DONATION.

The friends and congregation of the Presbyterian Church of Stroudsburg, purpose giving their pastor, Rev. B. S. Everitt, a donation visit, at the Parsonage, on Thursday, January 30th, 1868, afternoon and evening.

The public generally are cordially invited to attend.

Lectures.

A course of Lectures is to be delivered at the Court-House, in this borough, under the auspices of The Young Men's Association of the Presbyterian Church, in aid of the fund for the erection of a spire upon the new Presbyterian Church edifice, now in course of erection.

The services of the following gentlemen have been secured:—

Rev. B. S. Everitt, who will lecture on Tuesday evening, the 28th inst., upon the subject of "My Neighbor."

Tuesday, February 4, 1868, A. Reeves Jackson, M.D. Subject—"A Summer Cruise in the Mediterranean."

Tuesday, February 11, 1868, L. W. Broadhead, Esq. Subject—"The Ministry and Its Early People."

Tuesday, February 18, 1868, A. R. Jackson, M.D. Subject—"Egypt and the Holy Land."

Monday, February 24, 1868, S. Holmes, Jr., Esq. Subject—"Curiosities of Language."

The Committee on Lectures have secured the Court-House for the purpose, as being more convenient of access than the old Presbyterian Church, where lectures have formerly been delivered; and have fixed the price of admission, in order to enable all to attend, at the low rate of 25 cents, or \$1.00 for the course. Doors open at 7 o'clock, P. M. Lecture to commence at 7 1/2 o'clock, P. M.

The Rev. Mr. Davidson will lecture in the Court House, on Thursday, January 30th, on the Temperance Question. Mr. Davidson is lecturing as the Agent of the Good Templars, and is endeavoring to organize societies in their interests. His lecture will be interesting.

I. S. Case has been appointed Postmaster at Tobyhanna Mills, vice Simon Gruber, resigned.

The Heirs of the estate of Wayne G. Drake, deceased, on Thursday last, 16th inst., sold the dwelling house and lot, situate on Main Street, in this borough, to Silas S. Drake, for \$2,225. Also—the Farm, situate in Cherry Valley, to Amos La Bar, for \$5,733.

The French Emperor has come so far down from his high catholic throne as to grant a reception at the palace, on a week day, to the managers of the English and American Bible Society. He said he was both surprised and gratified to learn that the Bible had been translated into 170 languages. His fetes were all ways held on Sunday.

The inhabitants of the islands of St. Thomas and St. John's have had an election on annexation to the United States, and voted almost unanimously to come with us. This is all very flattering to us, but the poor, innocent creatures, who so confidently throw themselves into the arms of Uncle Sam, will find that he cannot stay the earthquake nor the sea, and that the elements will still hold dominion over them and their wonderful ports and harbors. Their case reminds us of the man who put a heavy mortgage on his house so it could not blow over!

Stanton is Secretary of War, and has been for some days, and yet there is no war, although many have expected it would come ere this.

The Republicans of Northampton county met at Easton, on Monday last, and elected delegates to the State Convention and expressed themselves strongly in favor of Grant and Curtin for the Presidency and Vice Presidency.

Judge Maxwell addressed the convention defining himself as a friend of Grant and Curtin for the Presidency and Vice Presidency. Judge Maxwell then moved that Wilson H. Hildebrand, John Bereaw, of Easton, Geo. Moyer, South Easton, John A. Laubach, of Allen, and Richard Camden of Upper Mt. Bethel, be elected conferees to meet at Stroudsburg, and nominate a delegate to the National Convention.—Carried.

The 24th of February has been set for the second trial of John H. Surratt.

The regular army of Mexico is to be 18,000 men hereafter, and is to cost \$1,400,000 per annum.

The Fenians.

The Fenians are giving the British Government almost as much trouble as Mexico gave to Napoleon III., with this difference; the British are in the midst of their difficulties whilst the French were away from theirs. England is in a perpetual scare; suspects ill,—because she deserves it—every thing that is bad is laid to the charge of the Fenians. We fear their tremor will lead them into trouble with foreign nations. The Cable says Geo. F. Train, a prominent citizen of our country, was nabbed by the authorities as soon as he touched British soil, a few days ago. Now the American people are not going to stand any such insult. No matter what views Mr. Train expressed in this country in regard to Fenianism he must not be arrested for that in another country. If this is international law, who of our prominent men would dare to leave his own country on business or pleasure? No, no, Johnny Bull, you are too much scared and are acting with very great impropriety. You had better put yourself in some safe place till you can collect your ideas and come to yourself again. If you continue in your present excitement you will very soon deserve the mad-house and an unaccustomed confinement. Greek Fire, explosive letters, powder kegs and the like are subjects too powerful for your unstrung nerves just now, O Johnny Bull!

RELEASE OF MR. TRAIN.

LONDON, Jan. 21—Evening.—Geo. F. Train was discharged from arrest at Cork this morning. He has sent the following despatch to his friends in America:—"I have just been released on intervention of Mr. Adams, and have brought suit against the British Government for one hundred thousand pounds damages." (Signed) "GEORGE FRANCIS TRAIN."

At a late meeting of the Presbytery of Newton, held at Blairstown, N. J., to consider what could be done in behalf of the Blairstown Presbyterian Academy, the following preambles and resolutions were adopted, and the clerk was directed to forward copies for publication to the Warren and Sussex County papers, the Presbyterian and New York Observer, and such other papers as the friends of the Institution might designate:—

WHEREAS, The cause of Christian education has met with a severe loss at Blairstown, N. J., by the recent burning of "Blair Hall" erected and placed under the care of the Presbytery of Newton by John I. Blair, Esq. And

WHEREAS, The founder of this Institute, which has been greatly blessed and prospered, now generously proposes, not only to rebuild the boarding-house on an enlarged and improved plan, but also to add another building for Academic purposes, requiring an outlay of some \$30,000; both of which, with several acres of valuable land, he is about to present to this Presbytery: and

WHEREAS, Besides all this, the same liberal donor, by whose magnificent gifts to Princeton and Lafayette Colleges, the sons of the ministers of this Presbytery who prepare at the Blairstown Academy may pass through the entire curriculum of study at either of those colleges tuition free, now proposes to endow this Institution with at least \$10,000—the interest of which is to go towards the education of the sons of the ministers of this Presbytery, therefore

Resolved, That Presbytery, greatly acknowledging the good hand of God in this enterprise, do hereby tender to Mr. Blair their most hearty thanks for his noble generosity. Resolved, That as the worthy and esteemed Principal of this Institution, Mr. S. S. Stevens, has, by his calamity, lost nearly all that he had of his worldly goods, amounting to some four or five thousand dollars, it becomes the duty of the churches of this Presbytery and of the friends of thorough Christian education, cheerfully to come forward and relieve him from his great embarrassments, without delay.

To this end Presbytery would recommend the following or some similar plan, modified as circumstances may require:— Let the pastors of the different churches read these resolutions, or state the substance of them from their pulpits on the next Sabbath after they are received, or so soon thereafter as is practicable, and appoint committees to canvass the congregations, thus affording the people an opportunity to render the desired relief. Besides money, bedding and provisions of every kind are specially needed, as these were nearly all consumed by the fire, and the Principal has not the means to replace them.

As the citizens of Blairstown and vicinity follow up Mr. Blair's liberality by offering to do the teaming requisite to place on the ground all the materials for the construction of the buildings: it was desired by Mr. Blair, and thought by those present to be the least that Presbytery could with propriety do, to testify their appreciation of the magnificent gift placed in their hands, that they should furnish the rooms with all articles of a heavy, permanent character, which are to remain in the buildings, and with them become the property of the Presbytery. Thus churches, families and individuals may furnish one or more rooms, such as they may designate. Donations for this purpose are greatly needed, immediately to furnish rooms in Mechanics Hall, which will be occupied by the school until about the 1st of August next, when the new buildings will be completed and the furniture removed to them.

By order of Presbytery. MYRON BARRETT, Clerk. January 16th, 1868.

No Medicine ever appeared with stronger vouchers for its general and substantial excellence than the Peruvian Syrup. Invalids, especially those suffering from dyspepsia or debility, should send to J. P. Dinmore, 36 Dey street, New York, for a pamphlet (sent free), concerning this remarkable remedy.

Health Giving Wine.

Some time since Mr. A. Speer of Passaic, N. J., presented us with a bottle of his Port Grape Wine. In our turn, we presented it to a friend who was in feeble health. After giving the wine a few trials, our friend assures us he derived marked benefit from its use. We find that many invalids in this city are using Speer's Port Grape Wine with the same beneficial results.

Druggists keep it.

In Cincinnati during 1867 there were 3,635 deaths; the losses by fire were \$1,600,000, \$500,000 more than the insurance, and the city expenses were \$2,883,421 71.

The municipal election in Allegheny, held on the 17th inst., resulted in the election of the Union Republican nominees for Mayor and Director of the Poor. Both branches of the City Council will be largely Republican.

Seven and one quarter pounds is the weight of an Oregon potato.

The Pardon Report.

Gov. Geary has prepared and published a message defending his exercise of the pardoning power. This paper, which is entirely too long for publication, exhibits the special facts in the case of each pardon, and repeats the fact that in every instance petitions have been signed which almost always included the name of the Judge before whom the prisoner was tried, the prosecutor, the District Attorney, praying for Executive clemency. As a rule we observe that the county officers seem to have a propensity for attaching their signatures to such papers. This report shows fifty-two pardons granted in 1867 by Gov. Geary—being a less annual average than the records prove against Governors Curtin, Packer, Bigler, Wm. F. Johnson, Shauck, Ritner or Porter.

A Temperance Convention for the State of Pennsylvania will be held at Harrisburg, beginning on Tuesday, the 18th day of Feb. 1868, at 10 o'clock A. M. and to continue as long as it finds business or matter for its consideration: Arrangements have been made with most of the Railroad companies to furnish delegates or representatives of the various Temperance organizations with free return tickets, making half fare to all such. "All Churches, Colleges, and Academies, all Temperance Societies, Divisions of Sons of Temperance, Temples of Honor, and Temperance Lodges of Good Templars, County Societies auxiliary to the Union and all other friendly societies are requested to have themselves represented by such number of delegates as they may choose."

Our State Legislature did nothing last week worthy of remark. Several days were spent by the House in discussing the Johnson and Stanton business, resolutions applauding the latter and General Grant being finally adopted by a party vote.

General William W. Irwin, of Beaver county, was elected State Treasurer by the Legislature last week, over William V. McGrath, of Philadelphia, the Democratic candidate. This result has been apparent since the election of all the prominent Legislative officers from east of the mountains. Gen. Irwin is a man of ability and experience, and we think will make a good Treasurer.

A couple in Oregon got tired of living together, and mutually signed a paper which they drew up for themselves—the wife giving her "beloved husband a full divorce, and wishing him all the happiness he could get," and the husband giving his wife "a little rat colored mule."

The report of Commissioner Wells puts our annual national expenses at \$150,000,000 for ordinary purposes, \$130,000,000 for the interest of the public debt, and \$50,000,000 for the reduction of its principal. He says the United States is the only nation that is materially reducing its public debt or its taxes, and the only one able to pay its debt within a limited period.

Officers of the Legislature.

The following are the officers of the Pennsylvania Legislature for the present session: Senate—Speaker, James T. Graham, of Allegheny; Clerk, Geo. W. Hamersley; Assistant Clerks, Lucius Rogers, Fred. P. Braggins; Transcribing Clerks, Michael Reilly, Wm. E. Browne, Ebenezer Williams, Wm. G. Bausler, Peter J. Conyne; Sergeant at arms, Wm. A. Ripport; Ass't do., Maj. L. G. McCauley, James W. Curry; Messenger, Robert Sharp; Ass't Messenger, A. B. McLean; Doorkeeper, Ethel Fuller. House—Speaker, E. W. Davis, of Philadelphia; Clerk, James L. Selfridge, Northampton; Assistant Clerk, Edward G. Lee, Philadelphia; Sergeant at arms, Captain Casper Gang, Allegheny; Assistants, W. J. Woods, Israel K. Rayon, John McConnell, Robert Johnson; Postmaster, A. M. Henry; Assistant, James Penrose; Doorkeeper, J. H. Hill; Messengers, James McCarty, Barrett Brown, P. C. Hemphill, T. Bishop; Transcribing Clerks, Frederick McGee, George A. Backoven, Reuben Berand, John T. Keagey, Wm. A. Nichols.

General Meade seems determined to do his duty whether it pleases the President or not.

Bayard Taylor finds living cheap in Venice. A cup of tea at a first-class restaurant costs but four cents, and a good dinner with wine forty cents. But this involves extravagant luxury. Bread, fish, and fowls, cooked, may be bought for a trifle, and roasted pumpkins seeds, more palatable to some people than almonds, are sold in the streets at marvellously low rates, and eaten in large quantities.

The Rafisman's Journal of Clearfield says: In consequence of the sudden disappearance of the snow, last week, all timber operations ceased, and at present, the prospect for getting out any thing like the usual quantity is rather problematical.

Parental Persecution.

A most revolting development.—Recently, in the city of Paterson, the father and mother of a young woman named Mary Carr, undertook to compel her to marry a young man named Hays, whom they had selected for her husband. She objected to the mate selected for her, and her mother then hit upon the plan of abducting and confining her in an out-of-the-way place, until she should relent.—In the carrying out of this plan she was assisted by Hays; but the girl finally made her escape, and the father, mother and "lover" were all brought, last week, before the Passaic County Court, where they were duly convicted and punished for their criminal persecution of the poor girl.

The evidence on this trial showed on the part of the mother an utter destitution of womanly feeling as well as common decency. In connection with Hays, she hired several Paterson loafers to abduct the girl from Lodi, and to this end she was dragged. They took her to Paterson and kept her in a close room, but the girl still holding out against them, they resolved, on the second day after her capture, to get Hays into the room with her, under the pretense that he was drunk. This was accomplished by the mother and stepfather, who, having confined the daughter into a room with Hays, locked the door upon the young couple. Until 4 o'clock the following morning the girl struggled with Hays, and then escaped. Her stepfather having risen for the day, she went into her mother's bed and soon fell asleep, but the mother then called Hays and put him into the bed with her. The girl again awoke, and after a struggle, escaped back to her prison-room, from which she fled in the evening. The prisoners coolly pleaded good intention in forcing the girl to marry the man of their choice. But the plea was too ridiculous to merit a moment's attention. The jury promptly condemned them, leaving the Court to administer the proper punishment.

The eighth of January banquet at Washington, at which A. J. and five hundred guests were present, did not terminate so harmoniously as was represented, but ended in a genuine row.—Wine and whisky flowed freely, hence we are told that Gen. Ed. McCook, minister to the Sandwich Islands, and an editor of a Johnson paper in Washington, had an altercation, when canes were energetically used and blood flowed more or less. The parties were finally separated without serious damage to either.

The Legislature of Ohio, on Tuesday, elected A. G. Thurman, democrat, to the U. S. Senate, to succeed on the 4th of March, 1869, the Hon. Ben. Wade, Vallandigham, the Martyr, was the antagonist of Thurman, but the latter beat him in the democratic caucus more than two to one. This decision lays Vallandigham pretty effectually upon the shelf.

Internal Revenue Decisions.

The Commissioner of Internal Revenue has rendered the following decisions: A mortgage, securing \$100 or less, is not subject to a stamp duty; but the liability of the bond or note, which is evidence of the amount secured, is the same as if there were no mortgage. The necessary stamp may, however, be affixed to the bond or to the mortgage. Section 160.

The position of treasurer in the organization of Odd Fellows or Free Masons or any other similar organization is not an office within the meaning of the statute. Bond given by the persons holding such positions are therefore, not subject to a dollar stamp each as bonds "for the execution or performance of the duties" of an office, but to a twenty-five cent stamp only, as a bond not otherwise charged in Schedule B.

Any person who has a capital C in his name cannot be President of the United States. See the number of great statesmen who have been beaten as candidates: George Clinton, Charles C. Pinckney, De Witt Clinton, William H. Crawford, Henry Clay, Lewis Cass, John C. Fremont, John C. Breckenridge, George B. McClellan, (and other names.) J. C. Calhoun, Simon Cameron, J. J. Crittenden, S. P. Chase, S. Calfax and others.

The Maine Farmer recommends country ladies to take a medium sized pumpkin seed, carefully cut out the meat on the under side, put a narrow strip of fur around the edge, and fasten the strings to the sides, and they will have a bonnet in the pink of fashion. The broad end of the bonnet should be worn in front to keep off the sun and wind.

During the short term of Mr. Kemble, as State Treasurer, three years, the debt of Pennsylvania has been reduced nearly \$5,000,000, and this too when the war and other expenses, were necessarily large.

Mr. Kemble estimates an excess of \$1,600,000 over our expenditures during the coming year. As this is a much larger excess than is required—necessary and wise to collect—he urges a repeal of the three mill tax on personal property, bonds, mortgages and moneys at interest, except the bonds and mortgages issued by corporations.

One of the Japanese now performing in Norwich, who belongs to a religious sect in his native country that obliges him to indulge in a meal of live coals twice a week—Thursdays and Sundays—entered a small party at the Wauregan House on Sunday evening by the performance of this singular religious rite. He cut up some pine wood and put it in the stove, and after it was well charred, took it out in pieces of about half an inch square and two inches long, and ate it down as though it had been confectionery.

Obituary.

New York, Jan. 17.—John Jacob Astor died in this city this morning in the sixty-fifth year of his age.

James Buchanan is in his seventy-fourth year.

Thaddeus Stevens is so weak as to require two stout men to carry him up the steps of the Capitol, to his seat in the House.

It is suggested to unite Pennsylvania and New Jersey by a bridge across the Delaware, between Philadelphia and Camden.

Philadelphia, Jan. 16.—To-day the husband of Mrs. Lucy Graham entered the room where she was nursing her sick mother and shot his wife through the head. He then delivered himself into custody. He alleged as a reason that she had repeatedly tried to poison him.—She is fatally wounded.

Every Republican paper in Northern Pennsylvania, is out for Hon. G. A. Grow, for the Vice Presidency. The Pittsburg Gazette, and other influential journals in the central and western counties also regard him favorably. If the candidate is to be taken from Pennsylvania Mr. Grow is the best man named, or to be named, in our judgment. He can be trusted under all circumstances, and his public services entitle him to distinguished consideration at the hands of the people.

A cunning trick was performed in Newark, N. J., on Friday last. A man pretended to be drunk slipped and fell against a store window, breaking a large pane of glass. He declared he had no money to pay for the damage, when he was searched by the proprietor, and a hundred dollar bill found in his pocket. This was immediately changed \$12 being retained for damages, and \$88 handed to the inebriate, who staggered off and was soon lost sight of. The \$100 bill was subsequently sent to the bank for deposit, when it was discovered to be counterfeit.

The elephant Romeo, who recently killed his keeper at Hatborough, has not been pacified. He is confined in a pen of strong timbers and will allow no person to approach him.

Special Notices.

PROOFS OF THE SUPERIORITY OF THE AMERICAN WATCHES.

This country has reason to be proud of this splendid specimen of American operative genius and enterprise. That it will work a revolution in the watch manufacturing of the world no one can doubt who examines the operations of the Waltham establishment, for it turns out watch movements at just about one-half the cost of imported movements—beside the uniform reliability of the machine-made watches must give them a great advantage over all others wherever known. A poor time-piece of the machine make will be as rare in the future as a good one of hand make has been heretofore, for machinery is arbitrary in its performance, and can make a perfect article just as easily as one that is worthless. It will be a cause of congratulation if this highly useful American Enterprise shall have the effect of driving out of market the thousands of trashy foreign articles mis-called timekeepers, by furnishing so excellent and economical a substitute.—N. Y. Times.

"We have had one of the works of this Company in a case for some considerable time, and, comparing them with former first-class works of different manufacture possessed by us, they have established in our opinion their superiority over any ever introduced for correctness as time pieces.—The World.

"We notice with regret (writing of the Paris Exposition) the absence of specimens American manufacture, which, although only comparatively of recent birth among us, is already producing results of the most satisfactory character. The watches manufactured by the Waltham Company are certainly, so far as strength, durability, and excellence as time-keepers are concerned, as good as anything produced by the French or Swiss manufacturers.—N. Y. Herald.

"The beauty, the precision, the greater cheapness, the uniform excellence of a watch constructed by machinery—so exquisite that the more spectacle of its operation is poetic, gradually give the American Watches a public preference which will not be deceived.—Harper's Weekly.

Chronic Diseases, Scrofula, Ulcers, &c. It is well known that the benefits derived from drinking of the Congress, Saratoga and other celebrated Springs, is principally owing to the Iodine they contain.

Dr. H. Anders' Iodine Water Contains Iodine in the same pure state that it is found in these spring waters, but over 500 per cent. more in quantity, containing as it does 1-4 grains of each fluid ounce, dissolved in pure water, without any admixture of any kind of foreign matter, and is the best remedy in the world for Scrofula, Cancer, Salt Rheum, Ulcers, and all Chronic Diseases. Circular from: J. P. DINSMORE, Proprietor, 36, Dey Street, New York. Sold by all Druggists. (Jan. 2, 1868.)

ADDRESS TO THE NERVOUS AND debilitated whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable. If you are suffering or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, get out of order? Is your urine sometimes thick, milky, or floccy, or is itropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood a while? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling upon this subject? Do you feel dull, listless, mooping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken, restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flabby, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint!

Now, reader, selfishness, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man.—Did you ever think of those bold, defiant, energetic, persevering, successful businessmen are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men from badly-cured diseases, from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiotcy, lunacy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of a diuretic. HELMHOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating and no matter of how long standing. If no treatment is submitted to, Consumption or In-anity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

Helmhold's Extract Buchu, established upwards of 18 years, prepared by H. T. HOLMBOLD, Druggist, 534 Broadway New York, and 104 South 10th St., Philadelphia, Pa. Price—\$1.25 per bottle, or 6 bottles for \$6.50, delivered to any address. Sold by all druggists everywhere. [Feb. 28, '67.

Song of Iron.

I am mighty in the labor, Ferocely welded by the brass, Glorious in the stalwart steamer, Laughing at the storm and waves. Reunited in the palace pillars, Saving in the pointed roof, As it binds the destiny together, Quelled and harmless to the soul. But there is a glorious essence, Where I take my grandest power, Giving to the racy my success, As it sets me out, in danger's hour. See! before me fly diseases! See the disease and bow! See the rose of health and beauty Take the palest cheek and brow. Fly, dyspepsia! fly, consumption! Yes, all fits are crushed at length, For I give what I can restore, Only ever needed—strength!

Should I tell in what great essence I can thus your spirits cheer up? Pallid, trembling, dying sufferers, 'Tis the famous "Peruvian Syrup."

The PERUVIAN SYRUP is a protected solution of the mineral of Iron, a new discovery in medicine that strikes at the root of disease by supplying the blood with its vital principle or life element.—Iron.
