

The Jeffersonian,

THURSDAY, NOVEMBER 21, 1867.

Congress meets to-day at Washington, D. C.

Evacuation Day, a second 4th of July for New Yorkers, will be celebrated in that city, with great eclat on the 25th inst., that day being the anniversary of the evacuation of that village by the British Army during the Revolutionary War.

Donation.

The members of St. John's Lutheran Church, purpose giving the Rev. Mr. Henkel a donation, at his residence, in Stroudsburg, on Wednesday afternoon and evening, Nov. 27th.

The public, generally, are invited to attend.

Oysters!

A Committee of young men who have formed themselves into an organization to raise money to build the Spire on the new Presbyterian Church, design giving an Oyster Supper on to-morrow evening, 22d inst., in the Engine House. All who desire good oysters, and at the same time patronize a laudable cause and get their money's worth back again, should not fail to embrace this opportunity to do so.

An Anniversary at the M. E. Church, near James Place's, in Middle Smithfield, was held on Thursday evening last. The entertainment consisted of Tableaux, Speaking and Music, the latter under the supervision of J. A. Clements, of this place, whose efficiency in the music line is becoming notorious, and we trust meritoriously so. The audience was so well pleased with the first night's performances that they requested and prevailed upon the performers to repeat their entertainment on Friday evening last. Taken altogether we are glad to learn that the anniversary may be set down as quite a success.

There has been quite a change made recently in the official management of the D. L. & W. Railroad caused by the resignation of Mr. J. Brislin and a number of the subordinates under him.

Samuel Sloan, late President of the Hudson River Road, has been appointed President.

J. M. Toucey, General Superintendent.

Charles D. Mills, Superintendent of Car Shops and the purchase of lumber.

Walter Dawson, Master Machinist.

They are all pronounced capable and energetic men.

H. S. Wagner, of this place, and Theodore Taylor, of Stroud township, received on Tuesday last, 150 barrels of Apples and Potatoes from Michigan. They are the finest we have seen this season.

Of Apples they have—Greengolds, Northern Spy, Seek no further, Russets, Spitzenburg and Red Streak.

Of Potatoes—the Peach Blows and Flukes.

Heads of families should not fail to get a supply. Ex-Sheriff Marsh tried the potatoes and so well pleased was he, that he at once bought ten barrels. Messrs. W. & T. merit and should receive a liberal share of public patronage.

BANK DIRECTORS.

At an election for Directors of the Stroudsburg Bank, held at their Banking house on Monday last, the following named gentlemen were duly elected:—

- Samuel S. Dreher,
- Gerge Nye,
- Dr. P. M. Bush,
- Michael Ransberry,
- R. S. Staples,
- Wm. Wallace,
- Stogdell Stokes,
- Gershom Hull,
- Jonathan Fetherman,
- J. D. Labar,
- John Butz,
- Thos. W. Rhodes,
- James Bell, Jr.

Accident.

The mother of Alexander Raubenold, now in town visiting her son, narrowly escaped with her life on Friday last. They were boiling soap in the back yard, and while standing near the fire her dress was ignited, and all her clothing outside of her hoops was burnt off her person before the fire was extinguished. She manifested an unusual amount of presence of mind during the burning, and jumped into a hoghead containing 6 or 8 inches of water and splashed the water over her with her hands, when Charles Keiser came with a basin and threw water over her and soon extinguished the fire. We learn that her arms were pretty badly burned. Miss Lydia Shafer, who was in the yard at the time, had her hands badly burned in endeavoring to tear from the old lady her burning clothes.

Lectures!

We would again call the attention of our readers to the lectures on the "Far West" about to be delivered by J. L. Ringwalt, Esq., of Philadelphia, in the Presbyterian Church of this place, on the evenings of the 3d & 4th of December. Proceeds to be applied to the completion of the new Presbyterian Church of this place.

The lectures will amply repay the fees of all who will give them their attention. The lecturer is efficient and popular in a high degree. We hope to see the church well filled, as it ought to be.

The following is from *Godley's Lady Book* for December:—

"We gladly direct the attention of the readers of the *LADY'S BOOK* to Mr. Ringwalt's admirable portrayal of the scenery and characteristic life of the Rocky Mountains and the Plains. He shows Indians, buffalo, and wolves, for the adventurous; mines, and the methods of mining, for the treasure-seeker; geography, local and physical, for the savan; and the famous beauty of the Yosemite, the mystery of the canon, and the grandeur of the mountain pass, for the lover of the picturesque. From his own experience in those regions, Mr. Ringwalt has gathered a fund of laughter-provoking anecdote, which lightens his lecture with all the interest of personal adventure, while giving it the authenticity of individual experience. In Philadelphia, men, women, and children have been attracted by the varied character of the information and entertainment, and we trust that our friends at a distance may also have the opportunity of enjoying this condensation of the experience of a journey to that 'far west,' which the Pacific Railroad will soon open to the tourist."

County Institute.

In pursuance of the second section of the Act approved April 9, 1867, I hereby call upon and invite the teachers of the Common Schools, and other institutions of learning, to assemble themselves at the Court House in Stroudsburg, on Tuesday, December 10th, at 10 o'clock, A. M., and organize a Teachers' Institute to be devoted to the improvement of teachers in the science and art of education, to continue in session five days. Non attendance, in all cases, will be taken to be such a total want of interest in the profession of teaching as to justify the withholding of certificates from teachers so absenting themselves. The law above mentioned, leaves no room for discretion; the institute must be held, and teachers must attend them. The services of some of the best teachers in the State have been procured and they will be present without fail. Teachers, come up to the work. Those that feel unable to work, come and listen. I invoke the aid of every enlightened interest in the County;—especially the pulpit and the press, to assist me in bringing out all our teachers, and I will be responsible for the failure of the institute.

Important Letter.

The following letter has come into our hands, and we publish it for the information of those who doubt the purity of Speer's Wine.

This is to certify that Mr. Alfred Speer is a resident of this village, and, to my personal knowledge, has devoted a number of years to the manufacture of pure and valuable wine. He has a large vineyard in view of my residence, and has been for some time engaged in cultivating the Port Grape. The Port Grape Wine cannot be excelled by any American wine. It is bottled by Mr. Speer every season in large quantities, but not disposed of until it attains the age of four years.

Passaic, Oct. 20th, 1865.

D. B. SICKLES.

Central National Bank, New York. Some of our druggists have this wine direct from the vineyard.

A glorious time are the Democracy having this year over their squib victories in several of the States. Roosters which have had no occasion for nearly a decade of years, have now an opportunity to ventilate their lungs, and picture cannon which have lain by to rust since the first Bull Run, the peninsula, McClellanisms, and the last Bull Run are now made to show their smoke with a rush. —Glorious times these for the Democracy. *Vive l'humbug.*

Eat Heartily.

There are hundreds of people who do not dare to eat a hearty meal of victuals for fear of the distressing effects that follow. Coe's Dyspepsia Cure will stop it instantaneously. It has cured more cases of Dyspepsia than all other remedies combined. Take it freely and you will be satisfied of its merits.

Within the whole range of tonic and alterative medicines known, none is entitled to more consideration than the Peruvian Syrup. In all cases of enfeebled and debilitated constitution it is the very remedy needed. The most positive proof of this can be adduced.

From the *Village Record* we learn that a man residing in Lower Uwehlan, Chester county, having negro blood in his veins, was assessed through Democratic influence and brought to the polls, where they induced him to vote for Sharpswood.

Story of a Wanderer.

A very singular character in the person of an old man, about 70 years of age, passed through our county last week. He was rather clerical looking in appearance, but very poorly dressed. He presented himself as coming from Virginia. He stated that previous to the war he kept a large seminary there, and that his father had been an Episcopal minister in that State. During the war two of his sons were taken as conscripts and put in the rebel army, and were killed in the battle of the Wilderness. After this the rebels came upon him and tied him for the purpose of robbing his house. In his attempts at resistance they threw him upon the floor, when one raised his foot and struck him with his heel in his eye, destroying his sight. A daughter coming to his assistance was shot dead, and fell weltering in her blood upon the floor. They then went up stairs, took all his money, amounting to \$900, and fired the house. After they left the old man succeeded in making his escape with a blind son and the body of his daughter. He said that he is travelling to a son of his who is now an Episcopal minister in the State of New York. He stopped at Point Pleasant on Saturday, obtained some change, and, it is supposed, became somewhat under the influence of liquor. Whether his history concerning himself is true or not, remains a mystery, but he is apparently a well educated man, and, in all probability, may be one of the many wrecks of the result of the rebellion. His blind son, is in an asylum in Philadelphia. He has yet one daughter, he says, in the south, the mother of six children, whose husband was an officer in the rebel army, and was killed in the war. She is left in the most destitute circumstances, and cannot get away. —*Bucks County Intelligencer.*

A young man 23 years of age offered for sale at auction, in New Haven last week, a horse he was suspected of stealing. He was arrested, but refused to give his name or any account of himself. A letter which was found in one of his pockets, however, and which he attempted to burn, told a strange story. It was in his handwriting, and addressed to a citizen of Wiscasset, whose house had been robbed by a burglar. The letter stated that one O'Leary, who has been arrested, is innocent, and continues: "I committed the burglary, and to convince you that I did I will state some facts in connection with it." It then describes the house, the manner of entering it, the rooms ransacked, and says that the writer entered the apartment of the gentleman's daughter, and that while examining the bureau drawers she awoke, sprang from her bed, seized and held him so firmly that he could not escape until she had called the gentleman and a woman to her assistance; that the four rolled down the stairs together, and that the writer finally escaped, carrying with him the young woman's diamond pin. Then the writer says—"I return the pin to your daughter, who is a noble and brave woman—as brave as any man I ever saw in the army." The police, after examining the prisoner's clothing still father, discovered the diamond pin. Soon after the arrest information was received at New Haven from Wiscasset that the horse was stolen from there the day before.

The Collector of one of the largest Internal Revenue Districts in the country, in a late report, alleges that the loss to the Government this year from the non-collection of the taxes on whiskey and tobacco amounts to the enormous sum of one hundred and twenty-five million of dollars. This heavy loss, he says, is to be attributed mainly to corruption and mismanagement by the Revenue officers, most of whom have been appointed by Mr. Johnson for other reasons than their personal fitness. The only way to stop this swindling business, he thinks, is to entirely remodel the system of collecting and to purge the service of all incompetent officers.

President Johnson continues to employ his pardoning facilities with industry, if not with much discretion. One of his late acts was the reversal of the sentence of Col. Belger, for a long time Quartermaster at Baltimore, who was dismissed the service by President Lincoln for peculation and dishonesty. Mr. Johnson can not restore him to the office which he held, but has thus thrown into his hands about \$15,000 of back pay. This was probably an act of political foresight, as Belger is a good Copperhead, and Johnson is alleged to be scheming for the Presidency next year. We shall doubtless have a great many culprits turned loose upon us if this proves to be a fact.

The Democrats of New Hampshire held a State Convention recently and placed in nomination candidates for Governor and other offices. Their resolutions were of course thoroughly "Democratic," in the present sense of the word, but they refused to put forth a single word in endorsement of the President who has helped them to gain their recent victories. Mr. Johnson is said to be mortified and disappointed at this treatment. Not a single Democratic Convention has endorsed him by name; and though he occupies the highest political station in the country he has never been able to secure the approval or respect of any organized party.

At Lewisburgh, Penn., the other day, a man was engaged in building a bridge. A clergyman happening along, he remarked that he was going to see the bridge up. "Yes," replied the minister, interrupting "if Providence permits!" and at that instant a rope broke and down came a stone which was being lifted to its place, and crushed the man to death instantly.

A "professional" thief named Baker, connected with the White Haven robbery, was caught in New York last week and taken to Wilkes-Barre on Saturday last, heavily ironed.

The *Dubuque Times*, in a review of the late Waterloo campaign, has the following:

"In the West we do those things differently, and we can point our Eastern brethren to Iowa as a bright example, and one that will do them good to copy after. Here instead of running behind, we gave a larger majority for Col. Merrill, the Republican candidate for Governor, than was ever before given to any man for that office. Large meetings and stirring addresses are all very well in their place; but one quiet, persevering man, working prudently among his neighbors, will accomplish more toward fixing the minds of men than would one-half of the popular speakers of the nation. The fact is, is not among the noisy demonstrations of public gatherings and set speeches that men's minds are most susceptible to the force of reason; but on the contrary, most persons are either drawn to such places by previously formed opinions, or go with prejudices which ward off the effect of anything they may hear. One trouble with the Republicans, as already suggested, is that they have depended too much upon demonstration and oratory, and too little upon work."

A Negro with a Bullet-Proof Skull.

The Nashville (Tenn.) *Banner* of the 3d instant, contains the following: Caleb Jones, colored, beat his wife so severely about 10 o'clock last night that she fainted. When Officer Clarke went to arrest him he ran away paying no attention whatever to the officer's frequent orders to halt. The policeman finally fired a shot over his head, but he kept on at a rapid pace. The pistol was again brought into requisition, and this time with effect, the ball lodging in Jones' head and ranging around the skull to the right ear, but was soon on his feet again. He was taken to the Station-house, where the ball was extracted. It was found that, although his skull was not injured, the bullet was mashed almost perfectly flat.

Coal Oil for Rheumatism.

I wish to inquire if your readers are aware what a valuable remedy the common coal oil is in rheumatic cases? I have been using considerable of it lately, and have found almost immediate relief from it. It is surprising how supple and free from pain it will render some of our old stiff backs, suffering from all sorts of "cricks," and the weight of divers scores of years. So very valuable a remedy deserves to be more generally known, as its cheapness and abundance renders it generally accessible. Care should be exercised in using at night before lamp or fire light, as it sometimes explodes.—*Co. Gent.*

The elections in Arkansas and Mississippi, under the provisions of the Reconstruction law, have been carried by the Radicals by large majorities. Many of the white people declined to vote, while the colored vote was given solid for the Union candidates. The Conventions in both States will be controlled entirely by the loyal element.

Internal Revenue Decisions.

WASHINGTON, Nov. 18.—The Commissioner of Internal Revenue has made the following decisions:

When a conveyance of realty is made upon actual valuable consideration, which is manifestly inadequate, the deed should be stamped according to the amount of valuable consideration, and a succession tax, unless the successor be the wife of the predecessor, should be assessed upon the value of the land conveyed, less such consideration.

Where there is no stamp upon a promissory note until it is issued a stamp is to be canceled when it is attached or used; and, although a stamp may be affixed when a note is signed, it cannot be said to be used until the note is used.

A check, draft, or order for the payment of a sum of money drawn otherwise than at sight, or on demand, is liable to stamp tax at the rate of 5c. for each \$100, or fractional part thereof.

A receipt for a bank check is a receipt for money within the terms of the Internal Revenue Act, and if for a sum exceeding \$20 requires a 2c. stamp, and is not relieved by the stamp upon the check.

On the 6th August, the annual festival called Ch'i-ch'iao, or "praying for cleverness," took place in China. It is a very curious custom, described as follows by the *Foochow Annals*: "On the seventh night of the seventh moon the ladies, married and unmarried (of the family), spread out for sacrifice seven sorts of grounds and fruits, seven teacups, and seven incense pots. They then squat down, and taking seven threads of silk, to thread seven needles by the glare caused by the burning of a little paper, their respective skill (in the performance of female duties) being evinced by the number of needles they can each thread in this short space of time. They also catch small spiders and shut them up in boxes till daylight on the following morning, when, if a web is spun in either of the boxes, it is considered a proof that the deity has granted to the fortunate owner of the box her 'prayer of cleverness.'"

IRON in the BLOOD.

The necessity of a due proportion of Iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude, and "all goodness" pervades the system. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can be done by using the

PERUVIAN SYRUP,

—a protected solution of the protoxide of Iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.

To take medicines to cure diseases occasioned by a deficiency of IRON IN THE BLOOD, without restoring it to the system, is like trying to repair a building when the foundation is gone.

An eminent physician says: "I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscles."

Preparations containing certificates of cures, and recommendations from some of the most eminent physicians, clergymen and others, will be sent free to any address.

Dr. SHENCK'S PULMONIC SYRUP. This great medicine cured Dr. J. H. SHENCK, the Proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when, speedily death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. SHENCK makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few moments healthy, robust persons. Dr. SHENCK'S PULMONIC SYRUP, SEAWED TONIC, and MANDRAKE PILLS are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. SHENCK, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor—one when in the last stage of Consumption, and the other as he now is, in perfect health—are on the Government stamp.

Sold by all Druggists and Dealers. Price \$1.50 per bottle, or \$7.50 the half dozen.—Letters of advice should always be directed to Dr. SHENCK'S Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

HORRIBLE ACCIDENT. A man some time since was repairing a gas leak, corner of 28th Street and 6th Avenue, New York. He went into the excavation and they lit a match. An explosion of the gas took place, and the man was much burned. Dr. Tobias' Venetian Liniment was applied freely, and in three days the man was about his business in the Manhattan Gas Works as well as ever. His name is Samuel F. Waters. This is one of the wonderful cures made by Dr. Tobias' celebrated Venetian Liniment: it is not only good for Burns, but for Old Sores, Bruises, Chronic Rheumatism, Sore Throats, Cuts, Insect Stings, Pains in the Limbs, Chest and Back; also internally, for Colic, Cramps, Diarrhea, Dysentery and Croup. It is perfectly innocent to take internally, and is the best family medicine in the world. Orders are received from all over Europe for it. The most celebrated Physicians recommend it—it never fails. Dr. Tobias puts up every drop himself. Sold by all Druggists at 50 cents and \$1 per bottle. Depot 56 Cortlandt Street, N. Y. [Oct. 31—1m.]
