AMERICAN
WALTHAM
WATCHES.

The true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement — no mistake in the sizes or shapes of the pieces of which it is composed — nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and function expressly for the purpose, to produce the finished pieces. By means of multiplying gages and microscopes, tests and inspection, for the detection of wear in the cutting tools, and for faults and flaws in steel or stone are made to accompany the work in every stage from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home. — Instead of a sluggish and feeble action, the balance, even under the pressure of the lightest main-spring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time-keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but it is uniform in the minutest details, not easily damaged, and when repaired always as good as new. — There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

This peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and throws the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing view, and above all, by the general infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children into the third and fourth generation;" indeed, it seems to be the rud of him who says, "I will visit the iniquities of the fathers upon their children." The disease it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become necrotic sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptions and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "taint of the flesh" healthily, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy you have tried, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of the considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its use you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

AYER'S

CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
