, in Boston, conducted by Andrews & Co. To such we commend the following figures. The money order book of the Honesdale post office shows that up to to-day (Thursday) there have been sent from this one office, orders drawn in favor of Andrews & Co., for the enormous amount of \$7724.80! Add to this two or three thousand sent by Express, and at least double that amount forwarded directly in letters, either in cash or drafts, and we have at the least calculation an aggregate of from \$15,000 to \$20,000 sent from this county alone, in one season, to a pack of swindlers and rogues, who have not returned at the outside more than \$1,000 worth of goods therefor. Rating ourselves at the average—for we should be sorry to admit ourselves to be a greater set of fools than the rest of mankind—and these figures would indicate an annual harvest of about \$2,000,000 from this State alone. What would this do in relieving the distresses of the poor during the coming Winter, if judiciously expended instead of being thus worse than thrown away.—Wayne County Herald.

### The Great Storm in Texas.

Advice from New Orleans contain full accounts of the terrible effects of the late hurricane which visited the Rio Grande. Several towns were almost entirely destroyed, steamboats were disabled, and sailing vessels were blown ashore. At Matamoros twenty-six persons were killed, ten at Brownsville, twelve at Brazos, while at Bagdad the loss is not known. At this latter place ninety persons fled to a vessel and were saved, but all the other inhabitants are believed to have perished; not a house was left standing at Bagdad. The suffering among the houseless survivors has been intense, and appeals to the public for assistance have been made.

Professor Light made an ascension at Perryville, Juniata County Pa., on Thursday last, in his Montgolfier Balloon, with a perilous termination. His balloon split from the hoop to the top and descended with alarming rapidity. As good fortune would have it, Mr. Light lit in the Juniata River and escaped without any serious injury.

## THANKSGIVING IN PENNSYLVANIA.

Proclamation of Gov. Geary—He Appoints Thursday, November 28, 1867.

Commonwealth of Pennsylvania: PROCLAMATION.

From the creation of the world, in all ages and climes, it has been customary to set apart certain days for special religious observance. This has not always been influenced by the light of Christian knowledge, nor by any proper conception of the character of that Great Being "who ruleth the earth in righteousness," and "who daily loadeth us with his benefits;" but by an innate sense of the existence of an over-ruling Power, by which the world and all it contains are governed and controlled. Aided by the dictates of cultivated reason and the teachings of Divine revelation, we, however, are taught to recognize in that Supreme Ruler a Heavenly Father, to whom we are indebted for existence and all the blessings we enjoy, and to whom we owe constant and fervent thanksgiving and praise. It is He who "visiteth the earth and watereth it;" who "setteth the furrows and blesseth the springings thereof;" who "crowneth the year with His goodness, and whose path drop fatness;" who "clotheh the pastures with flocks, and covereth the valleys with corn;" who maketh the out-goings of the morning and of the evening rejoice;" who "is our refuge and strength;" who "maketh wars to cease;" and "saveth us from our enemies;" whose "throne is for ever and ever," and who "blesseth the nations whose God is the Lord."

On all sides we have increased assurances of the "loving kindness" of an All-wise Parent of Good, who has conducted our nation through a long and terrible war, and permitted our people to repose once more in safety, "without any to molest them or make them afraid." The monstrous sentiment of disunion is no longer tolerated. The Flag, the Union and the Constitution are esteemed as the safeguards of the rights and liberties of the people, and are revered and defended as the ark of their political safety.

A kind Providence has not grown weary of supplying our continuous wants. A bounteous harvest has rewarded the labors of the husbandman. Flocks and herds are scattered in countless numbers over our valleys and hills. Commerce is uninterrupted, and vessels laden with the products of nature and of art speed, unmolested, over the trackless deeps. Nei-ther pestilence, famine, political or social evils, financial embarrassments or commercial distress have been permitted to stay the progress and happiness of the people of this great Commonwealth; but peace, health, education, morality, religion, social improvement and refinement, with their attendant blessings, have filled the cup of comfort and enjoyment to overflowing.

Recognizing our responsibility to Him who controls the destinies of nations as well as of individuals, and "from whom cometh down every good and perfect gift," and to whom we are deeply indebted for all these and the richer blessings of our common Christianity, let us unitedly give our most devout gratitude and hearty thanksgiving.

I, therefore, do hereby recommend that THURSDAY, THE 28TH DAY OF NOVEMBER NEXT, be set apart as a day of praise and thanksgiving; that all secular and worldly business be suspended, and the people assemble in their various places of worship to acknowledge their gratitude and offer up prayers for a continuance of Divine favor.

Given under my hand and the great seal of the State, at Harrisburg, this thirty-first day of October, in the year of our Lord one thousand eight hundred and sixty-seven, and of the Commonwealth the ninety-second. JOHN W. GEARY, By the Governor: F. JORDAN, Secretary of State.

### Contesting the Election.

The Philadelphia Bulletin reports Judge Williams as having said he would sooner forfeit his right arm than take a seat on the bench of the Supreme Court as the final result of contesting the election of Judge Sharswood—or something to that effect. Whether or not Judge Williams has taken that position, we do not know; but we infer from our acquaintance with him—from the nice sense of honor by which he has uniformly been actuated, and which proceeds equally from his nature as from habit—that he would not consent to take the seat apparently awarded to Judge Sharswood by the popular verdict, unless upon fair and careful examination fraudulent votes should be proved in such numbers and with such certainty as to silence all imputations upon the rightfulness of his incumbency. He is not a man to occupy a high judicial position, or any position whatever, under circumstances that would expose him to the reproach of attaining it by the improper use of party machinery or by doubtful appliances of any description. It may be that Judge Williams' sensitiveness would carry him beyond this point; but we have no authority for making the announcement.

Be this as it may, any over-delicacy on his part ought not to be allowed to operate to the detriment of the public generally or of the Republican party in special. If Judge Shartwood was elected by fraud, it is not conceivable he was even privy thereto; but it is just as inconceivable that he or his political supporters ought to be suffered on that account to profit by shameful corruption. The matter ought to be probed to the bottom, and if illegal votes shall be duly proved to such an extent as to give Judge Williams the place, let the decree go forth. If, upon reviewing the case as it shall then stand, he should be deterred by his sensitiveness to reproach, even when unfounded, from accepting the position, a fresh appeal would necessarily be made to the people next year. In that case it would be natural for each party to reannointe the candidate it put forward this year. A verdict would then be reached which could not be gainsayed.—Pittsburg Gazette.

Republican majority on joint ballot 13.

Gov. Brownlow, of Tennessee, has been elected United States Senator from that State, in place of Patterson, Dem.

We lose one in Ohio, but gain two by the admission of Colorado.

We will also gain a Senator in Pennsylvania, vice Buckalow, whose term has nearly expired.

Commodore Vanderbilt has a son who is going through the bankrupt court.—It would be well for the creditors if the Mosaic law would be reversed and the sins of the children visited upon the fathers. The Commodore, however, seems to be willing to spend more money for the "Mountain Boy" than for his own.

The Republicans throughout the State are organizing for the Presidential contest. They are determined to atone for the criminal negligence of the last canvass, and will secure Pennsylvania her honored place among the loyal Commonwealths of the Union in the approaching political struggle.

A young officer was at a large party given in Leavenworth, when perceiving a toad, he took it up and attempted to frighten the ladies with it. After a time he threw the frog on the ground, and then happened to touch his face with his hand. A trifling pimple, which he had on his face, instantly commenced swelling, and the most violent agony speedily forced him to return to his quarters.—Every effort was made to stop the inflammation, but all operations failed, and the unfortunate officer expired after two days' intense pain.

Probably the oldest book extant, ever published in America, is now in possession of General J. W. Phelps, of Vermont. It is a dictionary of the Aztec language, and was printed in the City of Mexico, in 1571—nearly fifty years before the landing of the Pilgrims at Plymouth, and more than thirty years previous to the establishment of the colony at Jamestown, Virginia.

Two men recently died suddenly at a Canadian tavern after drinking a cup of coffee. The landlady called the police, who suspected her of poisoning the men. She protested she had not, and to prove the harmlessness of the coffee drank a cup herself, when she also fell down dead.—An examination of the coffee-pot showed that a bunch of matches had been boiled with the coffee.

Fifteen of the good Sisters of Charity who have been endangering their lives while nursing the sick at New Orleans, have gone to Memphis to continue their Christian labors. These meek-eyed saints are never weary of doing good, although they certainly do enough to make almost any one weary. The blessings of the whole South are but fitting rewards for their labors of love.

At Oberlin College a negro woman teaches English grammar.

A company for the manufacture of salt in Schuylkill county, has been formed, and the works will soon be in course of construction.

Wonders cluster thickly at one place on the Yellowstone River. The water falls over a sixteen hundred feet precipice into a small lake which contains an island covered with boiling springs.

The coal trade of Pennsylvania increases largely each year. It is stated that 550,000 tons more of anthracite coal have been sent to market this year than during the corresponding period last year.

The residence of Major General Anthony Wayne is now occupied by his great grandson. It is at Paoli, on the Pennsylvania Railroad, and is kept in much the same condition as when owned by the Revolutionary hero.

The builders of the Pacific Railroad are now in sight of the Rocky Mountains, and will in a few days reach the new City of Cheyenne, where real estate speculation is running high, corner lots selling at \$500 and upward.

A Minneapolis teamster, with a load of lime, set fire with his pipe a bundle of hay in his wagon. He attempted reduction of the flames by dashing water copiously upon his freight, and soon found himself in fresh trouble from the lime.

England has a school of mines, why should not Pennsylvania? Our territory is as large and our mining interests as important, and the more thoroughly educated to their business our miners are, the more thorough will be the development of our State's resources.

A burnt clay altar has been discovered near Nashville, Tenn., by some antiquarians, several feet under ground, at the summit of a mound. The altar is of circular form, and three feet in diameter.—Several deer bones and some shell ornaments were found upon it. Among the latter was a large flat Gulf of Mexico shell, rounded off carefully, and carved on one side with circles and signs, approaching those of the zodiac; in the centre is the effigy of the sun, very much like those found in our almanacs, while one of the inner circles is divided accurately into three parts.

The number of persons burned to death since the weather became cold enough for fire, is frightful. They are occurring in almost every town in the North.

A shell from Vicksburg exploded in a foundry at St. Louis, recently, killing one man and severely wounding two others. The shell was one of a large lot which had been brought to St. Louis and sold as old iron.

It is said that Senator Wade is determined not to give up office, and intends now to run for a place in the lower house. The old war horse pants for action, and if he can't carry the commander he thinks he can help drag the baggage.

## IRON in the BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude, and "all-goneness" pervades the system. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can be done by using the

PERUVIAN SYRUP, a protected solution of the protoxide of iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.

To take medicines to cure diseases occasioned by a deficiency of IRON IN THE BLOOD, without restoring it to the system, is like trying to repair a building when the foundation is gone.

An eminent physician says: "I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscles."

Pamphlets containing certificates of cures, and recommendations from some of the most eminent physicians, clergymen and others, will be sent free to any address. The genuine has "Peruvian Syrup" blown in the glass. J. P. DINSMORE, Proprietor, No. 26 Dry St., New York. Sold by all Druggists.

For all the Protean forms of Disease originating in SCROFULA,

such as Salt Rheum, Cancer, Consumption, &c., there is nothing so equal the purifying effects of Iodine when administered in a pure state.

Dr. H. Anders' Iodine Water is a pure solution of Iodine dissolved in water, without a solvent, and is the best remedy for Scrofula and kindred diseases ever discovered. Circulars free.

HORRIBLE ACCIDENT. A man some time since was repairing a gas leak, corner of 28th Street and 6th Avenue, New York. He went into the excavation and then lit a match. An explosion of the gas took place, and the man was much burned. Dr. Tobias' Venetian Liniment was applied freely, and in three days the man was about his business in the Manhattan Gas Works as well as ever. His name is Samuel F. Waters. This is one of the wonderful cures made by Dr. Tobias' celebrated Venetian Liniment: it is not only good for burns, but for Old Sores, Bruises, Chronic Rheumatism, Sore Throats, Cuts, Insect Stings, Pains in the Limbs, Chest and Back; also internally, for Colic, Cramps, Diarrhea, Dysentery and Croup. It is perfectly innocent to take internally, and is the best family medicine in the world. Orders are received from all over Europe for it. The most celebrated Physicians recommend it—it never fails. Dr. Tobias puts up
